Smell Our Senses:

Our Senses Rob DeSalle, 2018-01-09 An animated introduction to the neuroscience of sensory perception informed by the latest research on topics from music to brain injuries to synesthesia Kirkus Reviews In recent years neuroscience has uncovered a wealth of new information about our senses and how they serve as our gateway to the world This splendidly accessible book explores the most intriguing findings of this research With infectious enthusiasm Rob DeSalle illuminates not only how we see hear smell touch taste maintain balance feel pain and rely on other less familiar senses but also how these senses shape our perception of the world aesthetically artistically and musically DeSalle first examines the question of how perception and consciousness are formed in the brain setting human senses in an evolutionary context He then investigates such varied themes as supersenses and diminished senses synesthesia and other cross sensory phenomena hemispheric specialization diseases anomalies induced by brain injuries and hallucinations Focusing on what is revealed about our senses through the extraordinary he provides unparalleled insights into the unique wonders of the human brain In the laboratory sensory science is serious business But in the capable hands of Rob DeSalle it becomes fun and compelling for the general reader and is made all the more accessible by Patricia Wynne s delightful illustrations Ian Tattersall author of *The Strange Case of the Rickety Cossack and Other Cautionary Tales from Human Evolution* *Engaging Jesus with Our Senses* Jeannine Marie Hanger, 2024-08-27 Jesus took on flesh he was embodied And the Gospels use multisensory language to reveal that his teaching ministry and interactions with people engaged the senses Consider the raging storm on the Sea of Galilee the perfume filling the house as Mary anointed Jesus s feet the significance of touch as Jesus healed people Jesus even described himself in sensory terms as the bread of life the light of the world the vine to whom his disciples are connected Our physical senses are crucial to gaining knowledge of the world around us Yet when it comes to Bible reading we often reduce it to a mere cognitive experience ignoring the Psalmist s invitation to taste and see that the Lord is good This book offers a fresh way to read the Gospels with an emphasis on embodiment focused on a life abiding in Christ The goal is a greater more tangible knowledge of God Jeannine Hanger points to the importance of engaging our physical senses in Bible reading shows an approach to doing so with an emphasis on sparking the imagination and looks at how utilizing our primary senses plays out in reading the Gospels Each chapter includes sensory practices and questions for personal reflection The book includes a foreword by Grant Macaskill *Sense of Smell*, 1995-09-01 This packet has been prepared to help you teach a unit on smell It includes an informational text poem and writing page Children will also enjoy completing the coloring page and worksheet They will soon have a greater awareness of their sense of smell *Making Sense of Our Senses Gr.
