Mosquera Cuesta,Kim Ho Yeap,2024-10-30 Cosmology the science of all that exists in the universe is an interdisciplinary field that seeks to understand the fundamental nature of the universe that is how it evolved from its primordial stages including the Big Bang to its present state and its potential future This quest is driven by centuries of astronomical observations and advanced physical theories The growing number of ground based observatories space based satellites and cutting edge tools like the Hubble Space Telescope the James Webb Space Telescope and gravitational wave observatories allow us to look back to the very early stages of our expanding universe offering unprecedented insights This book addresses several important cosmological issues including humanity s enduring search for other advanced civilizations in the cosmos It highlights the importance of such cosmic exploration and provides a comprehensive understanding of the concept of spacetime within the framework of general relativity The book introduces a cosmological model that incorporates an evolving curvature term within the standard model of cosmology and presents arguments in favor of a rotating universe exploring the associated mechanisms of how light and matter could escape from a Kerr black hole In addition it delves into modern efforts by cosmologists to uncover the actual shape of the universe its topology using the latest data Finally the book examines the critical role of quantum field theory in helping theorists build an increasingly robust picture of the cosmos The editors hope that this scientifically rich and enlightening volume will engage readers and inspire further exploration into the mysteries of the universe **The Past, Present, and Future of Integrated History and Philosophy of Science** Emily Herring,Kevin Matthew Jones,Konstantin S. Kiprijanov,Laura M Sellers,2019-05-14 Integrated History and Philosophy of Science iHPS is commonly understood as the study of science from a combined historical and philosophical perspective Yet since its gradual formation as a research field the question of how to suitably integrate both perspectives remains open This volume presents cutting edge research from junior iHPS scholars and in doing so provides a snapshot of current developments within the field explores the connection between iHPS and other academic disciplines and demonstrates some of the topics that are attracting the attention of scholars who will help define the future of iHPS **The Westminster Review** ,1909 **Past, Present, Future** Johannes de Moor,H.R. van Rooy,2021-11-22 In the politico religious history of the Deuteronomists past present and future mingle in an often inextricable way Long obsolete

traditions which had been unacceptable to the Davidic dynasty were rediscovered and adapted to the aims of the Deuteronomists. Personages of the past were condemned and blackened in the light of the new ideology whereas others were glorified and embellished as heroes of faith because their ideas suited the historians. This inevitably raises the question whether the Bible can be trusted as a source book for writing a history of Israel. Apparently not say scholars like T L Thompson, P R Davies and N P Lemche. In this volume a number of authors take up this challenge stating that the radical rejection of the biblical testimony in favour of a history based mainly on archaeology is ill advised. Several contributions to this volume draw instructive parallels between the process of re writing the history of South Africa and the work of the Deuteronomists.

The Nile and Its Masters: Past, Present, Future Jean Kerisel, 2021-12-17. The Pharaohs were masters of the Nile; they had a detailed understanding of the ways of the river. Modern Egyptians see themselves as heirs to this tradition and as owners of the Nile waters. In the 1960s Egypt decided to protect its increasingly populated Nile valley from the ravages of annual flooding by building a dam. A relatively small dam in the valley of Nubia in the region of Tushka would have enabled the excess floodwaters to safely be diverted towards the fossil valley of the pre Nile. However it was decided to select a site near Aswan making it necessary to inundate more than 250km of river valley. Over the years this strategy has been revealed to have been faulty and numerous irrigation schemes in upriver countries have progressively reduced the amount of water descending into Egypt. The dire warning of the 14th century oracle appears to be prophetic: the water of the river in my country will be stopped from reaching yours which I shall cause to die of thirst.

Past, Present, Future Cree Storm, 2019-01-16. When you allow your past to hurt your present you are left with a very uncertain future. This is the lesson that Edmond Stix and Kornell must learn quickly or not only will they lose their mating they could lose their lives.

Meditation on Past Present Future Pitani, 2019-06-05. Our minds live in a constant journey across time dimensions in the various pasts, presents and futures. Understanding these dimensions can bring us many benefits such as balancing emotions, succeeding in objectives and making the most of our experience in life. Within a phenomenological perspective Pitani poeticises on perceptual time drawing ideas from Western and Eastern philosophy and mythology. Here time interplays with objects, places, emotions and finally with introspection and meditation.
