The sign has the words 'PAST', 'NOW', and 'FUTURE' written on it in a stylized, hand-drawn font. 'NOW' is in red, while 'PAST' and 'FUTURE' are in a dark red or maroon color. The person's hands are visible, resting on the table. The background is a plain, light-colored wall.

Paffenroth, 2012-07-10 Augustine of Hippo was a philosopher as well as theologian bishop and saint He aimed to practice philosophy not simply as an academic discipline but as a love for divine wisdom pervading everything in his life and work To inquire into Augustine and philosophy is thus to get to the heart of his concerns as a Christian writer and uncover some of the reasons for his vast influence on Western thought This volume containing essays by leading Augustine scholars includes a variety of inquiries into Augustine's philosophy in theory and practice as well as his relation to philosophers before and after him It opens up a variety of perspectives into the heart of Augustine's thought He frequently reminds his readers philosophy means love of wisdom and in that sense he expects that every worthy impulse in human life will have something philosophical about it something directed toward the attainment of wisdom In Augustine's own writing we find this expectation put into practice in a stunning variety of ways as key themes of Western philosophy and intricate forms of philosophical argument turn up everywhere The collection of essays in this book examines just a few aspects of the relation of Augustine and philosophy both in Augustine's own practice as a philosopher and in his interaction with others The result is not one picture of the relation of Augustine and philosophy but many as the authors of these essays ask many different questions about Augustine and his influence and bring a large diversity of interests and expertise to their task Thus the collection shows that Augustine's philosophy remains an influence and a provocation in a wide variety of settings today

*Remains of the Past in Old English Literature* Jan-Peer Hartmann, 2025-02-11 Argues for a new understanding of Old English responses to materiality and historical change Human communities have interacted with the material remains of earlier periods for millennia Such archaeological objects including bones coins weapons building materials and architectural landmarks were physically handled reused transformed and reinterpreted they were also depicted in literature This book examines how Old English texts imagine such human encounters with the remnants of the past It explores Elene's perspective on the discovery of the True Cross as a narrative of political spiritual and epistemic translatio and the multiple ways in which *The Wanderer* and *The Ruin* use images of ruins and the poetic formula work of giants to construct an unknown and unrecoverable past it also considers the engagements with untimely objects in *Beowulf* and the Anonymous Old English Legend of the Seven Sleepers and how the *Ruthwell Cross Poem* and *The Dream of the Rood* play off figural against literal history As this study demonstrates Old English texts combined and creatively adapted a broad variety of ways of conceptualizing not merely history but indeed the very processes by which historical thought operates Its careful readings show that these texts not only display a deep and conflicted understanding of the philosophical implications of viewing history and temporality through the prism of material objects but also exhibit a powerful capacity for expressing such an understanding through aesthetic strategies
