Pevsner, and introd. by D. Riesman** ,1958 **The Passing of Traditional Society** ,1963 **The Passing of Traditional Society: Modernizing the Middle East** Daniel Lerner,1958 *When Men Revolt and Why* James Chowning Davies,1997-01-01 The environment within which humans interact has changed dramatically since the Industrial Revolution However their expectations stem from the same hopes and dreams people have had from the beginning of humankind When Men Revolt and Why encourages readers to look closer and more deeply into the relationships between humans and the institutions that have originated to help them realize their full potential The contributors not only examine people but also the need to change institutions that have outworn their usefulness When institutions inhibit rather than facilitate everyone s desire to live a full life the result is likely to be violence This book offers the ideas of many people who have tried to dig deeper into basic causes of violence Included in this volume are selections by Aristotle Tocqueville Marx and Engels and Brinton The ideas they espoused still hold vitality In his new introduction James Davies talks about the circumstances under which this book was originally published In Vietnam a people were fighting for their autonomy In the United States many Americans were protesting against American involvement in the Vietnam War Blacks were marching for their civil rights Women were fighting for equality Time has tempered these conflicts Davies maintains that we remain ignorant of the elemental forces that impel people and nations to resort to violence We are usually surprised by their anger and shocked by their violence Davies asserts that we need to learn more about how humans respond to change so as to prepare ourselves for such responses to change When Men Revolt and Why is as timely as ever as we deal with uncertainty in various areas of the world the former Yugoslavia the Middle East and Ireland among others It is especially pertinent for political scientists historians and sociologists **The Passing of Traditional Society** Daniel Lerner,1964 **Research Handbook on the Politics of Human Rights Law** Bård A. Andreassen,2023-01-20 International human rights law is undoubtedly intertwined with politics

and so this Research Handbook explores and provokes reflection on how politics impacts human rights legislation and conversely how human rights law shapes politics and the functioning of the state Bringing together leading international scholars in human rights law and politics the Research Handbook provides theoretical reflections and empirical analyses across the areas of governance and policies and examines the implementation mechanisms of human rights law in national and international jurisdictions

The Origins of the US War on Terror Mattia Toaldo, 2013 The war on terror did not start after 9 11 rather its origins must be traced back much further This book will blend the history of the American involvement in the Middle East with the history of the fight against terrorism It will focus on the Reagan administration while analyzing developments and policies carried out by local elites considering the general overview of American policy in the region with specific reference to events in Lebanon and Libya

The Return of the Past Uzi Rabi, 2019-11-04 This book argues that the Arab Spring brought to the forefront numerous societal political and historical problems in the Middle East that scholars and practitioners throughout the 20th century and into the 21st century have continually glossed over or reduced in their analysis and analytical frameworks when studying the Middle East These include the prevalent and persistent impact of Islam on political life an impact of transnational and subnational identities including sect tribe and regional identity as well as the overuse of the state as the fundamental unit of analysis when studying the region As a result this book asserts that primordial identities including religion sect and tribe have and will continue to have a significant impact on the conduct of politics in the Middle East
