Dr. Jay Lombard

The Mind Of God:

The Mind of God Riaan Engelbrecht, 2023-01-18 The greatest commandment in Matthew 22 36 is to love the Lord our God with all our heart with all our soul and with all our mind We must love God WITH ALL OUR MINDS It is a commandment Not part of it Not proportionally In totality We must be consumed by a love for God for He is must be our first love Our mind must be connected and united with God in the morning in the afternoon in the evening yes every second of the day Our hearts must yearn for God for God is glorious and wonderful God is jealous of our love He wants our minds to think of Him ALL THE TIME He wants our affection attention and devotion There is nothing greater for your mind to THINK of God and His Word Only when our minds yield to God can we seek a path of purity joy peace and love For God calls our mind to be in sync with His mind Do you know the mind of God For His mind speaks of wisdom divine knowledge love of beauty and majesty God calls for a pure mind a good mind and a mind that seeks the light The Mind of God Ta ma Sailau Sagaga-Simanu, 2013-08-30 We live in times of renewal reflection and recycling There are energies and forces directing people in numerous ways What is the driving force behind our worlds projects and systems of development It is the hidden Sacred Mind of God present in creation It is the mediating voice and the micro communication device in peoples minds around the globe and universe It is the mind of God in Nature It is Gods innovative and omnipotent mind protecting and balancing our world for continuity and sustainability In this book I am delving a little into the thoughts assortment of Gods intellectual sanctuary which intrigues us all contemporarily This is partly experiencing viewing seeking and imagining God through watching TV movies listening to radio broadcasts and reading newspapers e g on tsunamis and climate change conferences the debates on God by some ecumenical preachers etc etc informing us all about the awe that is permeating the atmosphere and the environment not just adversely but bringing hope and attention to the state of our world The main inspiration in this work is how does God think Is the pool of our mindsets a reflection of Gods intellectual sanctuary Does God reply to our prayers in a similar way to our way of responding to our childrens cries and wants In Part 1 a discussion is attempted about the different connections and wealth of existing legal derivations about Gods Mind since the beginning of time viz RSV Bible This affirms the common view that a super pluralistic mind exists belonging to God beyond the collective of Nature and humankind As well I am sharing my hypothesis on a possible composition of YHWHs mind using the outcomes gathered from around and evidence experienced daily e g climate change IT interference spyware and viruses literature and media My hypothesis is simply a great pool of imagination tested daily emerging to provide a theoretical basis for research I feel that anyones perception of our universe is a legitimate entry to further discovery and research Part 2 exposes some innovation on how the Sacred Mind of God manifests itself in the multi religious isms of today Religion indeed is only a part of Gods wisdom and mind which we use intensively daily to explain our experiences of the Sacred and the Profane What is paramount in modern times is the love of God for all creation especially human beings Why does Gods love and Mind operate so differently

from human experiences Part 3 looks at the future with respect to secular philosophy and human piety critical thinking new discoveries and prophecies currently affecting us all For example Heaven is here with us on earth just as much as the Spirit God abides in humans on earth The final opinion at the rear of the book is about the word mind as a simple construction currently used to describe the awesome intellectual sanctuary of God On its own the word seems not pious enough to describe the power and divinity of Gods super brain network Am I trying to equate Gods Intellectual Sanctuary with our simple human minds No just using our minds as the best resource to understand God and its Mind We need a better word s to describe the plurality but solitude of Gods thinking realm I have given it the phrases the Sacred Mind of God or the Intellectual Sanctuary of God The phrases imply definitive tapu boundaries which are self explanatory God did put a mind into every form of creation humans as well as other forms of animals fishes and vegetation Creation includes the mountains the oceans the seas winds rivers and all that we can see and perceive even the minutest creations like the ants pests germs and viruses The Intellectual Sanctuary of God is not the same as the human mind and it affirms the notion that God exists with a mind beyond our understanding It is not a singular entity like **The Mind of God** Elwin Lincoln House,1917

