The Reign of Ideology Eugene Goodheart, 1997 Exposing the debilitating effects of much ideology critique which seeks to reveal the effects of power privilege and interest underlying critical approaches to works of art whether practiced by feminists neo Marxists Foucauldians new Historicists or post colonialists Goodheart argues for a new kind of criticism that will reintroduce the pleasures of literature

Knowledge and Ideology Michael Morris, 2016-11-10 Ideology critique generally seeks to undermine selected theories and beliefs by demonstrating their partisan origins and their insidious social functions This approach rightly reveals the socially implicated nature of much purported knowledge but also brackets or bypasses its cognitive properties In contrast Michael Morris argues that it is possible to integrate the social and epistemic dimensions of belief in a way that preserves the cognitive and adjudicatory capacities of reason while acknowledging that reason itself is inevitably social historical and interested Drawing upon insights from Hegel Luk cs Mannheim and Habermas he interprets and reconstructs Marx s critique of ideology as a positive theory of knowledge one that reconciles the inherently interested and inextricably situated nature of thought with more traditional conceptions of rational adjudication normativity and truth His wide ranging examination of the social and epistemic dimensions of ideology will interest readers in political philosophy and political theory

The Church in the Republic: Gallicanism & Political Ideology in Renaissance France Church in the Republic Jotham Parsons, 2004-12 This book presents an examination of the ways in which Renaissance humanism and the Catholic and Protestant Reformations interacted to create the modern state

The Origins of Fascist Ideology 1918-1925 Emilio Gentile, 2005-08-01 The masterwork by Gentile fills a broad gap in the understanding of the origins of a major political movement of the 20th Century fascism This is the first detailed and definitive study of the development and initial success of fascism as it originated in Italy right after the First World War the author traces each major influence and gives us a complete understanding of the birth of the doctrine that changed the face of Europe and found imitators of Mussolini around the world for decades

Shelley's Intellectual System and its Epicurean Background Michael Vicario, 2017-09-25 Scholars do not agree on how best to describe Shelley s philosophical stance His work has been variously taken to be that of a skeptic or a skeptical and subjective idealist The study presents a new interpretation of Shelley s thinking an interpretation that places intellectual system squarely within the Epicurean tradition of Lucretius casting both poets as theistic empiricists To establish Shelley as working in the Epicurean tradition this study explores Lucretius De Rerum Natura as edited translated and interpreted by two Epicurean scholars roughly contemporary with Shelley Gilbert Wakefield and John Mason Good These scholars rehabilitated Lucretius by drawing on three major seventeenth century thinkers Pierre Gassendi Ralph Cudworth and Nicholas Malebranche Like Shelley each of these thinkers rejected the reduction of philosophy to mechanical and atomistic elements a reduction which Shelley referred to as materialism or

popular dualism What Shelley rejected is a clue to what he embraced a fusion of Enlightenment Rationalism with British Empiricism Such a fusion is the distinguishing mark of the work of Sir William Drummond the only contemporary philosopher that Shelley consistently praised This is the tradition within which Shelley ultimately stands one that brings into balance what is given to the mind a priori and what the mind creates Ruminations: Selected Philosophical, Historical, and Ideological Papers: Volume 1, Part 1, The Infinite Eric v.d. Luft, 2019-06-14 Since the 1970s I have pursued three separate but overlapping and sometimes simultaneous careers 1 philosopher writer teacher historian of the long nineteenth century 1789 1914 2 editor translator photographer publisher biographer encyclopedist 3 cataloging librarian rare books and special collections librarian historian of medicine Somehow these three vocations have garnered me some acclaim even an entry in Who's Who in America Each of them has resulted in some published or presented works Because these works have been scattered in a wide variety of venues some of which have gone out of print or have otherwise become generally unavailable and of course with the oral presentations being gone as soon as they are given I have thought it wise to select epitomize and bring them together in one place here Thus what follows in these volumes is what I consider to be the most important of my shorter works
