The Pastor The Life Of An Immigrant:

Immigrant Theology Rev. Dr. Job J. Cobos, 2018-09-20 What if I told you a story about children experiencing deportation What if I told you of parents and children facing interment and enduring untold hardship as they traveled through the desert landscape What if I told you about families that brave destructive environments in their homeland the as they flee What if I told you about the religious experience of immigrants whose faith helped them conquer their daily fear of being deported while they made a new life for themselves in this country What if I told you about the power of establishing relationships as the solution to the problem of immigration What if I told you about Jesus encountering and establishing relationships with foreigners

Immigration Policy in the Age of Punishment Philip Kretsedemas, David C. Brotherton, 2018-04-10 The events of 2016 catapulted immigration policy to the forefront of public debate and Donald Trump's administration has signaled a harsh turn in enforcement Yet the deportation detention and border control policies that North American and European countries have embraced are by no means new In this book sociologists David C Brotherton and Philip Kretsedemas bring together an interdisciplinary group of contributors to reconsider the immigration policies of the Obama era and beyond in terms of a decades long age of punishment *Immigration Policy in the Age of Punishment* takes a critical interdisciplinary and transnational look at current issues surrounding immigration in the U S and abroad It examines key features of this age of punishment connecting neoliberal governance global labor markets and the national obsession with securing borders to explain critical research and theory on immigration enforcement Contributors document the continuities between presidential administrations and across countries from many perspectives with chapters discussing Canada Australia France the UK the Dominican Republic and Mexico in addition to the U S They offer macro level analyses of deportations and border enforcement analyses of national policy and jurisprudence and ethnographic accounts of the daily life experience of the prison to deportation pipeline the making of deportability and post deportation transitions for noncitizens This book highlights new directions in critical immigration policy and enforcement and deportation studies with the aim of problematizing the age of punishment that currently reigns over borders and those who seek to cross them

[Joe Biden's Policies on Abortion and Immigration](#) Jo Renee Formicola, 2023-10-30 The first part of Joe Biden's Policies on Abortion and Immigration examines the policy quandaries that arise from the fact that President Biden considers himself a liberal a Catholic and a Democrat That self identification has challenged aspects of his leadership and governance that have resulted in growing national controversies surrounding his abortion and immigration policies Thus this book articulates Catholic moral and social teachings on these issues the president's perceived religious beliefs that often clash with his personal views and values as well as his opposing political responses to them It also explains his partisan actions to abortion and immigration that include numerous executive orders appointments of individuals who are unable to

help him develop solutions to such critical matters and his criticisms of the Congress the Supreme Court and previous administration officials The second part of this book then gives examples of how policy difficulties have been overcome by various government leaders who have also dealt with critical decision making and agenda options It provides historical models management methods communication strategies and religious principles that can be utilized to create pragmatic solutions to the problems of immigration and abortion They can also be implemented by the president while also helping him to instill a sense of unity and justice on these policy issues in the United States

Brazilians in a Promised Land Jorge William de Castro Abdala, 2022-08-25 There are an estimated of 1 3 million Brazilian immigrants living in the United States approximately 460 000 Brazilian Americans as of mid 2019 The Brazilian population in the United States is relatively small and the lack of knowledge of Brazilian immigrants and the tendency to stereotype based on the perception and assumption has had a negative impact on many Brazilian ministries There are only thirteen Brazilian ministries within the Presbyterian Church USA and the total number of Brazilians membership within the PC USA is approximately seven hundred people Some of these ministries have existed for over twenty years but very little information has been given about their existence and experiences Brazilian ministries that thrive most in the PC USA's body cherish their own identity understand what those essential factors and keys are and embrace the challenges and opportunities in a cross cultural experience Every thriving Brazilian ministry is made of people who reflect the image of God in the migration context and plays a unique model to love outcast Brazilians living in this promised land

Religion and the New Immigrants Helen Rose Fuchs Ebaugh, 2000 New immigrants_those arriving since the Immigration Reform Act of 1965_have forever altered American culture and have been profoundly altered in turn Although the religious congregations they form are often a nexus of their negotiation between the old and new they have received little scholarly attention Religion and the New Immigrants fills this gap Growing out of the carefully designed Religion Ethnicity and the New Immigration Research project Religion and the New Immigrants combines in depth studies of thirteen congregations in the Houston area with seven thematic essays looking across their diversity The congregations range from Vietnamese Buddhist to Greek Orthodox a Zoroastrian center to a multi ethnic Assembly of God presenting an astonishing array of ethnicity and religious practice Common research questions and the common location of the congregations give the volume a unique comparative focus Religion and the New Immigrants is an essential reference for scholars of immigration ethnicity and American religion

Religion and the New Immigrants Michael W. Foley, Dean R. Hoge, 2007-02-08 The explosive growth of the immigrant population since the 1960s has raised concerns about its impact on public life but only recently have scholars begun to ask how religion affects the immigrant experience in our society In Religion and the New Immigrants Michael W Foley and Dean R Hoge assess the role of local worship communities in promoting civic engagement among recent immigrants to the United States The product of a three year study on immigrant worship communities in the Washington DC area the book explores the diverse ways in which such communities build social

capital among their members provide social services develop the civic skills of members and shape immigrants identities It looks closely at civic and political involvement and the ways in which worship communities involve their members in the wider society Evidence from a survey of 200 worship communities and in depth studies of 20 of them across ethnic groups and religious traditions suggests that the stronger the ethnic or religious identity of the community and the more politicized the leadership the more civically active the community The explosive growth of the immigrant population since the Local leadership much more than ethnic origins or religious tradition shapes the level and kind of civic engagement that immigrant worship communities foster Catholic churches Hindu temples mosques and Protestant congregations all vary in the degree to which they help promote greater integration into American life But where religious and lay leaders are civically engaged the authors find ethnic and religious identity contribute most powerfully to participation in civic life and the larger society Religion and the New Immigrants challenges existing theories and offers a nuanced view of how religious institutions contribute to the civic life of the nation As one of the first studies to focus on the role of religion in immigrant civic engagement this timely volume will interest scholars and students in a range of disciplines as well as anyone concerned about the future of our society

