Handbook of Social Justice Interventions in Education Carol A. Mullen, 2021-08-27 The Handbook of Social Justice Interventions in Education features interventions in social justice within education and leadership from early years to higher education and in mainstream and alternative formal and informal settings. Researchers from across academic disciplines and different countries describe implementable social justice work underway in learning environments, organizations, programs, classrooms, communities, etc. Robust, dynamic, and emergent theory-informed applications in real-world places make known the applied knowledge base in social justice and its empirical, ideological, and advocacy orientations. A multiplicity of social justice-oriented lenses, policies, strategies, and tools is represented in this Handbook along with qualitative and quantitative methodologies. Alternative and conventional approaches alike advance knowledge and educational and social utility. To cover the field comprehensively, the subject, i.e., social justice education and leadership, is subdivided into four sections. Part I background provides a general background of current social justice literature. Part II schools addresses interventions and explorations in preK-12 schools. Part III education covers undergraduate and graduate education and preservice teacher programs, classrooms, and curricula in addition to teacher and student leadership in schools. Part IV leadership features educational leadership and higher education leadership domains from organizational change efforts to preservice leader preparation programs, classrooms, etc. Part V comparative offers interventions and explorations of societies, cultures, and nations. Assembling this unique material in one place by a leading cast will enable readers easy access to the latest research-informed interventionist practices on a timely topic. They can build on this work that takes the promise of social justice to the next level for changing global learning environments and workplaces.

Recent Social Trends in Canada, 1960-2000 Lance W. Roberts, 2005 Canadian society has changed dramatically since 1960. This work captures the scope and range of these

changes through a systematic documentation of seventy eight social trends The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values In contrast to many recent works and journalistic reports Recent Social Trends in Canada concentrates on the trajectory of change rather than on current events It provides a longitudinal context in which unfolding events can be interpreted in a broader historical and international context

Comparable volumes in the McGill Queen s Comparative Charting of Social Change series describe similar tendencies in the United States Quebec France Germany Italy Greece Russia and Bulgaria making it possible to situate the Canadian experience in a global context
