The Path Of Love:

The Path of Love Becca Stevens, 2010-10-01 It's easy to get lost in the busyness of every day. But taking a walk and discovering God's presence along the way will bring you back to where you need to be. *The Walking Bible Study*, a series of short readings and meditations, is your field guide to learning more about Scripture as you travel through nature and life. Wherever you walk, take it along with you and follow the paths of God. Walking changes us; it can transport our spirits from being weighed down by life into the joy of God's presence. Becca Stevens. Each study consists of four sessions. Sessions include prayer, Scripture, Becca's thoughts and stories, questions to think about or discuss, and activities. *The Path of Love*. The world was created when God took the two chaotic elements of the universe that do not allow life: the deep and the darkness, and encompassed them into a loving creation that is called Good. The story of Love is rooted in creation and is so powerful that in its culminating act it rolls the stone away at the break of Easter morning. *The Path of Love*, **The Path of Love**

Ronald D. Cowen, 2015-02-05 The Buddha was a scientist. Instead of using a microscope or a particle accelerator, the Buddha used ESP. He had several psychic powers that allowed him to perceive in detail the psychology of karma, the evolution of consciousness, and subatomic particles. He discovered love and self-love to be organizing principles that evolved early in the history of intelligent consciousness, especially with regard to feelings and emotions. Every person has the deepest need to love and be loved. He solved the mind-body problem by perceiving the physical basis of intelligent consciousness. These psychic powers are acknowledged in Hindu and Buddhist scriptures, but extremely few people have them. This book is essentially a meditation report written by someone who has them. While this sounds like an invitation to return this book to the shelf in a bookstore, it also documents in depth another report by a physicist, Stephen Phillips, who relates in comprehensive detail the relationship between modern superstring theory and extrasensory observation of the elements of the periodic table by Annie Besant and Charles Leadbeater of the Theosophical Society. This strong connection between modern physics and psychic powers of the Buddha is a real challenge to both the modern scientist and the modern Buddhist. **The Path of Love**
