African Migrants, European Borders, and the Problem with Humanitarianism P. Khalil Saucier, Tryon P. Woods, 2024-06-10 *African Migrants European Borders and the Problem with Humanitarianism* presents a probing examination of the contemporary migrant crisis in the Mediterranean Basin By centering our analysis on how racial slavery has shaped European democratic culture its abolitionist traditions and the global structures of capital accumulation P Khalil Saucier and Tryon P Woods reveal and confront how contemporary discourse on the migrant crisis displaces Black sovereign mobility Their inquiry into the modern world s culture of politics investigates freedom of movement discourse s ostensible confrontation with border policing the memorializing of Black migrant deaths by artists and advocates and the visual imagery of a cosmopolitan and multicultural Europe as conceived by filmmakers in response to the migrant crisis as variants of a slaveholding culture instantiated in the early Mediterranean and Atlantic worlds This analysis allows the authors to formulate a new critical framework for analysis of both the problems of contemporary migration and borders and the leading prescriptions on offer from analysts advocates and policy makers in order to develop alternate ways of conceptualizing global society

The British political elite and Europe, 1959-1984 Bob Nicholls, 2019-01-06 This book offers an original interpretation of Britain s relationship with Europe over a 25 year period 1959 84 and advances the argument that the current problems over EU membership resulted from much earlier political machinations This evidence based account of the seminal period analyses

the applications for EEC membership the 1975 referendum and the role of the press Was the British public misled over the true aims of the European project How significant was the role of the press in changing public opinion from anti to pro Common Market membership Why after over 40 years since Britain became a member of the European community does the issue continue to deeply divide not only the political elite but also the British public These and other pertinent questions are answered in this timely book on a subject that remains topical and highly controversial

European Integration and the Problem of the State Stefan Borg, 2015-04-07 This study argues that the practices of European integration reproduce rather than transcend the practices of modern statecraft Therefore the project of European integration is plagued by similar ethico political dilemmas as the modern state and is ultimately animated by a similar desire to either expel or interiorize difference

The Ethos of Europe Andrew Williams, 2010-03-11 Can the EU become a just institution Andrew Williams considers this highly charged political and moral question by examining the role of five salient values said to be influential in the governance and law of the Union peace the rule of law respect for human rights democracy and liberty He assesses each of these as elements of an apparent institutional ethos and philosophy of EU law and finds that justice as a governing ideal has failed to be taken seriously in the EU To remedy this condition he proposes a new set of principles upon which justice might be brought more to the fore in the Union s governance By focusing on the realisation of human rights as a core institutional value Williams argues that the EU can better define its moral limits so as to evolve as a more just project

The Question of Competence in the European Union Loïc Azoulay, 2014-03 The allocation of powers between the

European Union and its Member States is a classic theme in European studies. The question of how to limit the expansion of the Union's competences whilst safeguarding the dynamics of the process of European integration is now being raised. This book is a theoretical and practical inquiry into this question.
