1944-1949 Norman Naimark, 2018-02-07 The collaborative effort of scholars from Russia and the United States this book reevaluates the history of postwar Eastern Europe from 1944 to 1949 incorporating information gleaned from newly opened archives in Eastern Europe For nearly five decades the countries of Yugoslavia Poland Albania Bulgaria Romania Hungary Czechoslovakia and the Soviet zone of Germany were forced to live behind the iron curtain Though their experiences under communism differed in sometimes fundamental ways and lasted no longer than a single generation these nations were characterized by systematic assaults on individual rights and social institutions that profoundly shaped the character of Eastern Europe today The emergence of the former People s Democracies from behind the iron curtain has been a wrenching process but as this book demonstrates the beginning of the communist era was equally as traumatic as its end With the opening of the archives in Russia and Eastern Europe the contributors have been able to get a much firmer grasp on Soviet policies in the region and on East European responses and initiatives which in turn has yielded more satisfying answers to vexing questions about Soviet intentions in the region and the origins of the Cold War Exploring these events from a new better informed perspective the contributors have made a valuable contribution to the historiography of postwar Europe

Wakefulness and World Matthew Linck, 2019-08-01. The subject of this slim and lucid volume is the wondrous intelligibility of experience as it comes to light through philosophical attentiveness to the richly articulated whole of the world. Linck models wakefulness as he moves from the tentative hypotheses of Plato's Socrates to Aristotle's elucidation of the determinateness of natural and artificial beings to Kant's and Hegel's astonishing explorations of the ways the world's intelligibility arises from within the mind itself. A deeply intelligent and subtle book by a master reader and teacher, *Wakefulness and World* will engage and inform educated amateurs and accomplished scholars alike. Jacob Howland, author of *The Republic: The Odyssey of Philosophy* and *Glaucon's Fate*. *Wakefulness and World* is an introduction to philosophy in the way that having a discussion with the finest teachers of philosophy is rumored to have been. Wittgenstein puzzling out utterances, Aristotle on peripatetic garden walks, and Socrates whose every illustration proved both familiar and unsettling. Like Socrates, Linck speaks directly to beginners as well as practiced scholars about our endeavors to understand from the images that lure us into reflection to the confrontation between intelligible generalization and everyday experience. Linck's book brings us into conversation with Plato's Socrates, with Aristotle, Kant, Hegel, and with Newton. Through these encounters he guides the reader to a profound reckoning with the conditions that allow careful critical inquiry to flourish. Katie Terezakis, Professor of Philosophy, Rochester Institute of Technology. An invitation to philosophy in the strongest sense. Through a patient and elegant discussion of some key moments in classic texts from Plato, Aristotle, Kant, and Hegel, Linck invites his readers to wake up to the strangeness and

miraculousness which is the making intelligible of the world in thought Louis Colombo Associate Professor of Philosophy
