The Peoples Republic Of China After Thirty Years An Overview:

The People's Republic of China After Thirty Years Joyce K. Kallgren,1979 **A History of the Chinese Communist Party** Stephen Uhalley,1988 **What Democracy Means in China After 30 Years of Reform** United States. Congressional-Executive Commission on China,2009 **China Bound** Linda A. Reed,Karen Turner-Gottschang,1987-01-01 This comprehensive highly readable handbook simplifies the sometimes complex aspects of day to day life in China Based on the experience of Americans who have recently studied done research and taught there China Bound gives the invaluable inside information that only those who have been there can provide Written primarily for students scholars and teachers the book describes Chinese academic life and work and how Americans can fit into it And because it covers such a broad spectrum of topics from customs regulations taxation and medical care to hotel life and how to get laundry done China Bound is also must reading for anyone who is already planning or just trying to decide whether to plan an extended visit to China Academic Library Book Review states China Bound is one of those books that is absolutely essential *The Awakening Giant* Harish Kapur,2024-10-28 *Policies of Chaos* Lynn T. White III,2014-07-14 The tumult of the Cultural Revolution after 1966 is often blamed on a few leaders in Beijing or on long term egalitarian ideals or on communist or Chinese political cultures Lynn White shows however that the chaos resulted mainly from reactions by masses of individuals and small groups to three specific policies of administrative manipulation labeling groups designating bosses and legitimating violence in political campaigns These habits of local organization were common after 1949 and gave the state success in short term revolutionary aims despite scarce resources and staff but they also drove millions to attack each other later First measures accumulated before 1966 to give people bad or good names such as rightist or worker these set a family s access to employment education residence and rations so they gave interests to potential conflict groups Second policies for bossism went far beyond Confucian patronage patterns making work units tightly dependent on Party monitors so rational individuals either pandered to local bosses or when they could deposed them Third the institutionalized violence of political campaigns both mobilized activists and scared others into compliance These organizational measures were often effective in the short run before 1966 but accumulated social costs that China paid later The book ends with comparisons to past cases of mass urban ostracism in other countries and it suggests how such tragedies may be forecast or prevented in the future Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Mao's Invisible Hand** Sebastian Heilmann,Elizabeth J. Perry,2020-10-26 Observers have been predicting the demise of China s political system since Mao Zedong s death over thirty years ago The

Chinese Communist state however seems to have become increasingly adept at responding to challenges ranging from leadership succession and popular unrest to administrative reorganization legal institutionalization and global economic integration What political techniques and procedures have Chinese policymakers employed to manage the unsettling impact of the fastest sustained economic expansion in world history As the authors of these essays demonstrate China s political system allows for more diverse and flexible input than would be predicted from its formal structures Many contemporary methods of governance have their roots in techniques of policy generation and implementation dating to the revolution and early PRC techniques that emphasize continual experimentation China s long revolution had given rise to this guerrilla style decisionmaking as a way of dealing creatively with pervasive uncertainty Thus even in a post revolutionary PRC the invisible hand of Chairman Mao tamed tweaked and transformed plays an important role in China s adaptive governance *The People's Republic of China After 50 Years* Richard Louis Edmonds,2000-03-09 Leading scholars in various fields give their views of development in the People s Republic of China since 1949 with emphasis on recent decades After a broad overview of progress and setbacks specific topics covered include national political reform the Chinese Communist Party in power the economy rural reform urban systems the environment foreign relations the People s Liberation Army the legal system social welfare reform intellectuals art and literature Overall the volume presents a picture of the PRC that is not as healthy as optimists maintain nor in such a disastrous state as many pessimists have put forward Increasingly external developments will be shaping the pace of change in the People s Republic The ability of the government to continue to respond in a measured fashion to change will be necessary if the PRC is to thrive in the twenty first century *The People's Republic of China After Thirty Years* Jeffrey G. Barlow,Tong-eng Wang,1979

