Sir William Scott Lord Stowell Judge Of The High Court Of Admiralty 1798 1828:

Sir William Scott, Lord Stowell Henry J. Bourguignon, 2004-02-12 A biography of the judge reputed to be the greatest of civilian lawyers *The Documentary History of the Supreme Court of the United States, 1789-1800: Cases, 1798-1800* Maeva Marcus, 1985 *Legal Foundations of Tribunals in Nineteenth Century England* Chantal Stebbings, 2007-01-18 Nineteenth century governments faced considerable challenges from the rapid novel and profound changes in social and economic conditions resulting from the industrial revolution In the context of an increasingly sophisticated and complex government from the 1830s the specialist and largely lay statutory tribunal was conceived and adopted as the principal method of both implementing the new regulatory legislation and resolving disputes The tribunal's legal nature and procedures and its place in the machinery of justice were debated and refined throughout the Victorian period In examining this process this 2007 book explains the interaction between legal constraints social and economic demand and political expediency that gave rise to this form of dispute resolution It reveals the imagination and creativity of the legislators who drew on diverse legal institutions and values to create the new tribunals and shows how the modern difficulties of legal classification were largely the result of the institution's nineteenth century development Literary Copyright Reform in Early Victorian England Catherine Seville, 1999-09-20 This text was the first study of the controversial bills leading to the Copyright Act 1842 Navies in Northern Waters Rolf Hobson, TOM KRISTIANSEN, 2004-08-02 *Navies in Northern Waters* is a collection of articles covering the roles played by the secondary navies of northern European powers and the United States within the maritime balance of power The contributions covering the 18th and 19th centuries focus on their relations with each other as they sought to create a counterweight to the dominant naval power of Britain The inter war years are treated from the perspectives of international disarmament efforts within the framework of collective security and the subsequent naval rivalry in the Baltic area in the years leading up to the Second World War For the post 1945 period the contributions concentrate on superpower rivalry in northern waters during the Cold War the changing aspects of security policy since the collapse of the Soviet Union and the particular challenges facing small coastal states policing extensive waters of increasing economic importance **The Encyclopedia of the War of 1812** Spencer C.
