The Painterly Figure:

Painterly figure ,1983 The Painterly Figure, July 24-September 4, 1983 Klaus Kertess,1983 *Here Is a Figure*

Sarah Dowling,2024-12-15 A study of supine prone and recumbent figures in contemporary literature The prostitute the protester the murder victim the invalid the layabout the depressive all are associated with lying down Skewing and flattening the perpendicular axis that defines the human in Western philosophy art and humanist inquiry these downward directed figures refusals or failures to hew to the moral and postural logics of uprightness enable a reassessment of subjectivity ecological relation and representation that last of which is after all a process of standing in for Here Is a Figure Grounding Literary Form works across an array of well known and counter canonical texts showing that recumbent figures saturate the literary arts of the present and respond to the proliferation of contemporary forms of grounding in all its meanings Reading these figures in dialogue with critical Indigenous studies disability studies and horizontalist feminisms Sarah Dowling reveals the potential in thinking with and through a position stretched out across dependent on and undetachable from the earth

The Organic Line Irene V. Small,2024-10-08 A major rethinking of twentieth century abstract art mobilized by the work of Brazilian artist Lygia Clark What would it mean to treat an interval of space as a line thus drawing an empty void into a constellation of art and meaning laden things In this book Irene Small elucidates the signal discovery of the Brazilian artist Lygia Clark in 1954 a fissure of space between material elements that Clark called the organic line For much of the history of art Clark s discovery much like the organic line has escaped legibility Once recognized however the line has seismic repercussions for rethinking foundational concepts such as mark limit surface and edge A spatial cavity that binds discrepant entities together the organic line transforms planes into flexible topologies borders into membranes and interstices into points of connection As a paradigm the organic line has profound historiographic implications as well inviting us to set aside traditional notions of influence and origin in favor of what Small terms weak links and plagiotropic relations These fragile oblique and transversal ties have their own efficacy and Small s innovative readings of canonical modernist works such as Kazimir Malevich s Black Square John Cage s 4 33 and Le Corbusier s machine habiter as well as contemporary works by such artists as Adam Pendleton Ricardo Basbaum and Mika Rottenberg reveal the organic line s remarkable potential as an analytic instrument Mobilizing a rich repertoire of archival sources and moving across multiple chronologies geographies and disciplines this book invites us to envision modernism not as a stable construct defined by centers and peripheries inclusions and exclusions but as a topological field of interactive destabilizing tensions More than a history of a little known artistic device *The Organic Line Toward a Topology of Modernism* is a user s guide and manifesto for reimagining modern and contemporary art for the present The Profile of Imagining Robert Hopkins,2025-05-19 What is sensory imagining and what role does it play in our lives How does visualizing a castle running through a tune in one s head or imagining the taste of fish ice cream relate to perceiving such things or to remembering them What are the connections between imagining and

agency and how does it relate to emotion and other affect The Profile of Imagining offers a theory that answers these and many other questions It argues that sensory imagining involves the redeployment of resources central to perception though in a radically different context and to very different effect The result is a view that explains central features of imagining's phenomenology and functional role including its capacity to capture what it would be like to perceive its objects while acknowledging the many and striking differences between imagining and sensing Hopkins shows how the view can be extended to imagining in other forms especially the imagining of affect and uses it to argue for some surprising conclusions that imagining something is not a way to engage with its aesthetic character and that imagining provokes real feeling much less often than is usually assumed *Francis Bacon - In the Mirror of Photography* Katharina Günther, 2022-05-09

The British painter Francis Bacon 1909 1992 is famed for his idiosyncratic mode of depicting the human figure Thirty years after his death his working methods remain underexplored New research on the Francis Bacon Studio Archive at Hugh Lane Gallery Dublin sheds light on the genesis of his works namely the photographic source material he collected in his studios on which he consistently based his paintings The book brings together the artist's pictorial springboards for the first time delineating and interpreting recurring patterns and methods in his preparatory work and adoption of photographic material In addition it correctly locates chance as a driving force in Bacon's working method and qualifies the significance of photography for the painter German Photo Book Award 23 24 Gold in the category Text Volume Photo Theory **Sanya**

Kantarovsky Sanya Kantarovsky, George Baker, Isabelle Graw, Jamieson Webster, 2024-10-29 An arresting and visually rich monograph of the work of contemporary artist Sanya Kantarovsky Forlorn and spiritually bankrupt tender or abject the subjects in the figurative paintings of Sanya Kantarovsky b 1982 convey an uneasy dark humor They seem trapped in a precarious inner monologue or under the spell of mundane lived experience Sanya Kantarovsky Selected Works 2010 2024 is published with the support of Aspen Art Museum following Kantarovsky's exhibition A Solid House 2022 It includes more than 140 full color image plates and spans the artist's oeuvre focusing on his most recent output since his previous monograph No Joke 2014 The publication also includes a conversation between Kantarovsky and art historian Isabelle Graw as well as essays by the psychoanalyst and writer Jamieson Webster and art historian George Baker **Postwar Figures of**

