## **Soldiers Of The International A History Of The Communist Party Of Canada 1919 1929:**

Soldiers of the International William Rodney, 1968      *Red Travellers* Andrée Lévesque, 2006-11-03 Corbin's red itinerary began when she joined the Young Communist League in Edmonton. She later held party posts across the country through her involvement with *The Worker* in Toronto, a French communist paper in Montreal, the Workers Cooperative in Timmins, and a lumbermen's strike in Abitibi where she was jailed for taking part in a protest. She died of tuberculosis in London, Ontario, in 1944.

Propaganda and Censorship During Canada's Great War Jeff Keshen, 1996-07 They expected the brave and Christian conquering heroes manufactured by the opinion makers rather than the combat-scarred, weary and often embittered men who disembarked back in the Dominion. It took another decade of less filtered information, ten years of pain and dislocation for returned veterans before the Great War imagined by Canadian noncombatants began to resemble the war really experienced by Canadians overseas.

*The New Practical Guide to Canadian Political Economy* Daniel Drache, Wallace Clement, 1985-01-01 The *New Practical Guide to Canadian Political Economy* is a handy reference to the vast range of research and writing that political economists in Canada have completed to the date of publication. The book is divided into twenty-five subject bibliographies, each one compiled and introduced by an expert in the field. The overall range of subjects includes economic development in Canada, Canada's external economic relations, regional disparities, and regional development, social and economic classes, women, Native peoples, politics, and the Canadian state, nationalism, culture, and political thought. The book is indexed by author and includes a helpful shortlist of the staples in Canadian political economy. Published in 1985, *The New Practical Guide to Canadian Political Economy* remains a useful reference to some of the classic literature of the discipline.

Labour at the Lakehead Michel Beaulieu, 2011-05-07 In the early twentieth century, politicians singled out the Lakehead as a breeding ground for radical labour politics. Michel S. Beaulieu returns northern Ontario to its rightful place as a birthplace of leftism in Canada by exposing the conditions that gave rise to an array of left-wing organizations. Cultural ties among workers helped bring left-wing ideas to Canada, but ethnicity weakened the left as each group developed a distinctive vocabulary of socialism, and as Anglo-Celtic workers defended their privileges against Finns, Ukrainians, and Italians. At the Lakehead, ethnic difference often outweighed class solidarity at the cost of a stronger labour movement for Canada.

**Maritime Rights Movement/Univ Microfilm** Ernest R. Forbes, 1979-01-01 This book provides the first full account of a major social and political movement of the interwar years in Canada: the campaign for Maritime Rights, which erupted in the Atlantic provinces after World War I. Ernest R. Forbes traces the history of the movement from its origins in the decline in relative status and influence of the Maritimes that accompanied the rise of the West and the growing dominance of the Central Canadian metropolises. Maritimers saw their political influence reduced, the underpinnings of their economy especially in the critical areas of tariffs, freight rates, and subsidies whittled away, and Canada defined in terms that seemed to exclude them. Adopting a strategy characteristic of the progressive movements of the period, they attempted

through organization and agitation to restore their position Farmers fishermen manufacturers and organized labour articulated their demands through the provincial press boards of trade union locals educational conferences and mass delegations to Ottawa Professor Forbes challenges traditional assumptions in his emphasis upon a vigorous Maritime progressivism that transcended party affiliations All the political parties tried to use the protest movement but none had created it nor had it a specific founder or leader The agitation was in fact a spontaneous expression of the economic and social frustrations of the Maritime people Although their efforts were largely defeated by the conflicting interests of stronger regions and by the King government's adroitness in defusing protest through a policy of study and delay the author believes that the aroused Maritimers had succeeded in establishing their difficulties in the public's mind as a national problem

**Sweatshop Strife** Ruth A. Frager, 1992-11-06 In the first half of the twentieth century many of Toronto's immigrant Jews eked out a living in the needle trade sweatshops of Spadina Avenue In response to their exploitation on the shop floor immigrant Jewish garment workers built one of the most advanced sections of the Canadian and American labour movements Much more than a collective bargaining agency Toronto's Jewish labour movement had a distinctly socialist orientation and grew out of a vibrant Jewish working class culture Ruth Frager examines the development of this unique movement its sources of strength and its limitations focusing particularly on the complex interplay of class ethnic and gender interests and identities in the history of the movement She examines the relationships between Jewish workers and Jewish manufacturers as well as relations between Jewish and non Jewish workers and male and female workers in the city's clothing industry In its prime Toronto's Jewish labour movement struggled not only to improve hard sweatshop conditions but also to bring about a fundamental socialist transformation It was an uphill battle Drastic economic downturns hard employer offensives and state repressions all worked against unionists workplace demands Ethnic gender and ideological divisions weakened the movement and were manipulated by employers and their allies Drawing on her knowledge of Yiddish Frager has been able to gain access to original records that shed new light on an important chapter in Canadian ethnic labour and women's history

Molinaro, 2017-05-08

During periods of intense conflict either at home or abroad governments enact emergency powers in order to exercise greater control over the society that they govern The expectation though is that once the conflict is over these emergency powers will be lifted *An Exceptional Law* showcases how the emergency law used to repress labour activism during the First World War became normalized with the creation of Section 98 of the Criminal Code following the Winnipeg General Strike Dennis G Molinaro argues that the institutionalization of emergency law became intricately tied to constructing a national identity Following a mass deportation campaign in the 1930s Section 98 was repealed in 1936 and contributed to the formation of Canada's first civil rights movement Portions of it were used during the October Crisis and recently in the Anti Terrorism Act of 2015 Building on the theoretical framework of Agamben Molinaro advances our understanding of security as ideology and reveals the intricate and codependent

relationship between state formation the construction of liberal society and exclusionary practices **Left**

remembering the adversity and milestones experienced by Canada's working class      Scotland, empire and decolonisation in the twentieth century Bryan Glass, John M. MacKenzie, 2017-03-01 This volume represents one of the first attempts to examine the connection between Scotland and the British empire throughout the entire twentieth century. As the century dawned, the Scottish economy was still strongly connected with imperial infrastructures like railways, engineering, construction, and shipping, and colonial trade and investment. By the end of the century, however, the Scottish economy, its politics, and its society had been through major upheavals which many connected with decolonisation. The end of empire played a defining role in shaping modern day Scotland and the identity of its people. Written by scholars of distinction, these chapters represent ground-breaking research in the field of Scotland's complex and often changing relationship with the British empire in the period. The introduction that opens the collection will be viewed for years to come as the single most important historiographical statement on Scotland and empire during the tumultuous years of the twentieth century. A final chapter from Stuart Ward and Jimmi Stergaard Nielsen covers the 2014 referendum.
