Ethnic Origins of the Peoples of Northeastern Asia No. 3 Henry N. Michael, Maksim G. Levin, 1963-12-15 This is a translation from a Russian work published in 1958 one of the major works of a well known and prolific writer It deals with the origins of the small nations and peoples of central Siberia and northeastern Asia Many guesses have been made about these peoples but most have not been substantiated because of the lack of field work or because the materials on them had not been analysed and published Levin has reviewed the old materials gathered and analysed hitherto unpublished ones and personally surveyed many of the peoples as a member of the Russian Northeastern Expedition He makes use of all the data of physical anthropology ethnography archaeology and linguistics on the peoples he describes and has thus provided a definitive work on a nearly forgotten segment of mankind inhabiting an extensive territory Volume III in the series Anthropology of the North Translations from Russian Sources sponsored by the Arctic Institute of North America and under the general editorship of H N Michael Temple University Dodge's Elementary Geography Richard Elwood Dodge, 1907

The Peoples of Asia Leonard Halford Dudley Buxton, 1925 Cities in Asia by and for the People Yves Cabannes, Mike Douglass, Rita Padawangi, 2025-10-01 This book examines the active role of urban citizens in constructing alternative urban spaces as tangible resistance towards capitalist production of urban spaces that continue to encroach various neighborhoods lanes commons public land and other spaces of community life and livelihoods The collection of narratives presented here brings together research from ten different Asian cities and re theorises the city from the perspective of ordinary people facing moments of crisis contestations and cooperative quests to create alternative spaces to those being produced under prevailing urban processes The chapters accent the exercise of human agency through daily practices in the production of urban space and the intention is not one of creating a romantic or utopian vision of what a city by and for the people ought to be Rather it is to place people in the centre as mediators of city making with discontents about current conditions and desires for a better life This book examines the active role of citizens in constructing alternative urban spaces as tangible resistance towards capitalist production of space that continues to encroach various neighborhoods **Indigenous Peoples**

Montesquieu: The Spirit of the Laws Charles de Montesquieu,1989-09-21 The Spirit of the Laws is without question one of the central texts in the history of eighteenth century thought yet there has been no complete scholarly English language edition since that of Thomas Nugent published in 1750 This lucid translation renders Montesquieu s problematic text newly accessible to a fresh generation of students helping them to understand quite why Montesquieu was such an important figure in the early enlightenment and why The Spirit of the Laws was for example such an influence upon those who framed the American constitution Fully annotated this edition focuses attention upon Montesquieu s use of sources and his text as a whole rather than upon those opening passages towards which critical energies have traditionally been devoted and a select bibliography and chronology are provided for those coming to Montesquieu s work for the first time

Asia Literacy in a Global World Hannah Soong,Nayia Cominos,2018-08-20 This book is particularly timely in light of continuing international efforts to integrate Asia literacy into a national educational system where understanding of Asia its languages cultures histories and beliefs is still at an emergent stage for a nation that is evolving into what George Megalogenis refers as an Eurasian society 2015 The contributors to this collection range from the pioneers who created and developed the Asia literacy research space to those who bring additional new theoretical insights through disciplines such as linguistics and ethnography Their analysis has resulted in recommendations to develop a deeper understanding of working and living in diverse communities The book also brings together theoretical perspectives on the current Australian socio cultural and political context and how that can impact on pedagogical advancement in Asia literacy The book argues for a broadening focus on what the outcomes Asia literacy in a global world can be for all Australians and offers counter narratives to the myth of a homogenous White Australian culture to provide new ways of engaging with curriculum and pedagogy that transcend superficial awareness of multiculturalism to embrace realistic and reflective principles of global education