L'ephemere James Petterson, 2000-09 The question of the relationship between aesthetics and history is reconsidered in this study of these postwar poets Petterson argues that postwar French poetry is a critical poetry encompassing a vast poetic tradition from poets such as Baudelaire and Rimbaud to Francis Ponge and Paul Celan The author also shows how the critical writings of Hegel Heidegger and Ricoeur among others suggest that what he calls postwar poetry's will to meaning and its attempt to develop a post Romantic poetics necessarily questions poetry's ties to philosophical historical and political narratives **In Pursuit of Universalism** Alicia Volk, 2010 Volk's impressive study rethinks the East West binary often

reiterated in discussions of Japanese modernism by reinserting local aspects into the universalizing tendencies of modernism

itself The book makes an important contribution to the growing literature on modern Japanese art history by providing an alternative comparative framework for understanding the global development of modernism that decenters Euro America Rigorously historical in her critique Volk destabilizes our understanding of the Japanese experience of modernity through the prism of Yorozu s singular vision of the self leaving us questioning conventional wisdom and contented to wobble Gennifer Weisenfeld Duke University In Volk s affectingly stunning and deeply reflective study of the Japanese artist Yorozu Tetsugor s work between 1910 1930 we have a profoundly historical reminder of how modernism everywhere struggled to meet the demands of the new with the readymades of received artistic practices In this study of Yorozu s utopian universalist project Volk has imaginatively broadened our understanding of the modernist moment and perceptively captured its global program to unify art and life contemporary culture and history Harry Harootunian author of *Overcome by Modernity History Culture and Community in Interwar Japan*

Changing Images of Pictorial Space William V. Dunning, 1991-03-01 No artist critic or art historian disputes the importance of recording how and why our conceptions and methods of depicting pictorial space have changed from ancient to modern times and yet no previous book has provided a comprehensive history centered around these changing images of pictorial space and the ways in which their evolution reflects ideological changes in society Dunning traces the two thousand year evolution of the conception and the depiction of space in European primarily Italian and French and American painting Unraveling one illusory image after another into their particular elements he explains the development of new styles and images in painting as a continuous rearrangement of these basic elements Following this progression through the Greco Roman period the Italian Renaissance impressionism and the end of modern art the author concludes with today s postmodern concentration on linguistic aspects in painting a change from the former emphasis on space and illusion *Changing Images of Pictorial Space* with over forty illustrations will be of interest to a wide audience from art historians painters and art educators to general readers who wish to understand more about one of the central organizing principles in all schools and periods of art

Cinema and Intermediality (Second, Enlarged Edition) Ágnes Pethő, 2020-08-24 One of the most comprehensive books to focus on the relationship between cinema and the other arts this volume explores types and stylistic devices of intermediality through a wide range of case studies It addresses major theoretical issues and highlights the relevance of intermedial relations in film history mapping the theoretical field by outlining its main concepts and the research avenues pursued in the study of cinematic intermediality including the most recent approaches and methodologies It also presents some major templates of intermediality through various examples from world cinema including closer looks at films by auteurs like Alfred Hitchcock Michelangelo Antonioni Jean Luc Godard and Agn s Varda Supplemented by three new chapters dealing with phenomena which came into view since its first publication the revised and enlarged edition of this ground breaking volume will serve as a useful handbook to clarify key ideas and to offer insightful analyses

Dark Figures in the Desired Country Gerda S. Norvig, William Blake, 1993-01-01 Gerda Norvig has written a book on Blake s Bunyan illustrations that is much more than that it revises our sense of Blake of the relationship of illustrator to illustrated text and the assumptions of Romantic and Romanticist writing Blake certainly will not be the same after Norvig s vigorous analysis and it is arguable that the same may be true of Romanticism Ronald Paulson author of Figure and Abstraction in Contemporary Painting Specialists in both Blake studies and English Romanticism will find this book extremely interesting and useful Norvig carefully analyzes for the first time a set of Blake s most accomplished illustrations a set that as she points out has very rarely been reproduced or exhibited These designs certainly deserve to be better known and Norvig s insightful and stimulating interpretation of them makes their importance to Blake s thought and career amply clear This is certainly a book that all Blake specialists will have to know Anne K Mellor author of Mary Shelley Her Life Her Fiction Her Monsters

Aesthetic Transcendentalism in Emerson, Peirce, and Nineteenth-Century American Landscape Painting Nicholas Guardiano, 2016-12-21 Aesthetic Transcendentalism is a philosophy endorsing the qualitative and creative aspects of nature Theoretically it argues for a metaphysical dimension of nature that is aesthetically real pluralistic and prolific It directs our attention to the rich complexity of immediate experience the possibility of discovering new aesthetic features about the world and the transformative potential of art as an organic expression This book presents the philosophy in its relationship to its historical roots in the philosophic and artistic traditions of nineteenth century North America In this multidisciplinary study Nicholas L Guardiano brings together a philosophic and literary figure in Ralph Waldo Emerson the scientifically minded philosopher Charles S Peirce and the plastic arts in the form of American landscape painting Guardiano evaluates this constellation of philosophers and artists in global perspective as it relates to other historical theories of metaphysics and aesthetics while simultaneously performing a cultural analysis that identifies an essential feature of the American mind Aesthetic Transcendentalism thus possesses abiding significance for our vital interactions with nature daily experiences and contemplations of great works of art Aesthetic Transcendentalism in Emerson Peirce and Nineteenth Century American Landscape Painting will be of interest to scholars of American philosophy and American art history especially specialists of Charles S Peirce Ralph Waldo Emerson and the Hudson River School painters It will also appeal to philosophers working on systematic metaphysical theories of nature

