**The Late Victorian Town** Frank Grace,1992 *Class and Religion in the Late Victorian City* Hugh McLeod,2016-07-01 First published in 1974 this book describes the religion of the East End the West End and the suburbs of London where each section of society as well as a variety of immigrant groups has its own quarters its own institutions its distinctive codes of behaviour While the main focus is on ideas or unconscious assumptions rather than institutions two chapters examine the part played by the churches in the life of Bethnal Green a very poor district and of Lewisham a prosperous suburb and a third provides a picture of the church going habits of each part of the city The years 1880 1914 mark one of the most important transitions in English religious history The latter part of the book examines the causes and consequences of these changes This book will be of interest to students of history and particularly those interested in issues of religion and class *The Victorian City* Harold James Dyos,Michael Wolff,1999 This volume traces the modern critical and performance history of this play one of Shakespeare s most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory Late Victorian Britain 1875-1901 J.F.C. Harrison,2013-06-17 Drawing heavily on the recollections and literature of the people themselves Harrison places late Victorian Britain firmly in its social and political context *The Late Victorian Folksong Revival* E. David Gregory,2010-04-13 In *The Late Victorian Folksong Revival* The Persistence of English Melody 1878 1903 E David Gregory provides a reliable and comprehensive history of the birth and early development of the first English folksong revival Continuing where Victorian Songhunters his first book left off Gregory systematically explores what the Late Victorian folksong collectors discovered in the field and what they published for posterity identifying differences between the songs noted from oral tradition and those published in print In doing so he determines the extent to which the collectors distorted what they found when publishing the results of their research in an era when some folksong texts were deemed unsuitable for polite ears The book provides a reliable overall survey of the birth of a movement tracing the genesis and development of the first English folksong revival It discusses the work of more than a dozen song collectors focusing in particular on three key figures the pioneer folklorist in the English west country Reverend Sabine Baring Gould Frank Kidson who greatly increased the known corpus of Yorkshire song and Lucy Broadwood who collected mainly in the counties of Sussex and Surrey and with Kidson and others was instrumental in founding the Folk Song Society in the late 1890s The book includes copious examples of the song tunes and texts collected including transcriptions of nearly 300 traditional ballads broadside ballads folk lyrics occupational songs carols shanties and national songs demonstrating the abundance and high quality of the songs recovered by these early collectors **The Genesis of Modern British Town Planning** William Ashworth,2024-11-01 First published in 1954 *The Genesis of Modern British Town Planning* is a study from a historical standpoint of the social and economic factors which have made town planning one of the normal functions of government The author begins with an examination of the rapid growth of towns in

the nineteenth century and the consequent emergence of inescapable new problems of health morality and economic efficiency and goes on to discuss the chief ways in which a remedy for these problems was sought in the later part of the century Separate chapters are devoted to new model villages and towns to the spread of suburbs and to the improvement of already established towns by means of clearance and rebuilding schemes by law control and efforts of private philanthropy The final section of the book shows how the successes and failures of earlier attempts at reforms stimulated a demand for something more comprehensive which found expression in the town planning act of 1909 and ends by considering the influences that brought to the town planning movement a new strength and importance in the 1930s and the war years The author has drawn his material from a wide range of government and local authority reports the writing of philanthropists and social workers local guides and topographical works and the book will be of great value to those interested in social history architecture and urban sociology

**Britain 1740 - 1950** Richard Lawton, Colin Pooley, 2021-12-02 Originally published in 1992 this book provides students with a well illustrated clearly written text which offers a coherent overview of Britain's development from a pre modern to a modern economy and society The key processes that have shaped the geography of modern Britain are rooted in the significant demographic economic technological and social transitions of the early eighteenth century the impact of which was not fully diffused through the nation until the mid 20th Century This country wide survey examines the nature of this transformation The material in the book is accessible because the book is clearly structured into 3 phases 1740 to the 1830s the 1830s to the 1890s and the 1890s to 1950 For each period the principal aspects of change in population industry the countryside and urban life are examined and regional examples given to support the analysis

Cities of Ideas: Civil Society and Urban Governance in Britain 1800-2000 Robert Colls, 2018-01-18 Cities of Ideas Civil Society and Urban Governance in Britain 1800-2000 addresses the changing nature of individualism and public service in the 19th and 20th centuries and consists of a collection of essays authored by senior figures in economic social cultural and educational history The question of the balance between the life of the private citizen and the need to play an active role in the wider community is one that recurs throughout history In this book the shifting nature of civic responsibility between 1800 and 1990 is addressed looking at the balance of individual and collective responsibilities as well as obligation to a growing democratic state The ten essays by leading scholars in the field of urban and social history offer fresh and important insights into governance and civil society in the modern period

