Sir Robert Clayton And The Origins Of English Deposit Banking 1658 1685

Mabel Winter

Sir Robert Clayton And The Origins Of English Deposit Banking 1658 1685:

Sir Robert Clayton and the Origins of English Deposit Banking 1658-1685 Frank T. Melton, 2002-08-22 Based upon the most extensive early banking archive known to survive this book is the first major study of Stuart banking since R D Richards s *The Early History of Banking in England* 1928 It traces the origins and growth of banking from the late sixteenth century to the 1720s through two generations of a scriveners bank established in 1638 by Robert Abbott and perpetuated by his nephew Robert Clayton and John Morris With deposits from landowners rents and stock sales these bankers practised as moneylenders and money brokers for another sector of the gentry needing capital to offset the effects of the Great Rebellion and an agricultural depression After 1660 Clayton and Morris integrated mortgage security into banking practice This study examines the elaborate stages of land assessment and legal change which enabled bankers to offer large scale long term securities to their clients a pattern followed later by other banks such as Childs Hoares Martins and Coutts British Banking John Orbell, 2017-07-05 This substantially expanded new edition of the *Guide to the Historical Records of British Banking* contains details of over 700 archive collections held in local record offices university and local libraries and of course banks This monumental reference work facilitates a wider knowledge and understanding of the history of British finance

Networks and Connections in Legal History Michael Lobban, Ian Williams, 2020-09-03 Explores networks of lawyers legislators and litigators and how they shape legal development in Britain and the world

Banking, Projecting and Politicking in Early Modern England Mabel Winter, 2022-01-12 *Banking Projecting and Politicking* uncovers a previously understudied and unacknowledged financial institution in late seventeenth century England known as Thompson and Company Whilst the institution has been briefly mentioned in literary studies focusing on the poet and politician Andrew Marvell it has never been the sole focus of an economic financial commercial or political study in its own right As such nothing is known of how it operated where it sits in the history of English finance why it collapsed or what it can tell us about wider Restoration society and its economic and political culture Through a microhistorical study the book reconstructs the institution of Thompson and Company the social networks of its partners the identity of its creditors and the events and circumstances that led to its collapse The book situates the reconstructed institution within its economic commercial financial and political contexts using the evidence accrued to question the traditional narrative of financial and commercial development credit systems the relationship between economics finance commerce and politics and the place of risk and strategy in gendered relations credit and social status The book will be of interest to academics and students in economic history financial and business history

Law and Revolution Harold J. Berman, 2006-09-30 Berman s masterwork narrates the interaction of evolution and revolution in the development of Western law This volume explores two successive transformations of the Western legal tradition under the impact of the 16th century German Reformation and the 17th century English Revolution with particular emphasis on Lutheran and Calvinist influences Empire and enterprise David

Brown,2020-03-09 This book is about the transformation of England's trade and government finances in the mid seventeenth century a revolution that destroyed Ireland In 1642 a small group of merchants the Adventurers for Irish land raised an army to conquer Ireland but sent it instead to fight for parliament in England Meeting secretly at Grocers Hall in London from 1642 to 1660 they laid the foundations of England's empire and modern fiscal state But a dispute over their Irish land entitlements led them to reject Cromwell's Protectorate and plot to restore the monarchy This is the first book to chart the relentless rise of the Adventurers and their profound political influence It is essential reading for students of Britain and Ireland in the mid seventeenth century the origins of England's empire and the Cromwellian land settlement **The British**