Figural Philology Adi Eyal, 2016-10-20 Though inspired by a Panofskyan legacy this book diverges at certain points from Erwin Panofsky s declared objectives and calls attention to several of aspects that were until now less accentuated in his intellectual reception Insisting on the importance of iconology as a method for art history and the humanities in general it shows how examining this promotes a cooperation between the history of art and the history of philosophy It discusses whether Panofsky s method could be of use for general

questions in the epistemology of the historical sciences that examine human works Figural Philology also shows that Panofsky shares affinities with twentieth century romance philology A reading of Panofsky s work alongside the philological enterprise of Erich Auerbach and several other authors demonstrates that a proper appropriation of the philological impulse can provide a way out of the methodological antimony still hanging between hyper formalist and hyper theoretical approaches to the history of art

Édouard Vuillard, the Nabis, and the Politics of Domesticity Francesca Berry,2024-12-12 This ground breaking book is the first to address the feminine and feminist politics of Intimiste art a modernist mode of art making developed in the 1890s by douard Vuillard while associated with the Nabi brotherhood Coined by contemporary critics intimisme encapsulated the shared approach of these artists to depicting intimate settings and themes Vuillard s paintings which are typically small employ bold pigments and economic brushstrokes to depict female figures in tightly composed apartment interiors Those portrayed include his mother and sister just as wives and lovers dominate the art of other Nabis including Maurice Denis and Pierre Bonnard Francesca Berry comparatively analyses the gender politics of Nabi art to reveal real differences Through skilled visual interpretation she argues that Vuillard attempted a profound engagement with the material conditions of feminine domesticity in cooperation with his first and most sustained audience women He did so the author reveals in artworks that explore a complex range of feminine experiences such as sexual initiation stillbirth illicit work and unceasing housework The personal gender politics of Intimiste practice also are foregrounded Vuillard s studio bedroom afforded him access to quotidian femininity But at what risks to his sister s privacy and to his mother s subjectivity Making an artistic project of feminine domesticity also meant entering the field of politics The 1890s was the decade of state legislation and feminist

demands with respect to work in the home and women's familial rights Personal in motif and Symbolist in form Berry's extensive historical research reveals these artworks also to have been social and political sometimes even feminist in meaning Transcending the structural repression of domesticity in histories of modernist art this book powerfully overturns residual myths of aesthetic introspection and social retreat that for too long have been attached to Nabi Symbolism

Athens at the Margins Nathan T. Arrington, 2021-10-19 How the interactions of non-elites influenced Athenian material culture and society The seventh century BC in ancient Greece is referred to as the Orientalizing period because of the strong presence of Near Eastern elements in art and culture Conventional narratives argue that goods and knowledge flowed from East to West through cosmopolitan elites Rejecting this explanation *Athens at the Margins* proposes a new narrative of the origins behind the style and its significance investigating how material culture shaped the ways people and communities thought of themselves Athens and the region of Attica belonged to an interconnected Mediterranean in which people goods and ideas moved in unexpected directions Network thinking provides a way to conceive of this mobility which generated a style of pottery that was heterogeneous and dynamic Although the elite had power they were unable to agree on the norms of conspicuous consumption and status display A range of social actors used objects contributing to cultural change and to the socially mediated production of meaning Historiography and the analysis of evidence from a wide range of contexts cemeteries sanctuaries workshops and symposia offers the possibility to step outside the aesthetic frameworks imposed by classical Greek masterpieces and to expand the canon of Greek art Highlighting the results of new excavations and looking at the interactions of people with material culture *Athens at the Margins* provocatively shifts perspectives on Greek art and its relationship to the eastern Mediterranean

Music and Modern Art James Leggio, 2014-07-16 Music and Modern Art adopts an interdisciplinary approach to the relationship between these two fields of creative endeavor

Shades—Of Painting at the Limit John Sallis, 2017-02-11 Sallis's ideas are presented in a singular scholarly remarkable captivating conceptually rigorous dense and deep manner Highly recommended Choice This fascinating book by one of the more original voices writing philosophy in English poses questions about the nature of the visible and invisible sensible and intelligible Dennis Schmidt What is it that an artist paints in a painting Working from paintings themselves rather than from philosophical theories John Sallis shows how through shades and limits the painter renders visible the light that confers visibility on things In his extended examination of three phases in the development of modern painting Sallis focuses on the work of Claude Monet Wassily Kandinsky and Mimmo Paladino three painters who each in his own way carry painting to the limit
