**The Master of the Housebook** Jane Campbell Hutchison, 1972      German Paintings in the Metropolitan Museum of Art, 1350-1600 Maryan W. Ainsworth, Joshua P. Waterman, Dorothy Mahon, Metropolitan Museum of Art (New York, N.Y.), 2013 Paintings by Renaissance masters Lucas Cranach the Elder Albrecht Durer and Hans Holbein the Younger are among the works featured in this lavish volume the first to comprehensively study the largest collection of early German paintings in America These works created in the 14th through 16th centuries in the region that comprises present day Germany Austria and Switzerland include religious images such as Virgin and Child with Saint Anne by Durer and the double sided altarpiece The Dormition of the Virgin by Hans Schaufelein as well as remarkable portraits by Holbein and the iconic Judgment of Paris by Cranach In all more than 70 works are thoroughly discussed and analyzed making this volume an incomparable resource for the study of this rich artistic period      *Complete Printmaker* John Ross, Claire Romano, Tim Ross, 2009-12-01 This revised and expanded edition takes the reader step by step through the history and techniques of over forty five print making methods From the traditional etching engraving lithography and relief print processes to today s computer prints Mylar lithography copier prints water based screen printing helio reliefs and monotypes The Complete Printmaker covers various aspects of fine printmaking The book also includes a survey of issues and contemporary concerns in the printmakers world      Painting on Light Barbara Butts, Lee Hendrix, 2001-03-01 The names Albrecht Durer and Hans Holbein the Younger evoke the dazzling accomplishments of Renaissance panel painting and printmaking but they may not summon images of stained glass Nevertheless Durer Holbein and their southern German and Swiss contemporaries designed some of the most splendid works in the history of the medium This lavish volume is a comprehensive survey of the contribution to stained glass made by these extraordinarily gifted draftsmen and the equally talented glass painters who rendered their compositions in glass Included are discussions of both monumental church windows and smaller scale stained glass panels made for cloisters civic buildings residences and private chapels The subjects of these rarely seen drawings and panels range from religious topics to secular themes including love planets hunts and battles Focusing on stained glass produced in Germany and Switzerland from about 1495 to 1530 Painting on Light includes drawings by Durer Holbein Albrecht Altdorfer Hans Baldung Grien Jorg Breu the Elder Hans Burgkmair Urs Graf Hans von Kulmbach Hans Leu the Younger Niklaus Manuel Deutsch Hans Schaufelein Hans Weiditz and others This informative book is published in conjunction with an exhibition at the Getty Museum from July 11 through September 24 2000 and from November 7 2000 to January 4 2001 at the Saint Louis Art Museum      *The Thun-Hohenstein Album* Chassica Kirchhoff, 2023 The first extensive study of the depiction of the armour in the Thun Hohenstein Album against the vibrant artistic and cultural contexts that created it In late medieval and early modern Europe armour was more than a defensive technology for war or knightly sport Its diverse types formed a complex visual language Luxury armour was fitted precisely to a wearer s body and its memorable

details declared his status Empty armour could evoke an owner's physical presence prompting recollection of knightly personae glittering pageantry and impressive feats of arms Its mnemonic power persisted long after the battle had ended the trumpets had gone silent and the dust had settled in the tournament arena Previously believed to contain preliminary designs sketched by master armourers the Thun Hohenstein album is a bound collection of drawings by professional book painters depicting some of the most artistically and technologically innovative armours of the fifteenth and sixteenth centuries Like a paper version of the princely armories that first formed during the 1500s the album's images offered rich sites of meaning and memory Their organization within the codex suggests the images significance to their compiler At the same time the composition and details allow the reader to trace the transmission of recognizable armours and the memories they embodied from the anvil to the page This book is the first to examine the album and the armor it depicts in their vibrant artistic and cultural context In five thematic chapters it moves from case studies of these drawings to explore the album's complex intersections with the genres of martial history material culture and literature It also reveals the album's participation in cultures of remembrance that carried mythic knightly personae constructed around powerful Habsburg princes forward in time from the Middle Ages into the early modern era from the courts of the Holy Roman Empire to emerging urban audiences

Jeep, 2001 An encyclopedia covering the political social intellectual religious and cultural history of the German and Dutch speaking medieval world between 500 and 1500 Entries cover individuals and their deeds as well as broader historical topics      **Picturing Experience in the Early Printed Book** Elizabeth Ross, 2015-06-10

Bernhard von Breydenbach's Peregrinatio in terram sanctam Journey to the Holy Land first published in 1486 is one of the seminal books of early printing and is especially renowned for the originality of its woodcuts In Picturing Experience in the Early Printed Book Elizabeth Ross considers the Peregrinatio from a variety of perspectives to explain its value for the cultural history of the period Breydenbach a high ranking cleric in Mainz recruited the painter Erhard Reuwich of Utrecht for a religious and artistic adventure in a political hot spot a pilgrimage to research the peoples places plants and animals of the Levant The book they published after their return ambitiously engaged with the potential of the new print medium to give an account of their experience The Peregrinatio also aspired to rouse readers to a new crusade against Islam by depicting a contest in the Mediterranean between the Christian bastion of the city of Venice and the region's Muslim empires This crusading rhetoric fit neatly with the state of the printing industry in Mainz which largely subsisted as a tool for bishops consolidation of authority including selling the pope's plans to combat the Ottoman Empire Taking an artist on such an enterprise was unprecedented Reuwich set a new benchmark for technical achievement with his woodcuts notably a panorama of Venice that folds out to 1 62 meters in length and a foldout map that stretches from Damascus to Sudan around

the first topographically accurate view of Jerusalem The conception and execution of the Peregrinatio show how and why early printed books constructed new means of visual representation from existing ones and how the form of a printed book emerged out of the interaction of eyewitness experience and medieval scholarship real travel and spiritual pilgrimage curiosity and fixed belief texts and images
