

SOCIOLOGICAL THEORY

Sociology is the scientific study of human society, social relationships, and the patterns of behavior that emerge within them.

OVERVIEW

Sociology explores how individuals are shaped by social structures, cultural norms, and institutions, and how they, in turn, shape society. Sociologists analyze various social phenomena such as inequality, social change, and group dynamics to understand how they impact individuals and communities.

KEY THEORIES

- **Functionalism:** The study of how societies achieve stability and order through social institutions.
- **Critical Theory:** The study of how social institutions maintain social inequalities and power imbalances.
- **Symbolic Interactionism:** The study of how society is constructed through shared meanings, symbols, and interactions among individuals.

Tar,2008-10-30 Since the late 1980s the changing dynamic of global development has driven the tide of democratic expansion in the developing world In Africa western donors have sought to impose neo liberal visions of socio economic and political institution building spreading political reforms and economic liberalisation with far reaching consequences Associated with external interventions but also sometimes conflicting with them are internal protests against authoritarianism which have problematically reinforced and or undermined the donor agenda for democratic reform Here Usman Tar questions the assumption that Africa was lacking the essential components for a spontaneous transition to democracy He explores the dynamic but contradictory links between external and internal dimensions of neo liberal democratic expansion in Africa focusing on Nigeria Tar dissects the struggles for democracy and

for democratic policy and practice in a country with rich economic potential but a troubled political dispensation

Foundations of Theory Construction in The Social Sciences Dejo A. Abdulrahman, 2025-09-24 The book opens with a discussion of the philosophical foundations of theorising in the social sciences goes on to describe the components of theory and then compares deduction and induction as tools of research and theory construction with particular emphasis on conceptualisation the identification of properties and dimensions constructing theoretical statements linking properties and dimensions as well as developing and integrating categories in deduction and induction respectively The writer of the book has made a bold attempt to produce an overview of the needful for the production of quality academic research reports beginning with a discussion on theories and theory building methodology and data analysis Attempts are also made to demonstrate the link between theory theorising on one hand and on the other methodology analysis of data and production of quality research reports The book undeniably fills the gap needed at this point helping teachers students of sociology and other social science disciplines in higher institutions of learning to gain mastery of the production of profound social scientific works I heartily commend the book to readers across sub Sahara Africa and beyond Professor Olayiwola Erinoshon PhD Toronto FNASA FSSAN *The Emerald Handbook of Multi-Stakeholder Communication* Pantea Foroudi, Bang