The Mind of God Dr. Jay Lombard,2018-09-11 For fans of Deepak Chopra Rudy Tanzi and Andrew Newberg A renowned behavioral neurologist provides insights to some of the most curious spiritual questions we all face Is there a God It s a question billions of people have asked since the dawn of time You would think by now we d have a satisfactory universal answer No such luck Or maybe we do and we just need to look in the right place For Dr Jay Lombard that place is the brain and more importantly the mind that center of awareness and consciousness that creates reality In *The Mind of God* Dr Lombard employs case studies from his own behavioral neurology practice to explore the spiritual conundrums that we all ask ourselves What is the nature of God Does my life have purpose What s the meaning of our existence Are we free What happens to us when we die For Lombard these metaphysical questions are a jumping off point for exploring the brain in search of the seat of the soul It is neuroscience the author contends and how we and our brains interpret what s going on around us that can lead us to a deeper and more fulfilling faith Mixing his personal experiences in the medical field including compelling cases such as the male patient who really thought he was pregnant and a woman who literally scared herself to death along with his own visionary insight into spiritual experience Lombard has much to tell us about the nature and power of belief and what we can do to focus our beliefs in a positive direction If you want to find more meaning in your life or are searching for a deeper understanding of why we believe what we believe then this book can lead to an exciting transformation in the way you see and understand the world around you With cutting edge research and provocative case studies renowned behavioral neurologist provides insights to some of the most curious spiritual questions of mortality

The Mind of God P. C. W. Davies,2001 **The Mind of God** James W. Peterson,2011-02 The path to true human happiness is governed by the laws of nature including the nature of man It took me over 18 years to discover them by the

time you get to the end of this book you will know the path I took This is a report of my journey to discover who I am and why I am here I have discovered that the purpose and course of my life is determined in the same manner as yours It matters not who you are or what your particular circumstance is It doesn't matter if you have lost a child to death or not It doesn't even matter if you have children or not It matters not if you are a murderer or a saint gay or straight male or female first world citizen or jungle savage plant or animal The purpose for living is the same for all living things This book is the result of my search for what the true content of The Mind of God is and how by once acquiring the content of The Mind of God it can be applied to one's own benefit By reading this book you will be exposed to the method of human knowledge acquisition and it will forever change the content of your mind It is said that a mind once expanded by a new idea can never return to its original size Prepare yourself for a mind expanding experience

The Mind of God P. C. W. Davies, 1992 **Exploring the Mind of God** Chaim Bentorah, Laura Bertone, 2024-07-09

God's Thoughts Toward You Are Filled with Love Exploring the Mind of God reveals the thoughts and plans of our Creator Father as revealed in the deeper meanings of Hebrew words in Scripture with reflections on related Greek and Aramaic terms as well Hebrew teacher Chaim Bentorah highlights both Old and New Testament passages that reveal the loving nature of God as opposed to the vindictive nature that is commonly portrayed Chaim says The foremost thought that expresses the mind of God toward humanity is His love for us in Christ Jesus Each of the sixty devotional readings features a specific passage of Scripture followed by an investigation of key words in the original languages all pointing to the eternal purposes of our loving heavenly Father Use as an inspiring daily devotional that will draw you closer to the Lord a deeper word study into biblical Hebrew or both You don't even have to be familiar with a word of Hebrew to be greatly blessed by these insights Chaim opens up the biblical passages while ultimately pointing us to enter more fully into a loving relationship with our Lord

Consciousness and the Mind of God Charles Taliaferro, 1994-08-25

This work addresses the challenge of contemporary materialism for thinking about God The book examines contemporary theories of consciousness and defends a non materialist theory of persons subjectivity and God A version of dualism is articulated that seeks to avoid the fragmented outlook of most dualist theories Dualism is often considered to be inadequate both philosophically and ethically and is seen as a chief cause of denigrating the body and of promoting individualism and scepticism Charles Taliaferro defends a holistic understanding of the person body relationship in which the two are distinguishable yet integrally related This integrated dualism is spelled out in a way that avoids the ethical and philosophical problems associated with other dualistic accounts especially in its Platonic and Cartesian forms A defence is then made of the intelligibility of thinking about God as non physical yet integrally present to creation Charles Taliaferro is co editor of the forthcoming *A Companion to Philosophy of Religion* with Philip Quinn He has had work
