The Intellectuals On The Road To Class Power:

The Intellectuals on the Road to Class Power György Konrád, Iván Szelényi, 1979 *Theories of the New Class* Lawrence P. King, Iván Szelényi, 2004 Old as the notion of the New Class is and the term was coined by anarchist Mikhail Bakunin around 1870 the idea of the ascendancy of an intellectual elite continues to engage and perplex social theorists to this day In *Theories of the New Class* Ivan Szelinyi one of the most incisive and respected analysts of the intellectual class and his colleague Lawrence King put New Class theories into a broad historical framework for the first time Addressing the intellectual history of Marxism and socialism theories of the increasing role of the state and technocratic elites in capitalism and theories of contemporary social change King and Szelinyi s work clearly links the centrality of thinking about intellectual class formation to a variety of theoretical and political projects that have shaped social theory and influenced political realities over the past century King and Szelinyi show that the idea of the New Class has stubbornly entered and reentered the agenda of critical social theorizing throughout the last century Indeed they interpret that the last century as a history of projects by different groups of the highly educated factions of intellectuals bureaucrats technocrats managers and the left wing humanistic intelligentsia to gain ultimate power A rare empirical discussion of theory *Theories of the New Class* invigorates class theories by grounding them in contemporary issues at the same time it uses modern polemics to revitalize historical debates on the origins of capitalism Lawrence Peter King associate professor of sociology at Yale University is the author of *The Basic Features of Postcommunist Capitalism* 2001 Ivan Szelinyi is William Graham Sumner Professor of Sociology and professor of political science at Yale University He is the author or coauthor of *Intellectuals on the Road to Class Power* 1979 *Urban Social Inequalities* 1983 *Socialist Entrepreneurs* 1988 and *Making Capitalism without Capitalists* 1998

Marxist Intellectuals and the Working-class Mentality in Germany, 1887-1912 Stanley Pierson, 1993 How does one explain the presence of educated recruits in movements that were overwhelmingly working class in composition How did intellectuals function within the movements In the first in depth exploration of this question Stanley Pierson examines the rise development and ultimate failure of the German Social Democrats the largest of the European socialist parties from 1887 to 1912 Prominent figures such as Karl Kautsky August Bebel Rosa Luxemburg and Eduard Bernstein are discussed but the book focuses primarily on the younger generation These forgotten intellectuals Max Schippel Paul Kampffmeyer Conrad

Schmidt Paul Ernst and others struggled most directly with the dilemmas arising out of the attempt to translate Marxist doctrines into practical and personal terms These young writers speakers and politicians set out to supplant old ways of thinking with a Marxist understanding of history and society Pierson weaves together over thirty intellectual biographies to explore the relationship between ideology and politics in Germany He examines the conflict within Social Democracy between the revisionist intellectuals who sought to adapt Marxist theory to changing economic and social realities and those orthodox and radical intellectuals who attempted to remain faithful to the Marxist vision By examining the struggles of the socialist intellectuals in Germany Pierson brings out the special features of German cultural social and political life before World War I His study of this critical time in the development of the German Social Democratic party also illuminates the wider development of Marxism in Europe during the twentieth century
