Sisters In Servitude:

Into Silence and Servitude Brian Titley, 2017-08-01 For many American Catholics in the twentieth century the face of the Church was a woman's face. After the Second World War as increasing numbers of baby boomers flooded Catholic classrooms the Church actively recruited tens of thousands of young women as teaching sisters. In *Into Silence and Servitude* Brian Titley delves into the experiences of young women who entered Catholic religious sisterhoods at this time. The Church favoured nuns as teachers because their wageless labour made education more affordable in what was the world's largest private school system. Focusing on the Church's recruitment methods Titley examines the idea of a religious vocation the school settings in which nuns were recruited and the tactics of persuasion directed at both suitable girls and their parents. The author describes how young women entered religious life and how they negotiated the sequence of convent formation stages each with unique challenges respecting decorum autonomy personal relations work and study. Although expulsions and withdrawals punctuated each formation stage the number of nuns nationwide continued to grow until it reached a pinnacle in 1965 the same year that Catholic schools achieved their highest enrolment. Based on extensive archival research memoirs oral history and rare Church publications *Into Silence and Servitude* presents a compelling narrative that opens a window on little known aspects of America's convent system.

Black Slaveowners Larry Koger, 2011-12-02 Drawing on the federal census wills mortgage bills of sale tax returns and newspaper advertisements this authoritative study describes the nature of African American slaveholding its complexity and its rationales. It reveals how some African American slave masters had earned their freedom and how some free Blacks purchased slaves for their own use. The book provides a fresh perspective on slavery in the antebellum South and underscores the importance of African Americans in the history of American slavery. The book also paints a picture of the complex social dynamics between free and enslaved Blacks and between Black and white slaveowners. It illuminates the motivations behind African American slaveholding including attempts to create or maintain independence to accumulate wealth and to protect family members and sheds light on the harsh realities of slavery for both Black masters and Black slaves. **BLACK SLAVEOWNERS** Shows how some African Americans became slave masters. **MOTIVATIONS FOR SLAVEHOLDING** Highlights the motivations behind African American slaveholding. **SOCIAL DYNAMICS** Sheds light on the complex social dynamics between free and enslaved Blacks.

To Govern Is to Serve Jacques Dalarun,2023-02-15 To Govern Is to Serve explores the practices of collective governance in medieval religious orders that turned the precepts of the Gospels most notably that the first will be last the last will be first into practices of communal deliberation and the election of superiors Jacques Dalarun argues that these democratic forms have profoundly influenced modern experiences of democracy in particular the idea of government not as domination but as service Dalarun undertakes meticulous textual analysis and historical research into twelfth and thirteenth century religious movements from Fontevraud and the Paraclete of Abelard and Heloise through St Dominic and St Francis that sought their superiors from among the less exalted members of their communities to chart how these experiments prefigured certain aspects of modern democracies those allowing individuals to find their way forward as part of a collective Wide ranging and deeply original To Govern Is to Serve highlights the history of the reciprocal bonds of service and humility that underpin increasingly fragile democracies in the twenty first century
