Sodruzhestvo Evraziia:

Peacekeeping And The Role Of Russia In Eurasia Lena Jonson, Clive Archer, 2019-06-04 As the number of peacekeeping efforts conducted internationally under the aegis of military forces increases there is more pressure to resolve the dilemma inherent in all peacekeeping activities how to combine efficiency with legitimacy This dilemma is particularly acute in the many conflicts that have mushroomed in the Eurasian region following the disintegration of the Soviet state Given the history of Soviet Russian repression of ethnic national entities can Russia the USSR's primary heir be relied on to resolve rather than inflame conflicts in the other post Soviet states and regions In order to answer this question the contributors to this timely volume evaluate the factors that guarantee Russia's intervention in its near abroad They debate whether Russian peacekeeping is legitimate according to international norms or whether it may be a harbinger of neoimperialism Finally they explore the origins and effectiveness of Russia's intervention in four cases of regional conflict and discuss the complexities of broader multilateral involvement **The International Politics of Eurasia: v. 4: The Making of Foreign Policy in Russia and the New States of Eurasia** S. Vasilyeva, Maria L. Lagutina, 2016-09-14 Modern trends in geopolitics have raised serious questions about the future global and regional architecture of the world system In the case of the Eurasian Economic Union these questions bring up important issues for debate What is the Eurasian Economic Union What theoretical concepts could be applied for modern Eurasian integration Why is the Eurasian Economic Union forming Most importantly what prospects does this Union have in the framework of the modern geopolitical situation This book explores the process of Eurasian integration in the modern global world The creation of the Eurasian Economic Union has become a topical issue in modern Russian foreign policy Neo-Eurasianist ideas can be viewed as a geopolitical basis and rationale for the Eurasian Economic Union that may constitute an integrational structure consolidating the post-Soviet area and neighboring regions This book argues that Eurasia is a region representing an organic integrity due to close mentality common and centuries long history common language of

international communication a multitude of economic ties and an identical level of technological development across all countries within the post Soviet area Yet advancement of the Eurasian integration idea into practical implementation should have new objective suppositions as well These are defined by the contemporary economic political and ethno cultural processes in the post Soviet space

Anthropology & Archeology of Eurasia, 2006 **Ukraine and Russia** Roman Solchanyk, 2001 This timely study provides a clear analysis of both the domestic and foreign policies and security issues confronting Russia's largest and most important neighbor during its first decade as an independent state Roman Solchanyk emphasizes throughout the book the complex centuries old Ukrainian Russian relationship which is so central that the Russian question plays the determining role in Ukraine's foreign and domestic politics In turn the policy choices of Ukraine's leaders influence the direction of Russia's own transformation The book opens with a conceptual framework that addresses the key issues of the Ukrainian Russian relationship The initial chapters illustrate how relations between Kyiv and Moscow changed in the final analysis dramatically under the conditions of a crumbling and ultimately collapsing Soviet state This is followed by a discussion of how the Russian question influences Ukraine's internal developments political social and economic as well as its behavior in the international arena The concluding chapters focus specifically on Crimea a microcosm of the Ukrainian Russian relationship Basing his argument on a wealth of primary source material the author argues that the success of both Ukraine's and Russia's nation and state building projects will be largely determined by the normalization of their historically conditioned relationship Indeed success or failure will profoundly influence the direction of regional and European foreign policy and security
