Elephant Memories Cynthia Moss, 2012-08-06 A style so conversational that I felt like a privileged visitor riding beside her in her rickety Land Rover as she showed me around the park The New York Times Book Review Cynthia Moss spent many years living in Kenya's Amboseli National Park and studying the elephants there and her long term research has revealed much of what we now know about these complex and intelligent animals In this book she shares a more up close and personal perspective chronicling the lives of the elephant families led by matriarchs Teresia Slit Ear Torn Ear Tania and Tuskless including a rare look at calves and their development This edition is also updated with a new afterword catching up on the families covering current conservation issues and celebrating a species from which we could learn some moral as well as zoological lessons Chicago Tribune One is soon swept away by this Babar for adults By the end one even begins to feel an aversion for people One wants to curse human civilization and cry out Now God stand up for the elephants The New York Times Moss speaks to the general reader with charm as well as scientific authority An elegantly written and ingeniously structured account The Wall Street Journal Any reader interested in animals will be captivated Publishers Weekly
