The Transnational and the Local in the Politics of Islam Delmus Puneri Salim, 2015-02-26 This book explores the relationship between transnational and local Islam as expressed in public discourse and policy making as represented in the local press It does so against the background of local governments in majority Muslim regions across Indonesia promoting and passing regulations that mandate forms of social or economic behaviour seen to be compatible with Islam The book situates the political construction of Islamic behaviour in West Sumatra and in Indonesia more generally within an historical context in which rulers have in some way engaged with aspects of Islamic practice since the Islamic kingdom era The book shows that while formal local Islamic regulations of this kind constitute a new development their introduction has been a product of the same kinds of interactions between international national and local elements that have characterised the relationship between Islam and politics through the course of Indonesian history The book challenges the scholarly tendency

to over emphasise local political concerns when explaining this phenomenon arguing that it is necessary to forefront the complex relationship between local politics and developments in the wider Islamic world To illustrate the relationship between transnational and local Islam the book uses detailed case studies of four domains of regulation Islamic finance zakat education and behaviour and dress in a number of local government areas within the province

Sociology,1994 **Samuel Stouffer and the GI Survey** Joseph W. Ryan,2013-11-01 Samuel Stouffer a little known sociologist from Sac City Iowa is likely not a name World War II historians associate with other stalwart men of the war such as Eisenhower Patton or MacArthur Yet Stouffer in his role as head of the Army Information and Education Division s Research Branch spearheaded an effort to understand the citizen soldier his reasons for fighting and his overall Army experience Using empirical methods of inquiry to transform general assumptions about leadership and soldiering into a sociological understanding of a draftee Army Stouffer perhaps did more for the everyday soldier than any general officer could have hoped to accomplish Stouffer and his colleagues surveyed more than a half million American GIs during World War II asking questions about everything from promotions and rations to combat motivation and beliefs about the enemy Soldiers answers often demonstrated that their opinions differed greatly from what their senior leaders thought soldier opinions were or should be Stouffer and his team of sociologists published monthly reports entitled What the Soldier Thinks and after the war compiled the Research Branch s exhaustive data into an indispensable study popularly referred to as The American Soldier General George C Marshall was one of the first to

recognize the value of Stouffer's work referring to *The American Soldier* as the first quantitative studies of the mental and emotional life of the soldier. Marshall also recognized the considerable value of *The American Soldier* beyond the military. Stouffer's wartime work influenced multiple facets of policy including demobilization and the GI Bill. Post-war Stouffer's techniques in survey research set the state of the art in the civilian world as well. Both a biography of Samuel Stouffer and a study of the Research Branch, Samuel Stouffer and the GI Survey, illuminates the role that sociology played in understanding the American draftee Army of the Second World War. Joseph W. Ryan tracks Stouffer's career as he guided the Army leadership toward a more accurate knowledge of their citizen soldiers while simultaneously establishing the parameters of modern survey research. David R. Segal's introduction places Stouffer among the elite sociologists of his day and discusses his lasting impact on the field. Stouffer and his team changed how Americans think about war and how citizen soldiers were treated during wartime. Samuel Stouffer and the GI Survey brings a contemporary perspective to these significant contributions.

A Visual Approach to the Study of Religious Orders Marcin Jewdokimow, Thomas Quartier, OSB, 2019-05-01. A Visual Approach to the Study of Religious Orders applies visual methods to the exploration of various facets of religious life such as everyday lived experience, contemporary monastic identity, or monastic architecture. Presenting a series of visual essays, it treats images not as simple illustrations but as an autonomous form of expression capable of unveiling vital and developmental layers of experience while inviting readers to examine and interpret the data themselves. The first book of its kind, it brings together case studies from various locations across Europe to demonstrate what the use of visual methodologies can contribute to social scientific research on religious orders. As such, it will appeal to scholars and students of sociology, religious studies, and theology, and anyone with interests in religious orders.

Bourdieuian Prospects Lisa Adkins, Caragh Brosnan, Steven Threadgold, 2016-11-10. *Bourdieuian Prospects* considers the ongoing relevance of Bourdieu's social theory for contemporary social science. Breaking with the tendency to reflect on Bourdieu's legacies, it brings established and emergent scholars together to debate the futures of a specifically Bourdieusian sociology. Driven by a central leitmotif in Bourdieu's oeuvre, namely that his work not be blindly appropriated

but actively interpreted contributors to this volume set out to map the potentials of Bourdieusian inflected social science
While for many social scientists the empirical and theoretical developments of the twenty first century mark a limit point of
Bourdieuian social theory this collection charts both how and why a Bourdieusian sociology has a future which is crucial for
the ongoing development and roll out of an engaged relevant and critical social science Problems of Communism ,1972
