Richard Overy

The Illustrated History Of The World Wars:

The Oxford Illustrated History of World War Two Richard Overy, 2015-04-09 World War Two was the most devastating conflict in recorded human history. It was both global in extent and total in character. It has understandably left a long and dark shadow across the decades. Yet it is three generations since hostilities formally ended in 1945 and the conflict is now a lived memory for only a few. And this growing distance in time has allowed historians to think differently about how to describe it, how to explain its course and what subjects to focus on when considering the wartime experience. For instance, as World War Two recedes ever further into the past, even a question as apparently basic as when it began and ended becomes less certain. Was it 1939 when the war in Europe began? Or the summer of 1941 with the beginning of Hitler's war against the Soviet Union? Or did it become truly global only when the Japanese brought the USA into the war at the end of 1941? And what of the long conflict in East Asia, beginning with the Japanese aggression in China in the early 1930s and only ending with the triumph of the Chinese Communists in 1949? In *The Oxford Illustrated History of World War Two*, a team of leading historians reassesses the conflict for a new generation, exploring the course of the war not just in terms of the Allied response but also from the viewpoint of the Axis aggressor states. Under Richard Overy's expert editorial guidance, the contributions take us from the genesis of war through the action in the major theatres of conflict by land, sea and air, to assessments of fighting power and military and technical innovation, the economics of total war, the culture and propaganda of war, and the experience of war and genocide for both combatants and civilians, concluding with an account of the transition from World War to Cold War in the late 1940s. Together they provide a stimulating and thought-provoking new interpretation of one of the most terrible and fascinating episodes in world history.

The First World War Hew Strachan, 2006 Hew Strachan is one of the world's foremost experts on the Great War of 1914-18. His ongoing three-volume history of the conflict, the first of which was published in 2001, is likely to become the standard academic reference work. Max Hastings called it one of the most impressive books of modern history in a generation, while Richard Holmes hailed it as a towering achievement. Now Hew Strachan brings his immense knowledge to a one-volume work aimed squarely at the general reader. The inspiration behind the major Channel 4 series of the same name, to which Hew was chief consultant, *THE FIRST WORLD WAR* is a significant addition to the literature on this subject, taking as it does a uniquely global view of what is often misconceived as a prolonged skirmish on the Western Front. Exploring such theatres as the Balkans, Africa and the Ottoman Empire, Strachan assesses Britain's participation in the light of what became a struggle for the defence of liberalism and shows how the war shaped the short twentieth century that followed it. Accessible, compelling and utterly convincing, this is a modern history writing at its finest.

An Illustrated History of the First World War John Keegan, 2001 Illustrates life on the home front, important battles, war from the perspective of generals and soldiers, the collapse of empires and glimpses of World War II through photographs, paintings, cartoons and posters.
