Celebrations and Connections in Hispanic

Literature Andrea Morris, Margaret Parker, 2009-03-26 The volume *Celebrations and Connections in Hispanic Literature* is itself a celebration of a tradition of scholarly dialogue in a relaxed festive atmosphere The articles included here began as papers presented at the 25th Anniversary Edition of the Biennial Louisiana Conference on Hispanic Languages and Literatures held in Baton Rouge Louisiana February 23 24 2006 Each of the authors responds in innovative ways to the idea of connecting texts contexts and genres as well as to the disconnect that is often present between what we perceive as Hispanic identity and the experience of those left on the margin Topics include Celebrating and Rewriting Difference De colonized Identities Word and Image in the Spanish Golden Age and Latin American Literature and Politics among others The collection is demonstrative of current trends in Hispanic literary and cultural criticism which are increasingly less bound by traditional regional and temporal constructs While each author's research is rooted in a specific socio historic context their combined contributions to the present volume provide a far reaching perspective that expands the notion of text to go beyond the literary and engage a multitude of disciplines it emphasizes the often illuminating connections among literary and cultural texts which can be drawn when one conceives of Hispanism and its literary and cultural fields as shaped by trends and issues rather than divided by periods and regions What strikes me most is the newness of each piece While each is very well informed none rehearses old historical or theoretical ground more than is absolutely necessary but rather presents either a new or overlooked text or offers a new approach Leslie Bary University of Louisiana Lafayette An impressive array of well established and younger scholars has produced a volume whose scope is the entire Hispanic world extending from the Golden Age to the contemporary era This volume will be of interest to all scholars and critics of Hispanic literature as well as to historians and political scientists Many of the essays challenge traditional assumptions about the colonization of the Hispanic world as well as the motivations for the revolutions for independence whose influence is still strongly alive in contemporary treatments of fundamental questions of national identity race class and gender C Chris Soufas Jr Tulane University
