The Law And The Word:

The Law and the Word Thomas Troward,1929 **The Law and the Word** Judge Thomas Troward,2014-03 This Is A New Release Of The Original 1917 Edition *The Law And The Word* Thomas Troward,2023-07-01 The Law and the Word is a book written by Thomas Troward a British author and metaphysical thinker Troward was a prominent figure in the New Thought movement which focused on the power of the mind and spiritual principles to shape our reality In The Law and the Word Troward explores the relationship between the creative power of thought and the manifestation of physical reality He delves into the concept that our thoughts and words have a profound impact on our lives and the circumstances we attract The book discusses various metaphysical and philosophical ideas of spiritual traditions Troward emphasizes the importance of aligning our thoughts and words with universal laws and spiritual truths to bring about positive changes in our experiences The Law and the Word explores topics such as the power of intention the nature of causation the creative process and the role of faith in manifesting desired outcomes Troward emphasizes the idea that our thoughts and beliefs shape our reality and that we can consciously direct our lives through the right use of our mental faculties The Law and the Word presents a metaphysical perspective on the connection between our thoughts words and the reality we experience It offers insights and principles for harnessing the creative power of the mind to manifest our desires and live more fulfilling lives **The Law and the Word** Thomas Troward,2009-08-01 In this era of moral relativism many people have come to believe that life and by extension the universe is inherently random Not so argues prominent self help author T Troward To the contrary the author contends in The Law and the Word that the universe is governed by a strict set of moral spiritual and metaphysical principles and that only by learning and adhering to these natural laws can individuals achieve true success and fulfillment An interesting and inspiring read for those drawn to the personal development genre *The Law and the Word* T. Troward,2019-11-26 In The Law and the Word T Troward intricately explores the interplay between spiritual law and human consciousness positing that understanding this relationship is essential for manifesting one's desires and achieving a fulfilling life Written in a prose style that merges philosophical inquiry with spiritual pragmatism Troward draws from various metaphysical principles to elucidate how thought forms can shape reality The book is heavily influenced by the New Thought movement of the early 20th century which sought to reconcile science and spirituality reflecting the zeitgeist of an era fascinated with personal empowerment and the metaphysical nature of existence T Troward a pivotal figure in the New Thought movement was a British author and speaker whose engagement with philosophy and spirituality began during his time in India where he was exposed to various Eastern philosophies His interest in the subconscious mind and its capabilities led him to write The Law and the Word which serves as both a manual for self discovery and a philosophical treatise on the creative power of thought Troward's extensive study of different religious and philosophical traditions informs his arguments and enhances the universality of his insights I highly recommend The Law and the Word to readers seeking a deeper

understanding of self empowerment through conscious thought This book serves not only as a profound exploration of metaphysical principles but also as a practical guide for those willing to navigate the complexities of their own minds and realities Troward s accessible yet profound writing invites readers to challenge their perceptions and embrace their innate potential for transformation LAW AND THE WORD T. Troward,2012-06-28 To one who has studied Judge Troward and grasped the significance of his theory of the Universal Sub conscious Mind and who also has attained to an appreciation of Henri Bergson s theory of a Universal Livingness superior to and outside the material Universe there must appear a distinct correlation of ideas That intricate and ponderously irrefutable argument that Bergson has so patiently built up by deep scientific research and unsurpassed profundity of thought and crystal clear reason that leads to the substantial conclusion that man has leapt the barrier of materiality only by the urge of some external pressure superior to himself but which by reason of infinite effort he alone of all terrestrial beings has succeeded in utilizing in a superior manner and to his advantage this well rounded and exhaustively demonstrated argument in favour of a super livingness in the universe which finds its highest terrestrial expression in man appears to be the scientific demonstration of Judge Troward s basic principle of the Universal Sub conscious Mind **The Law and the Word T**

Troward,2017-10-02 CHAPTER I SOME FACTS IN NATURE If I were asked what in my opinion distinguishes the thought of

the present day from that of a previous generation I should feel inclined to say it is the fact that people are beginning to realize that Thought is a power in itself one of the great forces of the Universe and ultimately the greatest of forces directing all the others This idea seems to be as the French say in the air and this very well expresses the state of the case the idea is rapidly spreading through many countries and through all classes but it is still very much in the air It is to a great extent as yet only in a gaseous condition vague and nebulous and so not leading to the practical results both individual and collective which might be expected of it if it were consolidated into a more workable form We are like some amateurs who want to paint finished pictures before they have studied the elements of Art and when they see an artist do without difficulty what they vainly attempt they look upon him as a being specially favoured by Providence instead of putting it down to their own want of knowledge The idea is true Thought is the great power of the Universe But to make it practically available we must know something of the principles by which it works that it is not a mere vaporous indefinable influence floating around and subject to no known laws but that on the contrary it follows laws as uncompromising as those of mathematics while at the same time allowing unlimited freedom to the individual Now the purpose of the following pages is to suggest to the reader the lines on which to find his way out of this nebulous sort of thought into something more solid and reliable I do not profess like a certain Negro preacher to unscrew the inscrutable for we can never reach a point where we shall not find the inscrutable still ahead of us but if I can indicate the use of a screw driver instead of a hatchet and that the screws should be turned from left to right instead of from right to left it may enable us to unscrew some things which would otherwise remain screwed down tight We are all beginners and indeed the hopefulness of life is in realizing that there are such vistas of unending possibilities before us that however far we may advance we shall always be on the threshold of something greater We must be like Peter Pan the boy who never grew up heaven defend me from ever feeling quite grown up for then I should come to a standstill so the reader must take what I have to say simply as the talk of one boy to another in the Great School and not expect too much The first question then is where to begin Descartes commenced his book with the words Cogito ergo sum I think therefore I am and we cannot do better than follow his example There are two things about which we cannot have any doubt our own existence and that of the world around us But what is it in us that is aware of these two things that hopes and fears and plans regarding them Certainly not our flesh and bones A man whose leg has been amputated is able to think just the same Therefore it is obvious that there is something in us which receives impressions and forms ideas that reasons upon facts and determines upon courses of action and carries them out which is not the physical body This is the real I Myself This is the Person we are really concerned with and it is the betterment of this I Myself that makes it worth while to enquire what our Thought has to do in the matter Equally true it is on the other hand that the forces of Nature around us do not think Steam electricity gravitation and chemical affinity do not think They follow certain fixed laws which we have no power to alter Therefore we are confronted at the outset by a broad distinction between two modes of Motion the Movement

