Wilkins, 2001-06-01 Who were the secular female patrons of art and architecture in Renaissance Italy beyond Isabella d Este This volume brings together fourteen essays which examine the important and often unrecognized roles aristocratic and bourgeois women played in the patronage of visual culture during the Italian Renaissance Themes include the significance of role models for female patrons the dynamics of conjugal patronage and the widespread patronage activities of widows Collectively the essays demonstrate how resourceful women expressed themselves through patronage despite the limitations of a highly structured patriarchal society Thus Isabella d Este was by no means unique as a secular female patron and the studies offered here should encourage scholars to move further beyond Isabella in their assessment of women s patronage of art and architecture in Renaissance Italy **Hidden Faces: Covered Portraits of the Renaissance** Alison Manges Nogueira, 2024-04-02 Many small Renaissance portraits were richly adorned with covers or backs bearing allegorical figures mythological scenes or emblems that celebrated the sitter and invited the viewer to decipher their meaning Hidden Faces includes seventy objects ranging in format from covered paintings to miniature boxes that illuminate the symbiotic relationship between the portrait and its pair Texts by thirteen distinguished scholars vividly illustrate that the other faces of these portraits represent some of the most innovative images of the Renaissance created by masters such as Hans Memling and Titian Uniting works that have in some cases been separated for centuries this fascinating volume shows how the multifaceted format unveiled the sitter s identity both by physically revealing the portrait and reading the significance behind its cover The Monthly Literary Advertiser , 1847 **Twelve Caesars** Mary Beard, 2021-09-28 From the bestselling author of SPQR A History of Ancient Rome the fascinating story of how images of Roman autocrats have influenced art culture and the representation of power for more than 2 000 years What does the face of power look like Who gets commemorated in art and why And how do we react to statues of politicians we deplore In this book against a background of today s sculpture wars Mary Beard tells the story of how for more than two millennia portraits of the rich powerful and famous in the western world have been shaped by the image of Roman emperors especially the Twelve Caesars from the ruthless Julius Caesar to the fly torturing Domitian Twelve Caesars asks why these murderous autocrats have loomed so large in art from antiquity and the Renaissance to today when hapless leaders are still caricatured as Neros fiddling while Rome burns Beginning with the importance of imperial portraits in Roman politics this richly illustrated book offers a tour through 2 000 years of art and cultural history presenting a fresh look at works by artists from Memling and Mantegna to the nineteenth century American

sculptor Edmonia Lewis as well as by generations of weavers cabinetmakers silversmiths printers and ceramicists Rather than a story of a simple repetition of stable blandly conservative images of imperial men and women Twelve Caesars is an unexpected tale of changing identities clueless or deliberate misidentifications fakes and often ambivalent representations of authority From Beard's reconstruction of Titian's extraordinary lost Room of the Emperors to her reinterpretation of Henry VIII's famous Caesarian tapestries Twelve Caesars includes fascinating detective work and offers a gripping story of some of the most challenging and disturbing portraits of power ever created Published in association with the Center for Advanced Study in the Visual Arts National Gallery of Art Washington DC
