Crusaders, Cathars and the Holy Places Bernard Hamilton,2018-12-17 First published in 1999 this volume emerged as part of the Collected Studies series and features studies authored by Bernard Hamilton over a period of twenty years all of which deal with relations between Western Europe and the neighbouring civilizations in the Eastern Mediterranean during the 12th and 13th centuries The first

set examines the kind of society which developed in the Crusader States including three essays on women and Queens and the attitude of western settlers to the Byzantine Empire eastern Christian churches and the Islamic world Further essays deal with the impact on Western Europe of Christian dualist heresy which had its roots in the Balkans and Armenia and perhaps ultimately in Persia The final group centres around the Holy Places whose liberation was the *raison d'être* of the crusade movement They examine how the Western Church administered these shrines the way in which they shaped western piety during the time of crusader rule and how the cult of the Holy Places developed in the Western Church after they had been recaptured by Islam Each article's original citation information is included along with the original page numbers and pagination

John II Komnenos, Emperor of Byzantium Alessandra Bucossi, Alex Rodriguez Suarez, 2016-06-03 The Emperor John II Komnenos 1118-1143 has been overshadowed by both his father Alexios I and his son Manuel I Written sources have not left us much evidence regarding his reign although authors agree that he was an excellent emperor However the period witnessed territorial expansion in Asia Minor as well as the construction of the most important monastic complex of twelfth century Constantinople What else do we know about John's rule and its period This volume opens up new perspectives on John's reign and clearly demonstrates that many innovations generally attributed to the genius of Manuel Komnenos had already been fostered during the reign of the second great Komnenos Leading experts on twelfth century Byzantium Jeffreys Magdalino Ousterhout are joined by representatives of a new generation of Byzantinists to produce a timely and invaluable study of the unjustly neglected figure of John Komnenos

The Cambridge History of Christianity: Volume 5, Eastern Christianity Michael Angold, 2006-08-17 This volume encompasses the whole Christian Orthodox tradition from 1200 to the present Its central theme is the survival of Orthodoxy against the odds into the modern era It celebrates the resilience shown in the face of hostile regimes and social pressures in this often neglected period of Orthodox history

The Concept of the Elect Nation in Byzantium Shay Eshel, 2018-03-20 In *The Concept of the Elect Nation in Byzantium* Shay Eshel shows how the Old Testament model of the ancient Israelites was a prominent factor in the evolution of Roman Byzantine national awareness between the 7th and 13th centuries The Byzantines' interpretation of the 7th century epic events as manifestations of God's wrath enabled them to incorporate the events into a paradigm which they now embraced the Old Testament paradigm of the Israelite Elect Nation's complex relationship with God a cyclic relation of sin wrath punishment repentance and salvation The Elect Nation concept enabled the Byzantines to express the shift in their collective identity toward a shrunken yet more clearly defined national awareness

Byzantium and the Crusades Jonathan Harris, 2022-11-03 Jonathan Harris s classic text chronologically surveys Byzantine history in the time of the Crusades The book reveals the attitudes of the Byzantine ruling elites towards the Crusades and their ultimate inability to adapt to the challenges this presented Using evidence amassed in a wealth of primary sources Harris successfully makes the point that Byzantine interactions with Western Europe the Crusades and the crusader states is best understood in the nature of the Byzantine Empire and the ideology which underpinned it rather than in any generalised hostility between the peoples Incorporating recent scholarship this 3rd edition has 25 further images as well as additional maps and genealogical tables This new edition also comes with two significant additions to the text Appendix I sees the inclusion of seven critical Latin primary sources taken from across three centuries Translated by the author these sources are then discussed in detail providing multiple first hand perspectives on the subject in the process Appendix II provides assessments of various representations of the subject in key fiction and non fiction works thereby enriching your appreciation of the way that Byzantine interaction with the Crusades has been constructed at different times from various standpoints and in other languages This book remains the keystone to understanding the East West relationship during the Crusades and what this meant for the Byzantine Empire

Byzantium and the West Nikolaos Chrissis, Athina Kolia-Dermitzaki, Angeliki Papageorgiou, 2019-02-11 The interaction between Byzantium and the Latin West was intimately connected to practically all the major events and developments which shaped the medieval world in the High and Late Middle Ages for example the rise of the papal monarchy the launch of the Crusades the expansion of international and long distance commerce or the flowering of the Renaissance This volume explores not only the actual avenues of interaction between the two sides trade political and diplomatic contacts ecclesiastical dialogue intellectual exchange armed conflict but

