The Memoirs Of Admiral H Kent Hewitt:

The Memoirs of Admiral H. Kent Hewitt Henry Kent Hewitt, 2004 The Memoirs of Admiral H. Kent Hewitt Henry Kent Hewitt, 2004 Destination Casablanca Meredith Hindley, 2017-10-10 This rollicking and panoramic history of Casablanca during the Second World War sheds light on the city as a key hub for European and American powers and a place where spies, soldiers and political agents exchanged secrets and vied for control. In November 1942 as a part of Operation Torch 33 000 American soldiers sailed undetected across the Atlantic and stormed the beaches of French Morocco. Seventy four hours later the Americans controlled the country and one of the most valuable wartime ports Casablanca. In the years preceding Casablanca had evolved from an exotic travel destination to a key military target after France's surrender to Germany. Jewish refugees from Europe poured in hoping to obtain visas and passage to the United States and beyond. Nazi agents and collaborators infiltrated the city in search of power and loyalty. The resistance was not far behind as shopkeepers, celebrities, former French Foreign Legionnaires and disgruntled bureaucrats formed a network of Allied spies. But once in American hands Casablanca became a crucial logistical hub in the fight against Germany and the site of Roosevelt and Churchill's demand for unconditional surrender. Rife with rogue soldiers, power grabs and diplomatic intrigue Destination Casablanca is the riveting and untold story of this glamorous city memorialized in the classic film that was rushed released in 1942 to capitalize on the drama that was unfolding in North Africa at the heart of World War II Neptune Craig L. Symonds, 2014-05 On June 6 1944 160 000 Allied troops landed along 50 miles of French coastline to battle German forces on the beaches of Normandy. D Day as it would come to be known would eventually lead to the liberation of Western Europe and was a critical step in the road to victory in World War II. Yet the story begins long before the Higgins landing craft opened their doors and men spilled out onto the beaches to face a storm of German bullets. The invasion and the victories that followed would not have been possible without the massive naval operation that led up to it NEPTUNE. From the moment British forces evacuated the beaches of Dunkirk in 1940 Allied planners began to consider how, when and where they would re-enter the European continent. Once in the war the Americans led by George Marshall wanted to invade in a year's time. The British were convinced this would be a tragic mistake. Allied forces would be decimated by the Wehrmacht. When Operation Overlord, the name given to the cross Channel invasion of Northern France, was finally planned it was done so only in concert with the seaborne assault that would bring the men and equipment to the Normandy coast. Symonds traces the central thread of this Olympian event involving over five thousand ships and nearly half a million personnel from the first talks between British and American officials in the winter of 1941 to the storming of the beaches in the late spring of 1944. He considers Neptune's various components including the strategic unity, industrial productivity, organizational execution and cross cultural exchange on which the Allies depended. Portraits of key American and British figures from Franklin Roosevelt, Winston Churchill and Eisenhower to Admiral Ernest J King and his British counterpart Admiral Sir Bertram Ramsay combine

with an intimate look at men up and down the chain of command Neptune was the pinnacle of Allied organization and cooperation From the suppressing of the U boat menace in the Battle of the Atlantic to the establishing of camps and training facilities near the English coast to the gearing up of the American industrial machine to produce the ships tanks and tools of war that would make an invasion possible Symonds riveting narrative uncovers the means by which Neptune was brought to fruition and presents the first comprehensive account of the greatest naval operation in history World War II at Sea Spencer C.