Fiscal-Military States, 1660-c.1783 Aaron Graham,Patrick Walsh,2016-05-26 The concept of the fiscal military state popularised by John Brewer in 1989 has become familiar even commonplace to many historians of eighteenth century England Yet even at the time of its publication the book caused controversy and the essays in this volume demonstrate how recent work on fiscal structures military and naval contractors on parallel developments in Scotland and Ireland and on the wider political context has challenged the fundamentals of this model in increasingly sophisticated and nuanced ways Beginning with a historiographical introduction that places *The Sinews of Power* and subsequent work on the fiscal military state within its wider contexts and a commentary by John Brewer that responds to the questions raised by this work the chapters in this volume explore topics as varied as finance and revenue the interaction of the state with society the relations between the military and its contractors and even the utility of the concept of the fiscal military state It concludes with an afterword by Professor Stephen Conway situating the essays in comparative contexts and highlighting potential avenues for future research Taken as a whole this volume offers challenging and imaginative new perspectives on the fiscal military structures that underpinned the development of modern European states from the eighteenth century onwards **Women**

of Fortune Linda Levy Peck,2018-10-25 *Women of Fortune* tells the compelling story of mercantile wealth arranged marriages and merchant heiresses who asserted their rights despite loss imprisonment and murder Following three generations of the Bennet and Morewood families who made their fortune in Crown finance the East Indies the Americas and moneylending Linda Levy Peck explores the changing society economy and culture of early modern England The heiresses curious intrepid entrepreneurial scholarly married into the aristocracy fought for their property and wrote philosophy One spent years on the Grand Tour Her life in Europe despite the outbreak of war is vividly documented Another's husband went to debtors prison She recovered the fortune and bought shares Husbands sons and contemporaries challenged their independence legally financially even violently but new forms of wealth education and the law enabled these heiresses to insist on their own agency create their own identities and provide examples for later generations **Corruption, Party, and Government in Britain, 1702-1713** Aaron Graham,2015-05-28 *Corruption Party and Government in Britain 1702-1713* offers an innovative and original reinterpretation of state formation in eighteenth century Britain reconceptualising it as a

political and fundamentally partisan process Focussing on the supply of funds to the army during the War of the Spanish Succession 1702 13 it demonstrates that public officials faced multiple incompatible demands but that political partisanship helped to prioritise them and to hammer out settlements that embodied a version of the national interest These decisions were then transmitted to agents in overseas through a mixture of personal incentives and partisan loyalties which built trust and turned these informal networks into instruments of public policy However the process of building trust and supplying funds laid officials and agents open to accusations of embezzlement fraud and financial misappropriation In particular although successive financial officials ran entrepreneurial private financial ventures that enabled the army overseas to avoid dangerous financial shortfalls they found it necessary to cover the costs and risks by receiving illegal gratifications from the regiments Reconstructing these transactions in detail this book demonstrates that these corrupt payments advanced the public service and thus that corruption was as much a dispute over ends as means Ultimately this volume demonstrates that state formation in eighteenth century Britain was a contested process of interest aggregation in which common partisan aims helped to negotiate compromises between various irreconcilable public priorities and private interests within the frameworks provided by formal institutions and then collaboratively imposed through overlapping and intersecting networks of formal and informal agents

Forging Modernity Martin Hutchinson, 2023-03-20 The Industrial Revolution provided the greatest increase in living standards the world has ever known while propelling Britain to dominance on the global stage In *Forging Modernity* Martin Hutchinson looks at how and why Britain gained this prize ahead of its European competitors After comparing their endowments and political structures as far back as 1600 he then traces how Britain through better policies primarily from the political Tory party diverged from other European countries Hutchinson's Harvard MBA allows a unique perspective on the early industrial enterprises many successes resulted from marketing control systems and logistics rather than from production technology alone while on a national scale the scientific method and commercial competition were as important as physical infrastructure By 1830 through ever improving policies Britain had built a staggering industrial lead half a century ahead of its rivals Then the Tories lost power and policy changed forever In his conclusion Hutchinson shows how changes welcomed by conventional historians caused the decline of Industrial Britain Nevertheless the policies that drove growth ingenuity and rising living standards are still available for those bold enough to adopt them

If you ally obsession such a referred **Sir Robert Clayton And The Origins Of English Deposit Banking 1658 1685** book that will find the money for you worth, acquire the utterly best seller from us currently from several preferred authors.
