Music in Willa Cather's Fiction Richard Giannone, 2001-01-01 Music is everywhere in Willa Cather's fiction as a subject in the background slyly commenting on the action connecting characters to a distant world or revealing their interior worlds Not merely incidental or ornamental though music is intrinsic to Cather's work a distinctive quality of her creation and expression and it is in this light that Richard Giannone considers Cather's art *Music in Willa Cather's Fiction* is the definitive study of its subject The first work to examine the complex thematic and structural forms that music acquires in Cather's narratives Giannone's book uses this musical approach as a way of seeing into the author's artistic sensibility the evolution of her art and her total achievement Progressing chronologically Giannone shows how Cather's view and use of music changed over time From what her early journalistic pieces on music and musicians reveal about her attitude and anticipate in her later work Giannone moves to Cather's early stories to identify the trend of some of her artistic choices the direction of her stylistic development and the complication of her moral interest as these are manifested in musical references In her novels and later stories he emphasizes the contribution of music to the individual work as well as the allusions and connections that sound throughout her oeuvre

German Lieder in the Nineteenth Century Rufus E. Hallmark, 1996 The book begins with a chapter by Harry Seelig on the literary context of the nineteenth century lied arguing that Goethe practically single handedly created German Romantic poetry and influenced poets and composers alike Subsequent chapters focus on the contributions of individual lied composers Susan Youens presents an overview of Schubert's songs and discusses in detail his text setting and style in selected songs Rufus Hallmark does the same for Schumann extending his discussion to the composer's little known late songs and songs for more than one voice Virginia Hancock makes a case for treating Brahms's folk tune and folk lyric settings on an equal footing with his Kunstlieder Lawrence Kramer examines Wolf's distinctive approach to the lied in light of the contemporary emergence of psychiatry Barbara A **Webern Studies** Kathryn Bailey, 1996-08-28 This collection of essays looks at the music of Webern from several different perspectives Webern scholarship based on the sketches and other primary material now owned by the Paul Sacher Stiftung in Basel and the Library of Congress in Washington has emphasised Webern's lyricism and this is a theme running through Webern Studies Most of the essays are the result of work with primary material The volume includes entries from Webern's diaries and all of the row tables for his twelve note music A comprehensive Webern bibliography covers thoroughly the period since Zoltan Roman's bibliography of 1978

manifestations of Schubert's violent nature the characteristics of his thematic material and the signs of his classicizing manner In the process of the discussion attention is given to matters of form texture harmony and gesture in a range of works with regard to the various fingerprints identified in each chapter The repertoire discussed includes the late string quartets the String Quintet the E flat Piano Trio and the last three piano sonatas Developing ideas which she first proposed in a series of journal articles and contributions to symposia on Schubert Professor Wollenberg takes into account recent literature by other scholars and draws together her own researches to present her view of Schubert's compositional personality Schubert emerges as someone exerting intellectual control over his musical material and imbuing it with poetic resonance
