Russett, 2005-01-01 Why does the academic study of international relations have limited impact on the policy community In *New Directions for International Relations* Mintz and Russett identify differences in methods of analysis as one cause of problematic unreliable results They discuss the problem and set the stage for nine chapters by diverse scholars to demonstrate innovative new

developments in IR theory and creative new methods that can lay the basis for greater consensus *International Peacekeeping: The Yearbook of International Peace Operations* Harvey Langholtz, Boris Kondoch, Alan Wells, 2004-11-01

International Peacekeeping is devoted to reporting upon and analyzing international peacekeeping with an emphasis upon legal and policy issues but is not limited to these issues It is recognized that in today's world there is a wealth of information available from the internet and through other sources It is therefore the goal of this Yearbook to make this information available in one publication which both organizes and records events over the course of a year through analytical articles a chronicle primary documents and a bibliography Topics include inter alia peacekeeping peace war conflict resolution diplomacy international law international security humanitarian relief humanitarian law and terrorism The Yearbook is of scholarly quality but is not narrowly theoretical It provides the interested public diplomats civil servants politicians the military academics journalists NGO employees and serious citizens with a document of record comment and a starting point for further research on peacekeeping and related topics This is achieved not only by the provision of basic documents on CD ROM such as Security Council Resolutions and Reports of the UN Secretary General but also by expert commentaries on world events Peacekeeping is treated in a pragmatic light seen as a form of international military cooperation for the preservation or restoration of international peace and security Attention is focused not only on UN peacekeeping operations but other missions as well This Yearbook is the continuation of the journal *International Peacekeeping* **A Troubled Sleep** James Waller, 2021 Drawing on ethnographic fieldwork comparative research and over 110 hours of face to face interviews with a diverse range of political academic civil society and community actors across Northern Ireland Waller revisits one of the world's most deeply divided societies to analyze Northern Ireland's current vulnerabilities and points of resilience as an allegedly post conflict society Narrating War and Peace in Africa Solimar Otero, 2010 Narrating War and Peace in Africa interrogates conventional representations of Africa and African culture mainly in the twentieth and early twenty first centuries with an emphasis on portrayals of conflict and peace While Africa has experienced political and social turbulence throughout its history more recent conflicts seem to reinforce the myth of barbarism across the continent in Nigeria Rwanda Somalia Sierra Leone Uganda Kenya Mozambique Chad South Africa Zimbabwe and Sudan The essays in this volume address reductive and stereotypical assumptions of postcolonial violence as tribal in nature and offer instead various perspectives across disciplinary boundaries that foster a less fetishized more contextualized understanding of African war peace and memory Through their geographical historical and cultural scope and diversity the chapters in Narrating War and Peace in Africa aim to challenge negative stereotypes that abound in relation to Africa in general and to its wars and conflicts in particular encouraging a shift to more balanced and nuanced representations of the continent and its political and social climates Contributors Ann Albuyeh Zermarie Deacon Alicia C Decker Am na Mo nfar Kayode Omoniyi Ogunfolabi Sabrina Parent Susan Rasmussen Michael Sharp Cheryl Sterling Hetty ter Haar Melissa Tully Pamela Wadende Metasebia

War, Peace & Prosperity in the Name of God Murat Iyigun, 2015-05-07 Differences among religious communities have motivated and continue to motivate many of the deadliest conflicts in human history But how did political power and organized religion become so thoroughly intertwined And how have religion and religiously motivated conflicts affected the evolution of societies throughout history from demographic and sociopolitical change to economic growth War Peace and Prosperity in the Name of God turns the focus on the big three monotheisms Judaism Islam and Christianity to consider these questions Chronicling the relatively rapid spread of the Abrahamic religions among the Old World Murat Iyigun shows that societies that adhered to a monotheistic belief in that era lasted longer suggesting that monotheism brought some sociopolitical advantages While the inherent belief in one true god meant that these religious communities had sooner or later to contend with one another Iyigun shows that differences among

them were typically strong enough to trump disagreements within The book concludes by documenting the long term repercussions of these dynamics for the organization of societies and their politics in Europe and the Middle East

Faith and Force David L. Clough, Brian Stiltner, 2007-06-04 This book began in an argument between friends surprised to find themselves on opposite sides of the debate about whether the United States and the United Kingdom should invade Iraq in 2003 Situated on opposite sides of the Atlantic in different churches and on different sides of the just war pacifist fence we exchanged long emails that rehearsed on a small scale the great national and international debates that were taking place around us We discovered the common ground we shared as well as some predictable and some surprising points of difference When the initial hostilities ended our conversation continued and we felt the urgency of contributing to a wider Christian debate about whether and when war could be justified From the Preface So began a dynamic collaboration that developed into a civil but provocative debate over matters of war and peace that is Faith and Force From the ancient battles between Greek city states to the Crusades to the World Wars of the twentieth century to the present day wars in Afghanistan and Iraq and the Middle East aggressors and defenders alike have claimed the mantle of righteousness and termed their actions just But can the carnage of war ever be morally grounded And if so how These are the questions that David L Clough a Methodist proponent of pacifism and Brian Stiltner a Catholic theologian and just war adherent have vowed to answer together With one voice Clough and Stiltner outline and clarify issues of humanitarian intervention weapons proliferation and preventative war against rogue states Their writing is grounded in Christian tradition and provides a fresh and illuminating account of the complexities and nuances of the pacifist and just war positions In each chapter Clough and Stiltner engage in debate on the issues demonstrating a respectful exchange of ideas absent in much contemporary political discourse whether on television or in the classroom The result is a well reasoned challenging repartee that searches for common ground within the Christian tradition and on behalf of the faithful promotion of justice yet one that also recognizes genuine differences that cannot be bridged easily Intended for a broad audience Faith and Force is the perfect foil to the shrill screeching that surrounds partisan perspectives on military power and its use To help with using the book in a classroom context the authors have provided Questions for Reflection and Discussion for each chapter You can download these questions in PDF format at press.georgetown.edu