also the image each side had of the other and the way perceptions evolved over this long period in the context of their manifold contact Twenty one stimulating papers offer new insights and original research on numerous aspects of this relationship pooling the expertise of an international group of scholars working on both sides of the Byzantine Western divide on topics as diverse as identity formation ideology court ritual literary history military technology and the economy among others The particular contribution of the research presented here is the exploration of how cross cultural relations were shaped by the interplay of the thought world of the various historical agents and the material circumstances which circumscribed their actions The volume is primarily aimed at scholars and students interested in the history of Byzantium the Mediterranean world and more widely intercultural contacts in the Middle Ages Alfonso X and the Cantigas de Santa Maria Joseph O'Callaghan,2021-09-20 In the Cantigas de Santa Maria a collection of more than four hundred poems written in the language of medieval Galicia in praise of the Virgin Mary Alfonso X el Sabio king of Castile Leon has left us a kind of poetic biography Declaring himself Mary's troubadour he appeals to her as his advocate and consoler as he recounts specific events in his life and that of his kingdom As he tells us about his family his war against the Muslims of Granada and Morocco the treachery of the nobility his frequent illnesses and his fear of hellfire and damnation he reveals much about his personality and his spirituality This volume explicates the historical circumstances surrounding the events described in the cantigas The Cantigas de Santa Maria is a royal biography unique in thirteenth century Europe **The Sabaite Heritage in the Orthodox Church from the Fifth Century to the Present** Joseph Patrich,2001 St Sabas 439 532 CE was one of the principal leaders of Palestinian monasticism that had flourished in the sixth century in the desert of Jerusalem As an abbot he was the first in Palestine to formulate a monastic rule in writing and his activity as an ecclesiastical leader bore upon the life of the entire Christian community in the Holy land He and his monks were active in the theological disputes that affected the fate of the Christian Church of Palestine and shaped it as a stronghold of Orthodoxy But his activity has transcended his place and time His largest monastery the Great Laura Mar saba functioned from the sixth to the ninth century as the intellectual centre of the See of Jerusalem The most distinguished among its authors were Cyril of Scythopolis Leontius of Byzantium John Moschus and Sophronius Antiochus Monachos John of Damascus Cosmas the Hymnographer Leontius of Damascus and Stephen Mansur Their treatises on dogma and prayer shaped Orthodox theology liturgy and hymnography in Palestine and beyond This literary activity in Greek was complemented by scribal activity of copying and translating of Greek manuscripts into Arabic and Georgian There was also original composition in Arabic by Theodore Abu Qurrah and others Monastic life in Mar Saba that continued under Muslim rule with only short intermissions preserved the Sabaite tradition and contributed to its reputation parallel to that of Jerusalem Sabaite monks were renowned as paragons of monasticism and dogma who had inspired monastic and ecclesiastical reformers in later centuries throughout the Orthodox world Its fame spread far and wide from Rome and North Africa in the west to Serbia Russia and Georgia in the east affecting Christian dogma and

liturgy therein The thirty one studies included in this volume each written by an expert in his field present the various facets of the Sabaite heritage in the Orthodox Church from the sixth century to the present **True Citizens** Philip

Daileader,2021-10-01 This first book length English language study of medieval urban citizenship focuses on Perpignan a town second in population only to Barcelona in fourteenth century Catalonia yet neglected by modern historians True Citizens describes and analyzes the rules that governed membership in the community of citizens the definition of citizenship and how the development of divergent memories within the community resulted in a crisis of citizenship This study uses urban citizenship to shed new light on many important historiographical issues such as Jewish Christian relations the place of towns in feudal society the place of Catalonia in the urban history of medieval Europe and the transition from the High to the Late Middle Ages *Negotiating Cultures* Robert Ignatius Burns,Paul Edward Chevedden,1999 Recently recovered Arabic Latinate interlinear treaties between James the Conqueror of Arago Catalonia and the Muslims of Mediterranean Spain illumine that hard fought crusade 1225 1276 its many Islamic and European contexts and the radically opposed mentalities involved *The Art of Conversion* Harvey Hames,2021-10-01 This book discusses Ramon Llull ca 1232 1316 the Christian missionary philosopher and mystic his relations with Jewish contemporaries and how he integrated Jewish mystical teachings Kabbalah into his thought system so as to persuade the Jews to convert Issues dealt with include Llull s attitude towards the Jews his knowledge of Kabbalah his theories regarding the Trinity and Incarnation the Art and the impact of his ideas on the Jewish community The book challenges conventional scholarly opinion regarding Christian knowledge of contemporary Jewish thought and questions the assumption that Christians did not know or use Kabbalah before the Renaissance Further it suggests that Lull was well aware of ongoing intellectual and religious controversies within the Jewish community as well as being the first Christian to acknowledge and appreciate Kabbalah as a tool for conversion **The Visigoths**

Ferreiro,2021-09-20 The study of the Visigoths continues to be one of the most actively researched topics in Late Antique Studies As might be expected the vast majority of the work has been carried out in Europe and especially by scholars from the Iberian Peninsula There has always been a need however to make much of this research accessible to English language specialists and the wider academic community in Late Antiquity Studies Too often Late Antiquity Studies tend to ignore or marginalize the Iberian Peninsula and this may be due in part to the lack of access to this scholarship in the English language This volume of essays has as one of its goals to ameliorate such a deficiency The scholars who participated in this volume are both from Europe and North America They also represent scholars who are well known and those who are establishing distinguished scholarly reputations Although thematically the essays do not exhaust the broad nature of Visigothic studies they do nevertheless offer an impressive array of topics Coverage includes research on Visigothic identity in Gaul regional studies on Galicia and Lusitania anti Semitism in Visigothic law the political grammar of Ildephonsus of Toledo monasticism and liturgy numismatics Roman Visigothic pottery in Baetica urban and rural archaeology and Gothic consciousness among

Mozarab communities **Fustat on the Nile** Elinor Bareket, 1999 The book discusses Jewish leadership in Egypt and Palestine during the eleventh century The struggles for power between the leaders of the local communities and the traditional centers of Jewish authority all brought to light by documents from the Cairo Geniza