PROCEEDINGS OF THE THIRD INTERNATIONAL CONFERENCE ON GLOBALIZATION: CHALLENGES FOR TRANSLATORS AND INTERPRETERS Zhiqing Zhang,Youbin Zhao,Xinjie Wang,2020-05-26 With the implementation of the Belt and Road Initiative and the development of Guangdong Hong Kong Macau Greater Bay Area the demand for translators and interpreters continues to grow in China The breakthrough in artificial intelligence which has contributed to an enormous improvement in the quality of machine translation means challenges and opportunities for translators and interpreters as well as studies of translation and interpreting Studies of translation and interpreting have been further expanded and diversified in the era of globalized communications The interrelation between translation and globalization is essential reading for not only scholars and educators but also anyone with an interest in translation and interpreting studies or a concern for the future of our world s languages and cultures By focusing on the connection between the two various researches have been conducted in all forms of communication between languages including translation interpreting cross cultural communication language teaching and the various specializations involved in such activities This has resulted in The Third International Conference on Globalization Challenges for Translators and Interpreters co organized by the School of Translation Studies Jinan University

on its Zhuhai campus and South China Business College Guangdong University of Foreign Studies November 16 17 2019 The response to the conference was once more overwhelming which was partly attributed to the previous two conferences held successfully under the same title Apart from five keynote speakers over one hundred and fifty participants came from universities institutions or organizations from mainland China Spain New Zealand as well as Hong Kong and Macao to attend the event contributing over 130 papers in total Among the keynote speakers are internationally renowned scholars in translation studies such as Dr Roberto Valde n professor of English Linguistics at the University of Oviedo Spain and the Chief Editor of Perspective Studies in Translatology Dr Sun Yifeng chair professor of Translation Studies and head of the English Department at the University of Macau Dr Tan Zaixi distinguished professor of Shenzhen University and Chair Professor of Beijing Foreign Studies University and Professor Emeritus of Hong Kong Baptist University After careful evaluation and compilation 90 papers have been selected for this conference proceedings which was summarized into the following four topics Translation and Interpreting Theory and Practice Translation and Cross cultural Studies Evaluation of Translation and Interpretation and Studies on the Teaching of Translation By no means is it difficult to find some interesting and thought provoking papers under each topic For example concerning Translation and Interpreting Theory and Practice To Translate or not to Translate That is the Question On Metaphor Translation in Chinese Political works by Dong Yu explains that in judging whether or not a Chinese metaphor can be translated into English an indispensable step is to decide whether or not the two cultural connotations can be connected But this can easily be influenced by subjective factors Yu has suggested some ways in which subjective factors could be controlled to some extent so that the translator could be more confident in his or her decision He has also suggested three steps The first step is to assume that the cultural connotation of the Chinese metaphor can be connected with that of its English version For example the metaphor in could be translated as rain or shine The second step is to find out whether or not this translated version is acceptable both linguistically and culturally in English The third step is to consider the systematicity of the metaphor in regard with the context in both the source and target texts This involves a process of recontextualization When it comes to Translation and Cross cultural Studies On Translation of the English Guide interpreter from the Perspective of Intercultural Communication by Fengxia Liua and Xiaoning Bi points out that inbound tourism serves as a window through which foreign tourists get to know China so the interaction between the guide interpreters and foreign tourists are the typical activity of cultural communication Foreign language speaking guides are usually regarded as people to people ambassadors or cultural ambassadors who have played an essential role in the international tourist industry Therefore they argue that it is extremely important for tourist guides to cultivate their cross cultural communication awareness enhance their overall communicative competence observe and distinguish east and west differences with multi dimensional perspective transcend cultural barriers and learn to use translation skills Studies on the Teaching of Translation is another interesting topic that has attracted enormous attention

such as *Business Translation Teaching from the Perspective of Metaphors* by Dandan Li which explores application of conceptual metaphor theory in the translation process of business lexicons business discourse and business English culture so as to provide a new perspective in business English pedagogy Another study entitled *Cognitive Studies in Translation* by Xin Huang analyzes the cognitive studies of translation interpreting processes over the past three decades with focus on the issues examined the findings reached as well as the recent development She explains that cognitive studies of translation process examine the translation competence on line translation behaviors such as how the eye gazes and how the words are typed and the brain activities when doing translation Special interests are paid to the working memory problem solving the executive function and some linguistic relative factors such as text difficulty Over the past thirty years the interest in the field has been gaining considerable momentum and increasing issues have been involved Finally she concludes that with the advancement of technologies and interdisciplinary approaches the black box the previously unforeseeable cognitive activities of how human process translation can be unfolded Considering the importance of integrating theory with practice the proceedings are therefore compiled in such a way as to be balanced and inclusive in the hope of summarizing current accomplishments as well as providing certain insights for teaching and further research in the field of translation and interpretation studies