Church, Immigration & Pluralism Oleg Dik, 2023-02-16 This book wrestles with the question of how the church can thrive in such a diverse urban environment as Berlin and contribute to the flourishing of a pluralistic society The study includes embedded experience on the streets and crosses the disciplinary divides of Sociology Theology The main claim of the book is that the church is only able to thrive when it is willing to descend into the messy urban reality and encounter the stranger However the church can only do so by glimpsing God's glory in worship Living pluralism emerges from the grassroots The church can only become a gift to society paradoxically By not setting itself at the center but rather by gathering around the triune God and abandoning its desire for power and relevance the church will unintentionally provide a fertile soil within which resilient pluralism will grow Oleg Dik is professor for urban Theology Sociology at the Evangelische Hochschule TABOR Marburg TSB Theologisches Studienzentrum Berlin and lectures occasionally at Humboldt University Berlin in Sociology of Religion

Lamport,2025-08-19 The fifteen chapters of *Engaging Coloniality* tell a complex and multifaceted story of Latin American Christianity Latin America was the first region of the colonized world to be Christianized As no form of Christianity preexisted the colonial invasion of Latin America no Latin American Christian story can be told without reference to colonialism Throughout its five hundred year history in Latin America Christianity has taken multiple forms This history is presented as in no other volume available in English Primarily non Eurocentric perspectives alternate between continuity and transformations Rather than emphasizing denominational branches this volume focuses on liberative decolonial and intercultural movements This book is cutting edge scholarship on Latin American religion and theology and the featured contributors represent the extent of a continent where almost six hundred million Christians live today Latin American Christian identity has never been homogeneous and the volume describes countless Christian spiritualities and practices resulting from continuous encounters tensions and negotiations over five centuries These encounters have not taken place in a historical vacuum but as part of a broader history in which visible and invisible power disparities still inform the limits challenges and promises of the Christian experiment in the region *Religion and Immigration* Yvonne Yazbeck Haddad,Jane I. Smith,John L. Esposito,2004-01-01

Geographies of Migration Richard Wright,2018-02-02 Migration is an enormously broad topic of academic enquiry engaging researchers from many different social science disciplines A wide variety of contributors from across the globe capture some of the methodological and conceptual range of migration research in the discipline of Geography today This volume covers a large area geographically and in the expanse of subject areas involved eighteen chapters investigate migration from to or within at least fifteen countries with several sections spanning multiple places and scales Many chapters are deeply concerned with vulnerable populations which is not only a characteristic of much immigration scholarship but also one that connects with other areas of geography The study of geographical assertions of sovereign power via the discourses of disorder chaos and crisis shows that in these transnational times national power is being violently reasserted on within and beyond international borders Other important topics covered include migration and climate change illegality security government policy labor family and sexual orientation This book was previously published as a special issue of *Annals of the Association of American Geographers*

Churches and Charity

in the Immigrant City Alex Stepick, Terry Rey, Sarah J. Mahler, 2009-04-15 In addition to being a religious country over ninety percent of Americans believe in God the United States is also home to more immigrants than ever before Churches and Charity in the Immigrant City focuses on the intersection of religion and civic engagement among Miami's immigrant and minority groups The contributors examine the role of religious organizations in developing social relationships and how these relationships affect the broader civic world Essays for example consider the role of leadership in the promotion and creation of civic social capital in a Haitian Catholic church transnational ties between Cuban Catholics in Miami and Havana and several African American congregations that serve as key comparisons of civic engagement among minorities This book is important not only for its theoretical contributions to the sociology of religion but also because it gives us a unique glimpse into immigrants' civic and religious lives in urban America **Who Is an African?** Roderick R. Hewitt, Chammah J.

Kaunda, 2018-09-15 The subject of race and identity is a burning issue which continues to occupy the attention not only of South Africans but also the wider residents of the continent of Africa and those who are Africans in the Diaspora The outburst of xenophobic attacks against foreigners mostly of Black African origins in some communities of Kwa Zulu Natal and areas of Johannesburg during 2008 and 2015 has raised questions about the social cohesion of South African society linked to unresolved structural identity issues bequeathed by the nation's past colonial and apartheid legacy This publication argues that there is an embedded schizophrenic identity crisis within the society that requires scholarly interrogation The chapters assemble scholarly voices from different ethnic groups that examine the central research question of this study Who is an African Within the wider Southern African context identity and ethnicity politics are framing nationalist economic policies and are impacting on social cohesion within many countries Writing from different social and racial locations the authors have critically engaged with the central question and offer some important insights that can serve as a resource for all nations grappling with issues of race ethnicity identity constructed politics and social cohesion **Preacher and Homiletic Monthly**, 1910
