Dictionary of Saints Donald Attwater, 1975 **A Dictionary of Saints** Donald Attwater, 1979 **Medieval Latin** Frank Anthony Carl Mantello, A. G. Rigg, 1996 Organized with the assistance of an international advisory committee of medievalists from several disciplines *Medieval Latin: An Introduction and Bibliographical Guide* is a new standard guide to the Latin language and literature of the period from c. A.D. 200 to 1500. It promises to be indispensable as a handbook in university courses in Medieval Latin and as a point of departure for the study of Latin texts and documents in any of the fields of medieval studies. Comprehensive in scope, the guide provides introductions to and bibliographic orientations in all the main areas of Medieval Latin language, literature, and scholarship. Part One consists of an introduction and a sizable listing of general print and electronic reference and research tools. Part Two focuses on issues of language with introductions to such topics as Biblical and Christian Latin and Medieval Latin pronunciation, orthography, morphology, and syntax; word formation and lexicography; metrics; prose styles; and so on. There are chapters on the Latin used in administration, law, music, commerce, the liturgy, theology, and philosophy; science and technology; and daily life. Part Three offers a systematic overview of Medieval Latin literature with introductions to a wide range of genres and to translations from and into Latin. Each chapter concludes with a bibliography of fundamental works, texts, lexicographical studies, and research aids. This guide satisfies a long-standing need for a reference tool in English that focuses on medieval Latin in all its specialized aspects. It will be welcomed by students, teachers, professional latinists, medievalists, humanists, and general readers interested in the role of Latin as the learned lingua franca of western Europe. It may also prove valuable to reference librarians assembling collections concerned with Latin authors and texts of the postclassical period.

ABOUT THE EDITORS F. A. C. Mantello is professor of Medieval Latin at The Catholic University of America. A. G. Rigg is professor of English and medieval studies and chairman of the Medieval Latin Committee at the University of Toronto's Centre for Medieval Studies.

PRASIE FOR THE BOOK This extraordinary volume, a joint effort of dozens of scholars in eight countries, will be in constant use for research, for advising students and designing courses, and for answering the queries of nonmedievalist colleagues. *Medieval Latin* provides a foundation for advances in research and teaching on a wide front. Though Mantello and Rigg's *Medieval Latin* is a superb reference volume, I recommend

that it also be read from beginning to end in small increments of course The rewards will be sheaves of notes and an immensely enriched appreciation of Medieval Latin and its literature Janet M Martin Princeton University Speculum A remarkable achievement and no one interested in medieval Latin can afford to be without it Journal of Ecclesiastical History Everywhere there is clarity conclusion judicious illustration and careful selection of what is central This guide is a major achievement and will serve Medieval Latin studies extremely well for the foreseeable future The Classical Review

Sex and God (RLE Women and Religion) Linda Hurcombe,2014-10-03

These stories essays and poems by women examine the connections feminists are making between sex and God The women write from very different perspectives cutting across the spectrum of feminist writing about sexuality and spirituality within

the Judeo Christian tradition Some writers though critical are determined to retain their radicality in the very teeth of patriarchy by remaining within the traditional forms of faith Others impatient suggests the editor with the great insemulator in the sky have moved on to what might be described as a post patriarchal spirituality Contributions indicate the exciting spiritual journeys women are currently making and focus on the following areas monogamy and promiscuity sex politics and spirituality childbirth sex and healing in dying feminist sexual psychology lesbian identity and feminist embodied theology The recent and continuing debate about women priests in the Anglican church uneasily echoes the rumblings of change at a fundamental level in the relationship between women and religion This book with its reflections on both the politics of Christian feminism and the more widespread expression of women s spirituality makes an important contribution to that change First published in 1987 Exploring the Religious Life Rodney Stark,2004-04 Though religion is for most people one of the most important aspects of their lives social scientists and other observers of human society too often misunderstand and misrepresent the nature and role of religion in history and in daily life From the supposed decline of religious attitudes in Western Europe and the venal motivations attributed to the Christian Crusaders to the very definition of religion personal biases and an inadequate grasp of relevant data have led to the formulation and propagation of unsupportable views on the sacred In Exploring the Religious Life Rodney Stark boldly overturns much received wisdom within the social sciences about religion drawing on a wide range of sources to reassess a diverse selection of topics in the study of religion In his first essay Stark addresses the carelessness with which scholars use the term religion and the conviction that the belief in divinity evolved from the practice of magic in primitive cultures In subsequent chapters he challenges the widespread attitude among social scientists that religion is nothing more than a mask for material realities and examines the effectiveness of religious doctrines in attracting converts and influencing individuals uncovers the surprising prevalence of upper class asceticism in medieval Christianity and explores the relationship between gender piety and criminal activity Divine revelation is a central aspect of many religions and Stark next applies empirical research to the phenomenon to assess its meaning in Judaism Christianity Islam and Mormonism He then turns to the confusion between faith and practice in debates over the secularization of the developed world before investigating the validity of the classic proposition within the social sciences that religion functions to sustain the moral order He does so examining the correlation between criminal behavior and depth of religious belief Stark concludes with an essay on the ingenious methods he uses to unearth data about the popularity of new religions in California and northern Europe the decline of Christian Science in America the spread of Christianity in the Roman world and the execution patterns during the antiwitchcraft frenzy of Enlightenment Europe Together the essays that constitute Exploring the Religious Life offer an engaging introduction to Rodney Stark s provocative insights and a fearless challenge to academic perceptions about religion s place in history society and private life Lope de Vega's Comedias de Tema Religioso Elaine M. Canning,2004 Lope s use of self reverential devices in *Lo fingido verdadero* and *La buena guarda*

serves to highlight the illusory nature of life and the relationship between lo verdadero and lo divino which lie at the heart of the theocentric world view of seventeenth century Spain The conflicting imperatives of human and divine love and the issue of identity are features of all of the plays Furthermore it is illustrated that the interplay between illusion and reality and the relationship between playwright and audience are crucial to Lope s dramatic output Jacket **Canadian Ethnology**

or not the legends surrounding trees and plants contain powerful images which appeal to us because of their humanity and sheer simplicity God employed a burning bush as a medium of revelation when He spoke to Moses and every tree or plant on this planet is afire with His presence for example in the plant realm the cornflower has ultraviolet pigments in its blue petals which are invisible to the human eye but irresistible to a pollinating bee In the realm of trees the seed of the maple is equipped with a neat pair of wings which enables it to sail away from the parent on a current of air Jesus used trees and plants as metaphors and early monks and missionaries took up the torch relabeling a number of trees and plants with holy names as an educational tool In this book I have sought to rescue some of these legends from obscurity concentrating on those within the Judeo Christian tradition in a few instances I have taken the liberty of linking biblical references to botanical names It is my hope that this collection with its beautiful photographs and simple text will reach a wide readership to inform inspire and entertain
