The Paintings of J.M.W. Turner Martin Butlin,1984 J.M.W. Turner and the Subject of History Leo Costello,2017-07-05

J M W Turner and the Subject of History is an in depth consideration of the artist s complex response to the challenge of creating history paintings in the early nineteenth century Structured around the linked themes of making and unmaking of creation and destruction this book examines how Turner s history paintings reveal changing notions of individual and collective identity at a time when the British Empire was simultaneously developing and fragmenting Turner similarly emerges as a conflicted subject one whose artistic modernism emerged out of a desire to both continue and exceed his eighteenth century aesthetic background by responding to the altered political and historical circumstances of the nineteenth century John Ruskin, J.M.W. Turner and the Art of Water Carmen Casaliggi,2022-12-20 This book assesses Ruskin s and Turner s mutual interest in the theme of water with particular reference to *The Harbours of England* 1856 Ruskin s book on ships and marine art to which are appended Turner s 12 illustrations of the English ports By considering existing scholarly works on Ruskin and Turner the book begins by demonstrating that the two despite their widely acknowledged relations have rarely been examined in conjunction It raises the question as to how the subject of water inspired the intellectual aesthetic philosophical and scientific climate of the nineteenth century both in Britain and abroad and acknowledges the significance of the relationship between Ruskin and Turner in the context of aquatic studies Ruskin s childhood fascination with water is examined in detail while the scientific and spiritual importance of the subject in *Modern Painters* and *The Stones of Venice* is also emphasised and read in parallel with *The Harbours of England* a detailed account of which is given referring to both text and illustrations Turner s role in Ruskin s understanding of specific water pictures is also reconstructed The book demonstrates that water is important as a multifaceted compendium of contemporary themes for tradition progress nationalism and patriotism find their iconography in its depiction Considering the literary and painterly implications of wateriness the text concludes with a reflection upon the significance of the study of water for Ruskin and Turner and for their age **An Outline of 19th Century European Painting: Text** Lorenz Eitner,1987 The 418 plates illustrate the main

Landscape and Vision in Nineteenth-Century Britain and France Michael Charlesworth,2017-07-05 A study of the ways landscape was perceived in nineteenth century Britain and France this book draws on evidence from poetry landscape gardens spectacular public entertainments novels and scientific works as well as paintings in order to develop its basic premise that landscape and the processes of perceiving it cannot be separated Vision embraces panoramic seeing from high places but also the seeing of ghosts and spectres when madness and hallucination impinge upon landscape The rise of geology and the spread of empires upset the existing comfortable orders of comprehension of landscape Reverie and

imagination produced powerful interpretive actions while landscape in French culture proved central to the rejection of conservative classicism in favour of perceptual questioning of experience The experience of subjectivity proved central to the perception of landscape while the visual culture of landscape became of paramount importance to modernity during the period in question
