Patchen, 2009-12-10 What I share in this book is my mission in life That is why I refer to myself as a missionary There is a second reason for this idea I believe that we each have a sage who lives within our spiritual being in life It is as if this sage cannot be found because of the fog of day to day living We must learn how to be guiet and listen to our own heart in understanding that we can identify those things around us that are positive at all times Each of us has a voice that some call a conscience some call a guide and some call an angel It is something intelligent that looks out for us and lets us know if we are getting into trouble along the way I very deeply feel that this inner sage also has a mission This sage is our own inner missionary However this inner missionary is unlike any you may have heard of in the world around us This missionary will never infringe It teaches by the example I want to share with each of you We must learn the power of not infringing on others or allowing them to infringe upon us As this is their mission they will not infringe upon any choice you make in life They allow you to experience the result of that choice on your own in order that you might learn that different choices bring different results into our life I will use the word sage and missionary interchangeably throughout this book
