The Methodist Unification Morris L. Davis, 2008 In the early part of the twentieth century Methodists were seen by many Americans as the most powerful Christian group in the country Ulysses S Grant is rumored to have said that during his presidency there were three major political parties in the U S if you counted the Methodists The Methodist Unification focuses on the efforts among the Southern and Northern Methodist churches to create a unified national Methodist church and how their plan for unification came to institutionalize racism and segregation in unprecedented ways How did these Methodists conceive of what they had just formed as united when members in the church body were racially divided Moving the history of racial segregation among Christians beyond a simplistic narrative of racism Morris L Davis shows that Methodists in the early twentieth century including high profile African American clergy were very much against racial equality believing that mixing the races would lead to interracial marriages and threaten the social order of American society The Methodist Unification illuminates the religious culture of Methodism Methodists self identification as the primary carriers of American Christian Civilization and their influence on the crystallization of whiteness during the Jim Crow Era as a legal category and cultural symbol **The Methodist Fact Book** Methodist Church (U.S.).