of Thought and the Movement of Cosmic Energy **Law and the Word** Thomas Troward,1965 **The Law and the Word (Esprios Classics)** THOMAS. TROWARD,2020-10-29 Thomas Troward 1847 1916 was an English author whose works influenced the New Thought Movement and mystic Christianity Troward was a divisional Judge in British administered India His avocation was the study of comparative religion After his retirement from the judiciary in 1896 Troward set out to apply logic and a judicial weighing of evidence in the study of matters of cause and effect The philosopher William James characterized Troward s Edinburgh Lectures on Mental Science as far and away the ablest statement of philosophy I have met beautiful in its sustained clearness of thought and style a really classic statement International Law and the Controversy Concerning the Word Law , **The Word is Near You** Per Jarle Bekken,2012-02-13 The study deals with a difficult and much debated text in Paul s Letter to the Romans 9 30 10 21 The study in particular analyses Paul s use and interpretation of Deuteronomy 30 12 14 in Romans 10 4 17 Scholars have characterized Paul s exegesis here as idiosyncratic fanciful baffling and arbitrary By a comparison with Jewish writings near Paul in time such as the writings of Philo of Alexandria and Baruch the thesis is argued that Paul s treatment of Deuteronomy 30 12 14 can be located within Jewish exegetical method expository structure terminology as well as content and context In comparison with Baruch and Philo it has been shown that Paul s handling of Deuteronomy 30 12 14 can be placed within a Jewish context as to the way the biblical quotations are rendered The thesis is substantiated that Paul s expository rendering of Deuteronomy 30 12 14 follows the method of exegetical paraphrase of a biblical quotation So in comparison with Baruch and Philo Paul s interpretative rendering of Deuteronomy 30 12 14 falls within a form of exposition in which words phrases and sentences from the Old Testament quotation are either repeated or replaced by interpretative terms and supplemented with other qualifying terms Thus Paul s christological exposition of Deut 30 12 14 can be located within the method of exegetical paraphrase with a parallel in Baruch s application of this OT Scripture to the personified Wisdom **The Law and the Word** Thomas Troward,2014-08-31 Troward s most lucid and accessible attempt at explaining the roots of his convictions Napra Review The Law is the laws that govern thought and the forces of nature the phenomena that we perceive things that are not flexible The Word is the divine power that creates In 1917 s The Law and the Word philosopher Thomas Troward reconciles these two concepts in the shadow of the Biblical promise of eternal life for the truly faithful With a logical often scientific always benevolent style Troward lays out a method for the practical application of spiritual metaphysics Published a year after the author s death this work represents the culmination of all his esoteric studies and succeeds in bringing together the spirit and the mind eventually becoming one of the earliest and best known foundation stones of modern New Age thought Table of Contents FOREWORD BY PAUL DERRICK CHAPTER I SOME FACTS IN NATURE CHAPTER II SOME PSYCHIC EXPERIENCES CHAPTER III MAN S PLACE IN THE CREATIVE ORDER CHAPTER IV THE LAW OF WHOLENESS CHAPTER V THE SOUL OF THE SUBJECT CHAPTER VI THE PROMISES CHAPTER VII DEATH AND IMMORTALITY CHAPTER VIII

J. Rushdoony, 2009-11-16 To attempt to study Scripture without studying its law is to deny it To attempt to understand Western civilization apart from the impact of Biblical law within it and upon it is to seek a fictitious history and to reject twenty centuries and their progress The Institutes of Biblical Law has as its purpose a reversal of the present trend it is called Institutes in the older meaning of the that word i e fundamental principles here of law because it is intended as a beginning as an instituting consideration of that law which must govern society and which shall govern society under God To understand Biblical law it is necessary to understand also certain basic characteristics of that law In it certain broad premises or principles are declared These are declarations of basic law The Ten Commandments give us such declarations A second characteristics of Biblical law is that the major portion of the law is case law i e the illustration of the basic principle in terms of specific cases These specific cases are often illustrations of the extent of the application of the law that is by citing a minimal type of case the necessary jurisdictions of the law are revealed The law then asserts principles and cites cases to develop the implications of those principles with is purpose and direction the restitution of God s order
