Eric D. Feigelson, Jogesh Babu, 2006-05-26 Digital sky surveys high precision astrometry from satellite data deep space data from orbiting telescopes and the like have all increased the quantity and quality of astronomical data by orders of magnitude per year for several years Making sense of this wealth of data requires sophisticated statistical techniques Fortunately statistical methodologies have similarly made great strides in recent years Powerful synergies thus emerge when astronomers and statisticians join in examining astrostatistical problems and approaches The book begins with an historical overview and tutorial articles on basic cosmology for statisticians and the principles of Bayesian analysis for astronomers As in earlier volumes in this series research contributions discussing topics in one field are joined with commentary from scholars in the other Thus for example an overview of Bayesian methods for Poissonian data is joined by discussions of planning astronomical observations with optimal efficiency and nested models to deal with instrumental effects The principal theme for the volume is the statistical methods needed to model fundamental characteristics of the early universe on its largest scales      Educational Media Index.[Complete Series] ,1964      **The Stars in Our Pockets** Howard

Axelrod, 2020-01-14 What shapes our sense of place our sense of time and our memory How is technology changing the way we make sense of the world and of ourselves Our screens offer us connection especially now in the wake of the COVID 19 pandemic but there are certain depths of connection our screens can't offer to ourselves to the natural world and to each other In this personal exploration of digital life's impact on how we see the world Howard Axelrod marshals science philosophy art criticism pop culture and his own experience of returning from two years of living in solitude in northern Vermont The Stars in Our Pockets is a timely reminder of the world around us and the worlds within us and how as alienated as we may sometimes feel they were made for each other      Glossaries of BLM Surveying and Mapping Terms ,1980
