The Painter And The Father Painter Series:

My Father's House Thomas Dumm, 2014-09-29 In *My Father's House* the political philosopher Thomas Dumm explores a series of stark and melancholy paintings by the American artist Will Barnet. Responding to the physical and mental decline of his sister Eva who lived alone in the family home in Beverly, Massachusetts, Barnet began work in 1990 on what became a series of nine paintings depicting Eva and other family members as they once were and as they figured in the artist's memory. Rendered in Barnet's signature quiet abstract style, the paintings each featured in full color present the ordinary and extraordinary aspects of a twentieth-century American family. Dumm first became acquainted with Barnet and his paintings in 2008. Given his scholarly focus on the lives of ordinary people, he was immediately attracted to the artist's work. When they met, Dumm and Barnet began a friendship and dialogue that lasted until the painter's death in 2012 at the age of 101. This book reflects the many discussions the two had concerning the series of paintings, Barnet's family, his early life in Beverly, and his eighty-year career as a prominent New York artist. Reading the almost gothic paintings in conversation with the writers and thinkers key to both his and Barnet's thinking—Emerson, Spinoza, Dickinson, Benjamin Cavell, Nietzsche, Melville—Dumm's haunting meditations evoke broader reflections on family, mortality, the uncanny, and the loss that comes with remembrance.

The Painter's Daughters Emily Howes, 2024-02-27 The daughters of one of England's most famous portrait artists of the 1700s, Peggy and Molly Gainsborough, are inseparable due to Molly's bouts of mental confusion and as Peggy goes to great lengths to protect her sister's secret, she falls in love with a charming composer, which sparks the bitterest of betrayals.

The City Rehearsed , "French Paintings of Childhood and Adolescence, 1848-1886 " Anna Green, 2017-07-05 The premise of Anna Green's timely and original book is that nineteenth-century representations of childhood and adolescence in paintings, but also in other forms of visual culture and in diverse written discourses of the period, are critical for understanding modernity. Whilst such well-worn signifiers for modernity as the city, the dandy, and the prostitute have been well-mined, childhood and adolescence have not. Paintings of the young produced in France from 1848 to 1886, Green contends, inform not only our understanding of modern life but also our perception of modernist or avant-garde painting. Figuring largely are Manet and the Impressionists, as well as a gamut of more traditional painters of children who are crucial in providing context for the avant-garde. Because modernity is an essentially urban phenomenon, Green's focus is primarily on the city, usually Parisian child. The painted youth of her study are organized initially by class and gender. Then the chapters are structured according to themes: parent-child relations, modes of discipline, work, education, and play, the spectacle, sexuality, that straddle the congruences among the book's triple trajectory: the young, their modernist representations, and the experience of modernity. Green's interdisciplinary approach ensures that this book will be of interest not only to art historians but to all those concerned with the cultural and social history of childhood.
