The Perfume Of Egypt And Other Weird Stories:

The Perfume of Egypt C. W. Leadbeater, 2013-05-10 The Perfume of Egypt The Forsaken Temple The Major's Promise A Test of Courage An Astral Murder A Triple Warning The Concealed Confession Jagannath A Tale of Hidden India The Baron's Room Saved by a Ghost The stories told in this book happen to be true Of course I do not for a moment expect the ordinary reader to believe that and I shall be perfectly satisfied if I succeed in whiling away for him the tedium of a railway journey or if I can add for him a touch of pleasure to a comfortable evening before the fire or a lazy afternoon on the river For the few whose interest in these subjects is not merely superficial I may add that some of the events related are personal experiences of my own and that the others are reproduced exactly as they were told to me by persons in whose veracity I have every confidence In every case except those of Jagannath and The Baron's Room I myself have heard the story directly from the person principally concerned in it So that there is no place here for the subtle alterations which are inevitably introduced into tales that have passed through many hands These things happened and although it may be difficult for one who has made no study of the subject to believe them those who are familiar with the literature of the occult will readily be able to parallel most of these occurrences I have written other and more serious books in which such things as these are scientifically explained in this volume my only desire is to help my readers to pass pleasantly a few hours of leisure time

Strange and Secret Peoples Carole G. Silver, 2000-10-12 Teeming with creatures both real and imagined this encyclopedic study in cultural history illuminates the hidden web of connections between the Victorian fascination with fairies and their lore and the dominant preoccupations of Victorian culture at large Carole Silver here draws on sources ranging from the anthropological folkloric and occult to the legal historical and medical She is the first to anatomize a world

peopled by strange beings who have infiltrated both the literary and visual masterpieces and the minor works of the writers and painters of that era Examining the period of 1798 to 1923 *Strange and Secret Peoples* focuses not only on such popular literary figures as Charles Dickens and William Butler Yeats but on writers as diverse as Thomas Carlyle Arthur Conan Doyle and Charlotte Mew on artists as varied as mad Richard Dadd Aubrey Beardsley and Sir Joseph Noel Paton and on artifacts ranging from fossil skulls to photographs and vases Silver demonstrates how beautiful and monstrous creatures fairies and swan maidens goblins and dwarfs cretins and changelings elementals and pygmies simultaneously peopled the Victorian imagination and inhabited nineteenth century science and belief Her book reveals the astonishing complexity and fertility of the Victorian consciousness its modernity and antiquity its desire to naturalize the supernatural its pervasive eroticism fused with sexual anxiety and its drive for racial and imperial dominion *The Theosophist* ,1912 **Handbook of the**

Egyptian Gothic Jay Sullivan,2025-07-13 The Egyptian Gothic consists of novels and short stories about ancient Egyptian mummies returning to life to seek retribution or romance as well as cursed object tales Now mostly forgotten from the 1880s through to the 1920s it was more popular than the vampire genre This book is the first to examine the genre by using the frequent sensory descriptions within these texts to interrogate attitudes towards Empire Its aims are twofold Firstly it demonstrates that despite their status as disposable popular fiction these texts are rich in sensory discourses that have thus far been unexamined Secondly reading these discourses of touch sight smell sound and taste reveals new and intriguing ways in which Egypt is allowed to strike back against the British Empire The book argues that the Egyptian Gothic does not support the domination of Empire but instead presents a power dynamic in flux with the mummy fighting back against Western occupation Egypt and its artefacts evoke simultaneous feelings of fear and desire where those who meddle by invading tombs or stealing mummies are destroyed by Egyptian revenants **The O.E. Palgrave Handbook of Steam Age Gothic Clive Bloom,2021-02-03 By the early 1830s the old school of Gothic literature was exhausted Late Romanticism emphasising as it did the uncertainties of personality and imagination gave it a new lease of life Gothic the literature of disturbance and uncertainty now produced works that reflected domestic fears sexual crimes drug filled hallucinations the terrible secrets of middle class marriage imperial horror at alien invasion occult demonism and

the insanity of psychopaths It was from the 1830s onwards that the old gothic castle gave way to the country house drawing room the dungeon was displaced by the sewers of the city and the villains of early novels became the familiar figures of Dr Jekyll and Mr Hyde Dracula Dorian Grey and Jack the Ripper After the death of Prince Albert 1861 the Gothic became darker more morbid obsessed with demonic lovers blood sucking ghouls blood stained murderers and deranged doctors Whilst the gothic architecture of the Houses of Parliament and the new Puginesque churches upheld a Victorian ideal of sobriety Christianity and imperial destiny Gothic literature filled these new spaces with a dread that spread like a plague to America France Germany and even Russia From 1830 to 1914 the period covered by this volume we saw the emergence of the greats of Gothic literature and the supernatural from Edgar Allan Poe to Emily Bronte from Sheridan Le Fanu to Bram Stoker and Robert Louis Stevenson Contributors also examine the fin de siècle dreamers of decadence such as Arthur Machen M P Shiel and Vernon Lee and their obsession with the occult folklore spiritualism revenants ghostly apparitions and cosmic annihilation This volume explores the period through the prism of architectural history urban studies feminism hauntology and much more Horror as Poe teaches us is the soul of the plot

