Children Today ,1988 Latchkey Children in the Library & Community Frances S. Dowd,1991-08-26 This book reports on what is happening and what could happen to latchkey children in terms of the community as a whole and specifically in regard to public libraries It addresses the need for a definitive work to guide librarians in serving latchkey children more effectively Developmental-Behavioral Disorders Marvin I. Gottlieb,John E. Williams,2013-03-07 Child development has always been a traditional component of well child care and a particular area of interest for pediatricians child neu rologists and psychologists However it was not until the early 1960s that children with developmental disabilities i e chronic handicapping disorders became a major focus of public and professional attention During this period children with special needs were dramatically catapulted into the limelight and exceptional became the buzzword of the day Public and

professional awareness of these issues reached new peaks and recognition of the potential psychosocial impairments of children with developmental disabilities created national anxiety. A variety of factors contributed to an unprecedented societal advocacy for children with developmental problems:

- 1 a national concern generated by President Kennedy's particular interest in mental retardation
- 2 increased activity and visibility of parent advocacy lobbying groups, e.g. the Association for Children with Learning Disabilities
- 3 the enactment of federal legislation designed to protect the rights of the handicapped, e.g. PL94-142
- 4 the popularization of developmental behavioral disabilities by the various communications media.

Cumulatively, these events precipitated a redefinition of the meaning of comprehensive health care for children, resulting in an emphasis on the child's neurodevelopmental, educational, psychological, and social needs. For the pediatrician, a myriad of new management responsibilities were mandated in addition to the traditional health care concerns.

How to Become a More Effective Teacher of Minority Students Dr. Azel C. Colston Jr., 2015-05-26. A dissertation for the degree of Doctor of Philosophy in Education. *How to Become a More Effective Teacher of Minority Students* draws on the extensive research and twenty-three years of experience of Dr. Azel C. Colston Jr. He postulates that with the correct strategies and emotional investment by the teacher, children can actualize and maximize their potential. Teachers should facilitate their students' achievement by becoming interested in the community around the school, encouraging parents to become engaged in their child's success, and by offering a diverse and hands-on classroom experience that encourages creativity and learning.