China After Covid-19 Alessia Amighini, 2021-07-20 The coronavirus pandemic that has rocked China since December 2019 has posed a gruelling test for the resilience of the country's national economy Now as China emerges from its Covid induced recession it feels like the worst is behind it How did China manage to come out almost unscathed from the worst crisis in over a century This Report examines how China designed and implemented its post Covid recovery strategy focussing on both the internal and external challenges the country had to face over the short and medium run The book offers a comprehensive argument suggesting that despite China having lost economic and political capital during the crisis Beijing seems to have been strengthened by the pandemic test thus becoming an even more challenging partner competitor and rival for Western countries

Language Policy in the People's

Republic of China Minglang Zhou, Hongkai Sun, 2006-04-11 Language matters in China It is about power identity opportunities and above all passion and nationalism During the past five decades China's language engineering projects transformed its linguistic landscape affecting over one billion people's lives including both the majority and minority populations The Han majority have been juggling between their home vernaculars and the official speech Putonghua a speech of no native speakers and reading their way through a labyrinth of the traditional simplified and Pinyin Roman scripts Moreover the various minority groups have been struggling between their native languages and Chinese maintaining the former for their heritages and identities and learning the latter for quality education and socioeconomic advancement The contributors of this volume provide the first comprehensive scrutiny of this sweeping linguistic revolution from three unique perspectives First outside scholars critically question the parities between constitutional rights and actual practices and between policies and outcomes Second inside policy practitioners review their own project involvements and inside politics pondering over missteps undergoing soul searching and theorizing their personal experiences Third scholars of minority origin give inside views of policy implementations and challenges in their home communities The volume sheds light on the complexity of language policy making and implementing as well as on the politics and ideology of language in contemporary China

The Australian Journal of Chinese Affairs, 1990 *Rebuilding Sustainable Communities after Disasters in China, Japan and Beyond* Adenrele

Awotona, 2014-06-02 This volume examines lessons learned in reducing the impact of disasters on communities in China Japan and other countries world wide Asia is the most disaster prone continent The 2012 data on natural disasters in 28 Asian countries released by the United Nations Office for Disaster Risk Reduction and the Belgian based Centre for Research on the Epidemiology of Disasters on December 11th 2012 showed that from 1950 to 2011 nine out of ten people affected by disasters globally were in Asia that of the top five disasters that created the most damage in 2012 three were in China that China led the list of most disasters in 2012 and that China was the only multi hazard prone country Similarly the March 2011 Tohoku earthquake was the greatest known earthquake ever to have hit Japan and one of the five strongest ever recorded

earthquakes in the world since 1900 Subsequently the Center for Rebuilding Sustainable Communities after Disasters at the University of Massachusetts Boston organized a conference in November 2012 to survey the best practices in post disaster rebuilding efforts in China and Japan This edited book consists of selected papers from the proceedings of that event and previously invited contributions from leading scholars in post disaster rebuilding in China Japan and Namibia *Central Control and Local Discretion in China* Chae-ho Chŏng, 2000 This book analyses the decollectivization reform in China during the early 1980s in order to gauge the impact of post Mao decentralization on central control and provincial discretion The volume challenges the notion that the decision to decentralize administrative authority ipso facto produces local discretion properly keyed to local conditions In fact outcomes often differ from the intended goals While generally local interests and central local clientilistic networks determine the policy responses of the provinces bureaucratic careerism also plays a crucial role In the case of post Mao decollectivization national level analyses suggest that a majority of provinces adopted household farming neither too quickly nor too slowly since both pioneering and resisting entailed potentially enormous political risks Once Beijing's preference appeared firmly fixed however they all quickly bandwagoned by popularizing the policy as swiftly as possible Three detailed case studies of Anhui as a pioneer Shandong as a bandwagoner and Heilongjiang as a resister further highlight the evolutionary process in which provincial variations came to be replaced by uniform compliance imposed by Beijing Theoretically this study contends that the overall scope of local discretion is circumscribed by the dominant norms and incentive relations embedded in the implementation dynamics Methodologically the book employs a combination of aggregate analyses and comparative case studies Empirically on the basis of newly available materials including classified documents and interviews it challenges the peasant power school which has somehow allowed local governments to evaporate in its descriptions of post Mao decollectivization