Victorian Alchemy Eleanor Dobson, 2022-10-06 Victorian Alchemy explores nineteenth century conceptions of ancient Egypt as this extant civilisation was being rediscovered in the modern world With its material remnants somewhat paradoxically symbolic of both antiquity and modernity in the very currentness of Egyptological excavations ancient Egypt was at once evocative of ancient magical power and of cutting edge science a tension that might be productively conceived of as alchemical Allusions to ancient Egypt simultaneously lent an air of legitimacy to depictions of the supernatural while projecting a sense of enchantment onto representations of cutting edge science Examining literature and other cultural forms including art photography and early film Eleanor Dobson traces the myriad ways in which magic and science were perceived as entwined and ancient Egypt evoked in parallel with various fields of study from imaging technologies and astronomy to investigations into the electromagnetic spectrum and the human mind itself In so doing counter to linear narratives of nineteenth century progress and demonstrating how ancient Egypt was more than a mere setting for Orientalist fantasies or nightmares the book establishes how conceptions of modernity were inextricably bound up in the contemporary reception of the ancient world and suggests how such ideas that took root and flourished in the Victorian era persist to this day

Scented Visions Christina Bradstreet, 2022-06-29 Smell loomed large in cultural discourse in the late nineteenth century thanks to the midcentury fear of miasma the drive for sanitation reform and the rise in artificial perfumery Meanwhile the science of olfaction remained largely mysterious prompting an impulse to see smell and inspiring some artists to picture scent in order to better know and control it This book recovers the substantive role of the olfactory in Pre Raphaelite art and Aestheticism Christina Bradstreet examines the iconography and symbolism of scent in nineteenth century art and visual culture Fragrant imagery in the work of John Everett Millais Dante Gabriel Rossetti Simeon Solomon George Frederic Watts Edward Burne Jones and others set the trend for the preoccupation with scent that

informed swaths of British European and American art and design Bradstreet's rich analyses of paintings perfume posters and other works of visual culture demonstrate how artworks mirrored the period nose and intersected with the most clamorous debates of the day including evolution civilization race urban morality mental health faith and the woman question Beautifully illustrated and grounded in current practices in sensory history *Scented Visions* presents both fresh readings of major works of art and a deeper understanding of the cultural history of nineteenth century scent

Contesting Earth's History in Transatlantic Literary Culture, 1860-1935 Richard Fallon, 2025-02-14 By the mid nineteenth century geologists and palaeontologists had reconstructed an authoritative narrative of Earth's deep history from the planet's molten origins to the rise of humanity Many figures in transatlantic science across subsequent decades however had problems with this narrative it was too secular inhuman and evolutionary or controlled too exclusively by elite scientists Speaking from palaeoscience's unevenly professionalized and controversy racked borders Christian fundamentalists charismatic psychics and respected scholars alike voiced their objections Until now no study has brought their work together for detailed comparative analysis Spanning from the 1860s to the interwar decades *Contesting Earth's History* examines the fascinating stories of five significant examples of fringe or borderline palaeoscience old and young earth creationism hollow earth theory clairvoyant time travel and sunken continent catastrophism Innovatively combining methods from literary studies with the history of science this book attends not just to the conceptual content of these strange sciences but also to their proponents communication of truth claims through diverse genres ranging from the scientific textbook and the technical monograph to the lost world romance and the epic poem By paying close attention to the hitherto overlooked textual forms and literary strategies of these works of pseudoscience this volume throws into relief the variant conceptions of audience evidence and method that jostled and competed in wider scientific culture during this period It also demonstrates that for all their diversity authors of borderline palaeoscience shared the desire to shift the balance of power creating textual spaces where exclusive hierarchies of scientific expertise could be levelled away These conjurors of lost worlds often captivated wide audiences and many of their bizarre astonishing and iconoclastic ideas remain with us to this day Some even inspired early science fiction by the likes of H P Lovecraft and Edgar Rice Burroughs Hijacking geologists and palaeontologists longstanding effort at making the prehistoric past visible authors on the borderlines of palaeoscience asserted their right to scientific authority and encouraged readers to gaze into time's abyss with bold new eyes
