The Complete Idiot's Guide to Wicca and Witchcraft Denise Zimmermann, Katherine Gleason, Miria Liguana, 2006 Offers information on the theory ritual tradition and history of Wicca including advice on how to practice the magical art **The Pentagram as a Medical Symbol** Jan Schouten, 2024-06-03 The five pointed star drawn in an unbroken line is the subject of the present study During the 16th century until into the 17th century the pentagram was a well known medical emblem nowadays it is almost completely forgotten **The Tree of Life** Israel Regardie, Chic Cicero, Sandra Tabatha Cicero, 2000 Israel Regardie wrote *The Tree of Life* a book many consider his magnum opus in 1932 It has continued to sell for decades And no wonder Up until the time this book was published very little information about true high magic was available to the public In this book Regardie reveals the secrets of real magic He begins with an explanation of what magic is and just as importantly what magic is not He explains that it is a spiritual study and practice which along with forms of yoga forms the two branches of the tree that is mysticism Magic is not being a medium or a psychic Then he explains the tools of the magician what they mean and how to use them He explains the techniques of evocation and invocation skrying and astral travel He shows how the Qabalah unites everything He even gives a description of the secrets of sexual magick All of this is in a clear lucid writing style This book is simply a must for anyone who is or aspires to be a real magician Although Chic and Sandra Tabatha Cicero were friends of Regardie and are Senior Adepts of the Hermetic Order of the Golden Dawn what changes could they have made to this classic book Well they did change the spelling from British style to American And they did change his transliterations of Hebrew into the more popular style he used in his later books But nothing vital was changed or removed Everything else they added was complementary to the text that was there And what incredible additions they are Extensive annotations throughout every chapter over 100 illustrations more descriptive contents pages a glossary a bibliography and an index They ve even added a biographical note on Regardie and the importance of this book to him and to the occult world This book contains some of the finest occult writing that has ever been produced And with the new material by the Ciceros it becomes a must have for any magician *The Complete Idiot's Guide to Wicca and Witchcraft* Denise Zimmerman, Katherine Gleason, Katherine A. Gleason, 2003 A revised edition updated with magical concentration exercises magical ethics expanded coverage of Wicca and its deities and new spells and recipes From publisher description
