**State Collapse and Reconstruction in the Periphery** Jens Stilhoff Sørensen, 2009-05-01 In the 1990s Yugoslavia which had once been a role model for development became a symbol for state collapse external intervention and post war reconstruction Today the region has two international protectorates contested states and borders severe ethnic polarization and minority concerns In this first in depth critical analysis of international administration aid and reconstruction policies in Kosovo Jens Stilhoff Sørensen argues that the region must be analyzed as a whole and that the process of state collapse and recent changes in aid policy must be interpreted in connection to the wider transformation of the global political economy and world order He examines the shifting inter and intracommunity relations the emergence of a political economy of conflict and of informal clientelist arrangements in Serbia and Kosovo and provides a framework for interpreting the collapse of the Yugoslav state the emergence of ethnic conflict and shadow economies and the character of western aid and intervention Western governments and agencies have built policies on conceptions and assumptions for which there is no genuine historical or contemporary economic social or political basis in the region As the author persuasively argues this discrepancy has exacerbated and cemented problems in the region and provided further complications that are likely to remain for years to come **Living in a hut in 21st Century South Africa** Monde Ndandani, 2015-03-01 This book takes a closer look at a hut homestead and a hut village examining the socio economic political and cultural life of their inhabitants Debating the

End of Yugoslavia Florian Bieber, Armina Galijaš, 2016-05-13 Countries rarely disappear off the map In the 20th century only a few countries shared this fate with Yugoslavia The dissolution of Yugoslavia led to the largest war in Europe since 1945 massive human rights violations and over 100 000 victims Debating the End of Yugoslavia is less an attempt to re write the dissolution of Yugoslavia or to provide a different narrative than to take stock and reflect on the scholarship to date New sources and data offer fresh avenues of research avoiding the passion of the moment that often characterized research published during the wars and provide contemporary perspectives on the dissolution The book outlines the state of the debate rather than focusing on controversies alone and maps how different scholarly communities have reflected on the

dissolution of the country what arguments remain open in scholarly discourse and highlights new innovative paths to study the period

**The New Bosnian Mosaic** Elissa Helms, 2016-02-17 Since the violent events of the Bosnian war and the revelations of ethnic cleansing that shocked the world in the early 1990s Bosnia has become a metaphor for the new ethnic nationalisms for the transformation of warfare in the post Cold War era and for new forms of peacekeeping and state building This book is unique in offering a re examination of the Bosnian case with a bottom up perspective It gathers together cultural anthropologists and other social scientists to consider the specificities of the Bosnian case However the book also raises broader questions what are the consequences of internecine violence and how should societies attempt to overcome them Are the uncertainties and the transformations of Bosnian post war society due entirely to the war or are they related to wider processes encompassing post communist Europe as a whole And are the difficulties experienced by international state building operations mainly due to distinctive features of the local societies or are they due to the policies promoted by the international community itself

*Turbo-folk Music and Cultural Representations of National Identity in Former Yugoslavia* Uroš Čvoro, 2016-03-03 Turbo folk music is the most controversial form of popular culture in the new states of former Yugoslavia Theoretically ambitious and innovative this book is a new account of popular music that has been at the centre of national political and cultural debates for over two decades Beginning with 1970s Socialist Yugoslavia Uro voro explores the cultural and political paradoxes of turbo folk described as backward music whose misogynist and Serb nationalist iconography represents a threat to cosmopolitanism turbo folk s iconography is also perceived as a genuinely Balkan form of resistance to the threat of neo liberalism Taking as its starting point turbo folk s popularity across national borders voro analyses key songs and performers in Serbia Slovenia and Croatia The book also examines the effects of turbo on the broader cultural sphere including art film sculpture and architecture twenty years after its inception and popularization What is proposed is a new way of reading the relationship of contemporary popular music to processes of cultural political and social change and a new understanding of how fundamental turbo folk is to the recent history of former Yugoslavia and its successor states