**The Spaces of the Modern City** Gyan Prakash, Kevin M. Kruse, 2008-02-24 It historicizes the contemporary discussion of urbanism highlighting the local and global breadth of the city landscape This interdisciplinary collection examines how the city develops in the interactions of space and imagination The essays focus on issues such as street design in Vienna the motion picture industry in Los Angeles architecture in Marseilles and Algiers and the kaleidoscopic paradox of post apartheid Johannesburg They explore the nature of spatial politics examining the disparate worlds of eighteenth century Baghdad nineteenth century Morelia They also show

the meaning of everyday spaces to urban life illuminating issues such as crime in metropolitan London youth culture in Dakar memory projects in Tokyo and Bombay cinema

**Claiming the Streets** Paul O'Leary, 2012-10-15 Street processions were a defining feature of life in the Victorian town and this book examines how those events created new civic identities in the growing towns of nineteenth century south Wales

A. J. Tomlinson R. G. Robins, 2004-10-28 A J Tomlinson 1865 1943 ranks among the leading figures of the early Pentecostal movement and like so many of his cohorts he was as complex as he was colorful Arriving in Appalachia as a home missionary determined to uplift and evangelize poor mountain whites he stayed to become the co founder and chief architect of the Church of God Cleveland TN and the Church of God of Prophecy which together with their minor offspring now constitute the third largest denominational family within American Pentecostalism R G Robins s biography recreates the world in which Tomlinson operated and through his story offers a new understanding of the origins of the Pentecostal movement Scholars have tended to view Pentecostalism as merely one among many anti modernist movements of the early twentieth century Robins argues that this is a misreading of the movement s origins the result of projecting the modernist fundamentalist controversy of the 1920s back onto the earlier religious landscape Seeking to return the story of Pentecostalism to its proper historical context Robins suggests that Pentecostalism should rightly be seen as an outgrowth of the radical holiness movement of the late nineteenth century He argues that far from being anti modern Pentecostals tended to embrace modernity Pentecostal modernism however was a working class or plainfolk phenomenon and it is the plainfolk character of the movement that has led so many scholars to mislabel it as anti modern or fundamentalist Through the compelling narrative of Tomlinson s life story Robins sheds new light on late nineteenth and early twentieth century American religion and provides a more refined lens through which to view the religious dynamics of our own day v

**Historical Geography of England and Wales** Robert A. Dodgshon, Robin A. Butlin, 2013-10-22 This text has been designed to cover all aspects and phases of the historical geography of England and Wales in a single volume In its substantially revised and enlarged form the treatment of standard themes has been completely re written to take account of recent work and shifts in viewpoint while its overall coverage has been extended to embrace newer themes like symbolic landscapes and the geography of the inter war period Its comprehensiveness and freshness of approach ensure its continuing value and success as a text Breadth of coverage from prehistory to 1939 Uses a range of data sources and approaches Well illustrated with particular emphasis on key themes Major revision of 1st edition with much wider range of topics

**Leisure, Citizenship and Working-class Men in Britain, 1850-1945** Brad Beaven, 2005 From the bawdy audience of a Victorian Penny Gaff to the excitable crowd of an early twentieth century football match working class male leisure proved to be a contentious issue for contemporary observers For middle class social reformers from across the political spectrum the spectacle of popular leisure offered a view of working class habits and a means by which lifestyles and behaviour could be assessed For the mid Victorians gingerly stepping into a new mass democratic age the desire to create a bond between the

recently enfranchised male worker and the nation was more important than ever This trend continued as those in governance perceived that good leisure and citizenship could fend off challenges to social stability such as imperial decline the mass degenerate city hooliganism civic and voter apathy and fascism Thus between 1850 and 1945 the issue of male leisure became enmeshed with changing contemporary debates on the encroaching mass society and its implications for good citizenry Working class culture has often been depicted as an atomised and fragmented entity lacking any significant cultural contestation Drawing on a wealth of primary and secondary source material this book powerfully challenges these recent assumptions and places social class centre stage once more Arguing that there was a remarkable continuity in male working class culture between 1850 and 1945 Beaven contends that despite changing socio economic contexts male working class culture continued to draw from a tradition of active participation and cultural contestation that was both class and gender exclusive This lively and readable book draws from fascinating accounts from those who participated in and observed contemporary popular leisure making it of importance to students and teachers of social history popular culture urban history historical geography historical sociology and cultural studies      **Urban Historical Geography** Dietrich

