Goossen,2024-12-09 **US-China Relations** ,1981 **Sino-American Economic Relations, 1944-1949** C. X. George Wei,1997-08-07 The economic relationship between the U S and China during the 1940s has long been neglected with few scholarly works focusing on the period This era was overshadowed by the political and diplomatic changes during and after the failure of the Nationalists in 1949 Without a close and insightful look into the reconstruction of China with American involvement during the late 1940s one cannot identify the problems which led to the Nationalists failure nor can one answer the questions dealing with the impact of American economic policy toward China during that time Cumulative List of

Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954 United States. Internal Revenue Service,2002 *The Expanding Roles of Chinese Americans in U.S.-China Relations* Peter Koehn,Xiao-Huang Yin,Xiao-huang Yin,2015-02-12 This book addresses the historical and contemporary involvement of Chinese Americans from diverse walks of life in U S China relations The contributors present new evidence and fresh perspectives on familiar and unfamiliar national and transnational networks including families businesspersons community newspapers students lobbyists philanthropists and scientists and consider the likely future impact of such contacts on the most important bilateral relationship at the start of the new millennium The volume makes a multidisciplinary contribution to understanding the extensive and vital roles and promise of Chinese Americans at this critical juncture in U S China relations and to revealing the importance of migrants as actors in contemporary global politics The assessments shared by the contributors suggest that the nature and scope of the Chinese American involvement particularly in global civil society networks increasingly will determine the outcome of state to state relations between the United States and the PRC **U.S.- China Educational Exchange** Hongshan Li,2007-12-01 U S China relations became increasingly important and complex in the twentieth century While economic political and military interactions all grew over time the most dramatic expansion took place in educational exchange turning it into the strongest tie between the two nations By the end of the 1940s tens of thousands of Chinese and American students and scholars had crisscrossed the Pacific leaving indelible marks on both societies Although all exchange programs were terminated during the cold war the two nations reemerged as top partners within a decade after the reestablishment of diplomatic relations Approaching U S China relations from a unique and usually overlooked perspective Hongshan Li reveals that both the drastic expansion and complete termination of educational ties between the two nations in the first half of the twentieth century were largely the results of direct and deep intervention from the American and Chinese governments Benefiting from government support and collaboration educational exchange succeeded in diffusing knowledge and improving mutual understanding between the two peoples across the divide of civilizations However the visible hand of government also proved to be most destructive to the development of healthy intercultural relations when educational interactions were treated merely as an instrument for crisis management
