

The background of the cover is a collage of several black and white street maps from different cities. These maps are scattered and partially overlapping. Numerous thick, bright red arrows are drawn over the maps, all pointing towards a central black rectangular box. The arrows originate from various points on the maps and converge on the box, creating a sense of direction and focus.

The Situationist International Alastair Hemmens, Gabriel Zacarias, 2020-04-20 From its foundation in 1957 to its self dissolution in 1972 the Situationist International established itself as one of the most radical revolutionary organisations of the twentieth century This book brings together leading researchers on the SI to provide a comprehensive critical analysis of the group's key concepts and

contexts from its relationship to earlier artistic avant gardes romanticism Hegelianism the history of the workers movement and May 68 to the concepts and practices of spectacle constructed situations everyday life and d tournament The volume also considers historically underexamined areas of the SI including the situation of women in the group and its opposition to colonialism and racism With contributions from a broad range of thinkers including Anselm Jappe and Michael L wy this account takes a fresh look at the complex workings of a group that has come to define radical politics and culture in the post war period

Aesthetic Revolutions and Twentieth-Century Avant-Garde Movements Aleš Erjavec, 2015-05-08 This collection examines key aesthetic avant garde art movements of the twentieth century and their relationships with revolutionary politics The contributors distinguish aesthetic avant gardes whose artists aim to transform society and the ways of sensing the world through political means from the artistic avant gardes which focus on transforming representation Following the work of philosophers such as Friedrich Schiller and Jacques Rancière the contributors argue that the aesthetic is inherently political and that aesthetic avant garde art is essential for political revolution In addition to analyzing Russian constructivism surrealism and Situationist International the contributors examine Italian futurism s model of integrating art with politics and life the murals of revolutionary Mexico and Nicaragua 1960s American art and the Slovenian art collective NSK s construction of a fictional political state in the 1990s Aesthetic Revolutions and Twentieth Century Avant Garde Movements traces the common foundations and goals shared by these disparate arts communities and shows how their art worked towards effecting political and social change Contributors John E Bowlt Sascha Bru David Craven Ale Erjavec Tyrus Miller Raymond Spiteri Mi ko uvakovic

Gaming Utopia Claudia Costa Pederson, 2021-04-06 In Gaming Utopia Ludic Worlds in Art Design and Media Claudia Costa Pederson analyzes modernist avant garde and contemporary video games to challenge the idea that gaming is an exclusively white heterosexual male corporatized leisure activity and reenvisioning it as a catalyst for social change By looking at over fifty projects that together span a century and the world Pederson explores the capacity for sociopolitical commentary in virtual and digital realms and highlights contributions to the history of gaming by women queer and transnational artists The result is a critical tool for understanding video games

as imaginative forms of living that offer alternatives to our current reality With an interdisciplinary approach Gaming Utopia emphasizes how game design creation and play can become political forms of social protest and examines the ways that games as art open doors to a more just and peaceful world Urban Design Ecologies Brian McGrath,2013-01-14 The discipline of urban design is undergoing a rapid expansion and realignment It is experiencing a shift from a profession dominated by architects and planners directed at urban development to a more expansive set of practices engaging new forms of social and environmental ecologies as cities worldwide adapt to economic restructuring mass migrations and climate change Bringing together classic and new texts from the last 40 years this AD Reader focuses attention on the critical tools needed to understand how cities have been designed and constructed and then changed over time This enables new ways of envisioning how cities must be conceived and adapted in the future to the dual conditions of rapid urbanisation and economic restructuring coupled with unpredictable environmental conditions due to climate change With its emphasis on both urban design and the ecological this book brings together key articles that point the way forward for reconciling the often conflicting concerns of urbanism and environmentalism Twenty three texts are organised into four distinct sections covering metropolitan architecture the sprawling megalopolis the megacity and the recently emerging metacity These are broadly chronological and highlight the recent thinking behind some of the key urban developments ranging from the art of traditional city making covered by European architects and historians in the late 20th century to contemporary Tokyo described by Atelier Bow Wow Features original texts from Reyner Banham Rem Koolhaas Aldo Rossi Colin Rowe David Grahame Shane Bernard Tschumi Oswald Mathias Ungers and Robert Venturi Denise Scott Brown and Steven Izenour Contains newly commissioned texts from Mary Cadenasso Sharon Haar and Victoria Marshall Carlos Leite Steward TA Pickett and Albert Pope Includes new translations of important essays by Vittorio Gregotti and Paola Vigan Topics range from the European historic city to the Las Vegas Strip and the megacity of S o Paulo taking in the global sustainable city