Denecke,Gareth Shaw,1988-06-30 Originally published in 1988 this book provides a fascinating comparative review of research in urban historical geography in Britain and West Germany It draws together a wide range of material on the history of urban development to explore the theoretical and methodological possibilities offered by comparative surveys of contrasting national and regional urban expenses The chronological focus of the essays ranges in time from the medieval period onwards and the contributors explore not only the specifically intellectual consequences of their empirical research but also its policy implications for urban planners and conservationists Serious extended comparative debate has hitherto been absent from the field of urban historical geography as a whole this volume sought to reverse that trend and in so doing to establish a fresh research agenda for an important and expanding discipline      **Manifestoes and Transformations in**

**the Early Modernist City** Professor Christian Hermansen Cordua,2012-11-28 The industrialization of the nineteenth century European city facilitated developing conceptions of the model city and allowed for large scale urban transformations The urban discourse in the latter half of the nineteenth century was consequently dominated by a dialectic exchange between the ideal and the practical a debate played out in the formation of the modern metropolis Manifestoes and Transformations is the first work to deal with urban utopias and their relationship with actual urban interventions Bringing together a carefully chosen wide ranging team of experts the book provides a broad contextual exploration of the ideas and urban practices which are the foundations of our conception of the contemporary city As such it is a valuable resource for students interested in the formation of the modernist city      *Writing local history* John Beckett,2013-07-19 This fascinating book looks at how local history developed from the antiquarian county studies of the sixteenth century through the growth of professional history in the nineteenth century to the recent past Concentrating on the past sixty years it looks at the opening of archive

offices the invigorating influence of family history the impact of adult education and other forms of lifelong learning The author considers the debates generated by academics including the divergence of views over local and regional issues and the importance of standards set by the Victoria County History VCH Also discussed is the fragmentation of the subject The antiquarian tradition included various subject areas that are now separate disciplines among them industrial archaeology name studies family landscape and urban history This is an authoritative account of how local history has come to be one of the most popular and productive intellectual pastimes in our modern society Written by a practitioner who has spent more than twenty years teaching local history to undergraduates and M A students as well as lecturing to local history societies John Beckett is currently Director of the VCH A remarkable book that will be of great interest to students and scholars of local history as well as amateur and professional genealogists      Trees in Towns and Cities Mark Johnston,2015-08-31 This is the first book on the history of trees in Britain s towns and cities and the people who have planted and cared for them It is a highly readable and authoritative account of the trees in our urban landscapes from the Romans to the present day including public parks private gardens streets cemeteries and many other open spaces It charts how our appreciation of urban trees and woodland has evolved into our modern understanding of the many environmental economic and social benefits of our urban forests A description is also given of the various threats to these trees over the centuries such as pollution damage during the Industrial Revolution and the recent ravages of Dutch elm disease Central and local government initiatives are examined together with the contribution of civic and amenity societies However this historical account is not just a catalogue of significant events but gives a deeper analysis by exploring fundamental issues such as who owned those treed landscapes why they were created and who had access to them The book concludes with the fascinating story of how trees have contributed to efforts to improve urban conditions through various visions of urban green such as the model villages garden cities garden suburbs and the new towns Studies in garden and landscape history have often been preoccupied with those belonging to the rich and powerful This book focuses particularly on working people and the extent to which they have been able to enjoy urban trees and greenspace It will appeal to a general readership especially those with an interest in garden history heritage landscapes and the natural and built environment Its meticulous referencing will also ensure it is much appreciated by students and academics pursuing further reading and research It is written by an internationally renowned arboriculturist who combines a passion for trees with a sound understanding of British social and cultural history      A Companion to Nineteenth-Century Britain Chris Williams,2008-04-15 A Companion to Nineteenth Century Britain presents 33 essaysby expert scholars on all the major aspects of the political social economic and cultural history of Britain during the lateGeorgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading      *The Poverty of Planning* Benno Engels,2021-01-15 Using a neo Marxian perspective Benno Engels examines the absence of urban

planning in nineteenth century England In his analysis of urbanization in England Engels considers the influences of property owners inheritance laws local government structures fiscal crises of the local and central state shifts in voter sentiments fluctuating economic conditions and class based pressure group activity      **Space, the City and Social Theory** Fran Tonkiss, 2005 Taking a thematic approach this book covers the main aspects of modern urban life taught on undergraduate courses The key approaches to the city within contemporary social theory are assessed Tonkiss adopts an international perspective with examples drawn from places such as New York Paris and Sydney
