Speaking as a war veteran I do believe Ed Tick's heart has seen what my eyes have seen Robert Reiter veterans service officer Post traumatic stress disorder increasingly afflicts veterans of modern warfare The New England Journal of Medicine reports that it affects almost 20% of soldiers returning from Iraq Tragically PTSD impacts all aspects of life Some vets can't hold jobs or sustain relationships Others have recurrent nightmares or won't leave home fearing they may attack the enemy seen in the faces of those they meet To begin healing says Edward Tick we must see PTSD as a disorder of identity itself The violence of war can cause the very soul to flee and be lost for life Drawing on history mythology and thirty years of experience Dr Tick reveals the universal dimensions of veterans' soul wounding He uses methods from ancient Greek Native American Vietnamese and other traditions to restore the soul so that the veteran can at last truly return home His work is invaluable for veterans of any war as well as for their families and all who care for them Healing Point of View Mary Burkhart Reed, 2010-04 Mary's Healing Point of View just may be the catalyst that will empower you to move forward in your life to greater happiness success joy bliss and peace This is an entertaining account of Mary and her family's history This revealing and honest book sounds like a novel but it is all true There are hidden secrets that are disclosed sexual and physical abuse attempted murder laughter adultery marriages divorce and more As one reader said The book runs the gamut of emotions This sensational book is interwoven by thought provoking questions lessons and quotes You may find that you get motivated to change that old programming you no longer want when you read Healing Point of View **Back from the Front** Aphrodite Matsakis, 2007 Pastoral Care of Alcohol Abusers Andrew J. Weaver, Harold George Koenig, Over 120 million American teens and adults use alcohol at one time or another While in most situations these individuals are able to use it responsibly and with moderation no one is immune to its destructive use which makes it a significant public health issue Many drinkers find that their otherwise responsible use turns problematic and abusive when faced with depression trauma grief undue social pressures or other tempting and potentially addictive behaviors Not all of these people become full fledged alcoholics but they do develop an alcohol problem that needs careful and sensitive pastoral care to understand the underlying issues for their alcohol abuse Because of this clergy and other pastoral counselors need to develop competence in recognizing alcohol abuse problems including alcoholism identifying when to make referrals helping persons to find available community resources and training congregational members to provide support to affected individuals and families

Trauma and Transformation in African Literature J. Roger Kurtz, 2020-10-04 This book fills a gap in the field of contemporary trauma studies by interrogating the relevance of trauma for African literatures Kurtz argues that a thoughtful application of trauma theory in relation to African literatures is in fact a productive exercise and furthermore that the benefits of this exercise include not only what it can do for African literature but also what it can do for trauma studies He makes the case for understanding trauma healing within the larger project of peacebuilding with an emphasis on the transformative potential of what he terms the African moral imagination as embodied in the creative work of its writers He offers readings of selected works by Chinua Achebe Ngugi wa Thiong'o Chimamanda Adichie and Nuruddin Farah as case studies for how African literature can influence our understanding of trauma and trauma healing This will be a valuable volume for those with interests in current trends and developments in trauma studies African literary studies postcolonial studies and memory studies

Unspeakable Truths and Happy Endings Rebecca Coffey, 1998 With the electrifying tales of 15 survivors of catastrophic human cruelty at its narrative core Unspeakable Truths squabbles about victimhood and recovered memory The book concludes that as thinking and caring inhabitants of a menacing world we must all learn to hear unspeakable truths At the same time that we risk accepting the truths about violence and degradation that survivors memories hold we must reasonably engage critical thinking when memories of violence and degradation stretch the limits of our credulity We owe it to survivors to listen compassionately we owe it to ourselves to listen prudently