Rethinking the Spectacle Devin Penner,2019-06-15 Spectacle is usually considered a superficial form of politics which tries to distract and deceive a passive audience It is difficult to see how this type of politics could be reconciled with the democratic requirement of active and informed agency Rethinking the Spectacle re examines the tension between spectacle and political agency in our hyper mediated digital society Devin Penner uses the theories and practices of Guy Debord and the Situationist International as a point of departure offering both a critical review of Situationist ideas and a way to develop their radical democratic potential in the current political climate Emphasizing the importance of thinking about the connection between spectacle and broader democratic processes Rethinking the Spectacle also looks at various models of social and political organization and includes an in depth assessment of the 2011 Occupy movement Ultimately Rethinking the Spectacle concludes that properly conceived spectacle can in fact mobilize the public for egalitarian purposes Utopia David Ayers,Benedikt Hjartarson,Tomi Huttunen,Harri Veivo,2015-12-14 Utopian hope and dystopian despair are

characteristic features of modernism and the avant garde Readings of the avant garde have frequently sought to identify utopian moments coded in its works and activities as optimistic signs of a possible future social life or as the attempt to preserve hope against the closure of an emergent dystopian present The fourth volume of the EAM series European Avant Garde and Modernism Studies casts light on the history theory and actuality of the utopian and dystopian strands which run through European modernism and the avant garde from the late 19th to the 21st century The book s varied and carefully selected contributions written by experts from around 20 countries seek to answer such questions as how have modernism and the avant garde responded to historical circumstance in mapping the form of possible futures for humanity how have avant garde and modernist works presented ideals of living as alternatives to the present how have avant gardists acted with or against the state to remodel human life or to resist the instrumental reduction of life by administration and industrialisation

Liquid Crystals Esther Leslie,2016-11-15 While it is responsible for today s abundance of flat screens on televisions computers and mobile devices most of us have only heard of it in the ubiquitous acronym LCD with little thought as to exactly what it is liquid crystal In this book Esther Leslie enlightens us offering an accessible and fascinating look at not a substance not a technology but a wholly different phase of matter As she explains liquid crystal is a curious material phase that organizes a substance s molecules in a crystalline form yet allows them to move fluidly like water Observed since the nineteenth century this phase has been a deep curiosity to science and in more recent times the key to a new era of media technology In between that time as Leslie shows it has figured in cultural forms from Romantic landscape painting to snow globes from mountaineering to eco disasters and from touchscreen devices to DNA Expertly written but accessible *Liquid Crystals* recounts the unheralded but hugely significant emergence of this unique form of matter

Illusion and Fetishism in Critical Theory Vasilis Grollios,2023-12-01 Through the negative dialectics of Theodore Adorno *Illusion and Fetishism in Critical Theory* offers an examination of Nietzsche Benjamin Castoriadis and the Situationists who put the concept of illusion at the forefront of their philosophical thought Vasilis Grollios argues that these political philosophers except Castoriadis have up to now been wrongly considered by many scholars to be far from the line of thinking of negative dialectics Critical Theory and the early Frankfurt School Open Marxist tradition He illustrates how these thinkers focused on the illusions of capitalism and attempted to show how capitalism by its innate rationale creates social forms that are presented as unavoidable and universal yet are historically specific and of dubious sustainability Providing a unique overview of concepts including illusion totality fetishization contradiction identity thinking and dialectics Grollios expertly reveals how their understanding of critique can help us open cracks in capitalism and radicalize democratic social practice today *Illusion and Fetishism in Critical Theory* is a must read for scholars of political theory and political philosophy critical theory the Frankfurt School sociology and democratic theory

Postmodern Anarchism Lewis Call,2002-01-01 Delving into the anarchist writings of Nietzsche Foucault and Baudrillard and exploring the cyberpunk fiction of William Gibson and Bruce Sterling theorist Lewis

Call examines the new philosophical current where anarchism meets postmodernism This theoretical stream moves beyond anarchism s conventional attacks on capital and the state to criticize those forms of rationality consciousness and language that implicitly underwrite all economic and political power Call argues that postmodernism s timely influence updates anarchism making it relevant to the political culture of the new millennium

Radical Intellectuals and the Subversion of Progressive Politics Michael J. Thompson, Gregory Smulewicz-Zucker, 2015-09-09 Radical Intellectuals and the Subversion of Progressive Politics is a challenge to contemporary radical politics and political thought This collection of essays critiques the dominant trends and figures on the left that have distorted the legacy of progressive politics arguing that they have moved politics away from issues of class and economic power toward a preoccupation with culture and identity The contributors discuss this new radicalism from the perspective of a more rational form of leftism capable of reviving interest in a more politically relevant form of politics

Capitalism and Class Struggle in the USSR Neil C. Fernandez, 2018-12-14 First published in 1997 this was the first Autonomist Marxist book on the USSR The various theories of Soviet capitalism are considered more comprehensively than in any previous work and are shown to be inadequate insofar as they fail to demonstrate satisfactorily the predominance of the category of capital A powerful new theory is developed which does precisely this introducing the concepts of bureaucratic forms of both exchange value and money This constitutes an important contribution to the overall theoretical critique of capital Attention is then turned to the class struggle For the first time the various Marxist theories of the USSR are systematically considered in relation to what they say about the working class and its struggle
