Smell in Eighteenth-Century England William Tullett, 2019-08-13 In England from the 1670s to the 1820s a transformation took place in how smell and the senses were viewed The role of smell in developing medical and scientific knowledge came under intense scrutiny and the equation of smell with disease was actively questioned Yet a new interest in smell's emotive and idiosyncratic dimensions offered odour a new power in the sociable spaces of eighteenth century England Using a wide range of sources from diaries letters and sanitary records to satirical prints consumer objects and magazines William Tullett traces how individuals and communities perceived the smells around them from paint and perfume to onions and farts In doing so the study challenges a

popular influential and often cited narrative Smell in Eighteenth Century England is not a tale of the medicalization and deodorization of English olfactory culture Instead Tullett demonstrates that it was a new recognition of smell s asocial sociability and its capacity to create atmospheres of uncomfortable intimacy that transformed the relationship between the senses and society 1938: Modern Britain Michael John Law,2017-12-14 In 1938 Modern Britain Michael John Law demonstrates that our understanding of life in Britain just before the Second World War has been overshadowed by its dramatic political events 1938 was the last year of normality and Law shows through a series of case studies that in many ways life in that year was far more modern than might have been thought By considering topics as diverse as the opening of a new type of pub the launch of several new magazines the emergence of push button radios and large screen televisions sets and the building of a huge office block he reveals a Britain both modern and intrigued by its own modernity that was stopped in its tracks by war and the austerity that followed For some life in Britain was as consumerist secular Americanized and modern as it would become for many in the late 1950s and early 1960s Presenting a fresh perspective on an important year in British social history illuminated by six engaging case studies this is a key study for students and scholars of 20th century Britain Victorian Nightshades Elizabeth A. Campbell,2025-03-27 A darkly alluring plant family and the arrival of modernity Victorian Nightshades tells the story of how one plant family notorious for centuries in England because of its frequently psychoactive and poisonous properties rose to social and economic prevalence during the nineteenth century Beginning with bittersweet and belladonna the Old World species associated with evil witchcraft and dangerous women in an era when traditional botanical beliefs not only assigned morality to plants but also gendered them Campbell then moves to the ubiquitous potato and tobacco before concluding with four of the Solanaceae that achieved the widest national favor by the end of the century the ornamental petunia and the edible pepper eggplant and tomato The story of the nightshades exposes the conflicts between science and popular sentiment and between knowledge and received opinion that defined the nineteenth century Campbell compellingly details how advances in medical and botanical knowledge evolutionary theory and the vagaries of human desire transformed the Solanaceae from a plant family plagued by fear and hostility in the British imagination to one of cultural favor and celebration by the turn of the century encapsulating the Victorian era s course to modernity Austerity Britain, 1945-1951 David Kynaston,2008-05-13 A people s history of post World War II England is a social profile that links everyday lives to period events while paying tribute to the nation s passionate dedication to its survival and rebuilding in an account that also traces the stories of such individuals as journalist Jon Arlott actress Glenda Jackson and writer Doris Lessing 10 000 first printing **The Tobacco Challenge** Geraint Howells,2016-02-17 Addressing three central questions of legal policy this is an interesting and comprehensive analysis of the need to control and regulate tobacco consumption The core issues of the book are litigation vs regulation with a comparative analysis of the US and European approaches the challenge to regulate tobacco as a lawful product within constitutional limits to promote the

reduction of risks to health and the extent to which consumers should be entrusted with information to make their own informed choices Suggesting dialogue and transparency in policy development this book covers advertising psychology ethics economics and health in addition to the central debate about the litigation and regulation of tobacco and the role of consumer protection law and private law *Strong, Beautiful and Modern* Charlotte Macdonald,2013-01-20 In the late 1930s and early 1940s a wave of state sponsored national fitness programs swept Britain and its former settler colonies laying the foundations for the twentieth century s obsession with fitness In *Strong Beautiful and Modern* Charlotte Macdonald shows how governments encouraged citizens to be healthier and more active and thereby reinforced the cultural ties of the Empire Alongside these state sponsored efforts was a growing emphasis from business the medical establishment and popular culture on the importance of having a better body At a time when government concern over public health issues such as obesity is once again on the rise Macdonald offers valuable lessons as to why the first national fitness drive was ultimately a failure Drawing on extensive research *Strong Beautiful and Modern* is a lively investigation into the way people and their governments think about health and well being and how historical views have shaped our modern life **London Clubland** A. Milne-Smith,2011-11-15 This work is the first to study the gentlemen s clubs that were an important feature of the Late Victorian landscape and the first to discover the secret history of clubmen and their world placing them at centre stage detailing how clubland dramatically shaped 19th and early 20th century ideas about gender power class and the city
