Wessex: Archaeology and the Past in the Life and Works of Thomas Hardy. Martin J. P. Davies, 2011-08-15 Martin Davies examines Thomas Hardy's involvement with the past and the role it plays in his life and literary work Hardy's life encompasses the transformation of archaeology out of mere antiquarianism into a fully scientific discipline He observed this process at first hand and its impact on his aesthetic and philosophical scheme was profound **The Past in Contemporary Society: Then, Now** Peter Fowler, 2002-09-11 First published in 2002 Routledge is an imprint of Taylor Francis an informa company The Stonehenge People Rodney Castleden, 2002-01-31 First published in 1990 Of all the monuments left by the past Stonehenge is the most evocative the most memorable and the most mysterious Whilst the monuments of other cultures have gradually surrendered their mysteries Stonehenge alone seems to stimulate endless conjecture Rodney Castleden's vivid presentation of the world of the megaliths answers many of the most baffling questions about Stonehenge There are he stresses few absolute certainties but from the vast body of evidence assembled during the last hundred years it is now possible to get much closer to the truth than ever before Who built the monuments and for what purpose How were the bluestones moved from the sacred mountains of the west to Salisbury Plain Who were the people responsible for this amazing undertaking and what did they think and believe Handbook for British and Irish Archaeology, 1997 A one stop truly comprehensive dedicated and reliable sourcebook for archaeology *Walking the Great North Line* Robert Twigger, 2020-04-23 Robert Twigger poet and travel author was in search of a new way up England when he stumbled across the Great North Line From Christchurch on the South Coast to Old Sarum to Stonehenge to Avebury to Notgrove barrow to Meon Hill in the midlands to Thor's Cave to Arbor Low stone circle to Mam Tor to Ilkley in Yorkshire and its three stone circles and the Swastika Stone to several forts and camps in Northumberland to Lindisfarne plus about thirty more sites en route A single dead straight line following 1 degree 50 West up Britain No other north south straight line goes through so many ancient sites of such significance Was it just a suggestive coincidence or were they built intentionally Twigger walks the line which takes him through Birmingham Halifax and Consett as well as Salisbury Plain the Peak district and the Yorkshire moors With a planning schedule that focused more on reading about shamanism and beat poetry than hardening his feet up he sets off ever hopeful He wild camps along the way living like a homeless bum with a heart that starts stifled but ends up soaring with the beauty of life He sleeps in a prehistoric cave falls into a river crosses a suicide viaduct and gets told off by a farmer's wife for trespassing but in this simple life he finds woven gold He walks with others and he walks alone ever alert to the incongruities of the edgelands he is journeying through *Journey to Avalon* Chris Barber, David Pykitt, 2025-09-12 This book reveals the true identity of Arthur and locates his courts and long forgotten battle sites such as Badon and Camlan It also uncovers the secret of the mysterious Isle of Avalon and Arthur's resting place in a Breton church The authors present a convincing and conclusive answer to the puzzle of King Arthur Glossary of terms in Welsh and English Bibliography Index 78 illustrations **Walford's Guide to Reference Material: Social and historical sciences,**

philosophy and religion Alan Day, Marilyn Mulla, Priscilla Schlicke, Joan M. Harvey, 1993 The Gods' Machines Wun Chok Bong, 2008-05-27 Based on the author's decipherment of prehistoric carvings and the application of mathematical measurements *The Gods Machines* shows how unknown phenomena from Angkor Wat to Stonehenge to crop circles are actually powerhouses built by an advanced extraterrestrial civilization for tapping electromagnetic energy The book traces the development of that civilization on Earth over 5 000 years revealing how all these structures are aligned according to a universal formula an angle of 135 degrees at which Earth's energy has been tapped by the alien creators of these monuments These fascinating theories not only explain our distant past but also open the door to a future of power technology and space travel Megalithic sites such as Newgrange and Stonehenge are constructed with quartz and iron rich stones with electrical conduction properties minerals also found atop Aztec temple and inside crop circles These stones according to the author served as dry cell batteries when heated and stressed and supplied energy to the builders traveling vehicles Most interestingly the author has tested his theory on today's crop circles *The Gods Machines* is certain to stimulate debate among readers interested in alternative history ancient civilization and extraterrestrial intelligence
