South London neighbourhood of Peckham were invited to use the facilities of a radiantly modern building They were encouraged to freely choose and organize their leisure activities taking advantage of a swimming pool a gymnasium and a self service cafeteria In doing so both their health status and interaction with other members of the nascent centre community were closely observed by a team of physicians The first research monograph on the history of the experiment building on archival sources this book combines a micro historical perspective with methods from the history of science It shows how bio medical holism and evolutionary theories typical of the interwar years informed research on social life in the centre But it also reveals that the guinea pigs too were trying to make sense of the research they were taking part in The outcome was an ambiguous social laboratory that generated new insights into the power of social groups to self organize which were soon discussed all over the world and continue to haunt British political debates today

Civil Engineering Heritage Denis Smith,2001-12-11 This book deals with the civil engineering heritage of the capital and Thames Valley The development of London has attracted the design and construction skills of a range of eminent civil engineers and contractors The work of Sir Marc and I K Brunel the Rennie family Robert Stephenson William Cubitt Sir Joseph Bazelgette and many others is included The books in this series have all been designed specifically as guide books for exploring these landmarks and provide the reader with a ticket into Britain s engineering history
