Fierke,2005-04-22 Diplomatic Interventions argues that war is a social construction In so doing it unsettles the definition of intervention as a coercive interference by one state in the affairs of another to examine the range of communicative or diplomatic practices which through their presence modify the experience of war The tension between claims that war is pervasive and that war is a social construct is analysed in relation to a range of moral legal military economic cultural and therapeutic interventions The concluding chapter highlights how the book itself is a critical intervention that requires us look at again from a new angle at international practice      The Statesman's Year-Book 1986-87 J. Paxton,2016-12-22 The classic reference work that provides annually updated information on the countries of the world      The Statesman's Year-Book 1989-90 J. Wandycz,2017-07-05 The Price of Freedom surveys and explains the fascinating and intricate history of East Central Europe the present day countries of the Czech Republic Hungary Poland and Slovakia Taking a thematic approach the author explores such issues and controversies as the tension between the industrial developed West and the agrarian East Central Europe the rise of modern nationalism democracy and authoritarianism and Communism While the countries of East Central Europe have differed dramatically from one another the author asserts that they have been bound by a certain community of fate These comparisons are traced through the Middle Ages and the Early Modern era to the nineteenth and twentieth centuries This exploration reveals that it is no accident that the Czech Republic Hungary and Poland were the first among the former Soviet bloc nations to be admitted to NATO and are likely to become the first members of the expanded European Union Thus an understanding of their experiences contributions and their place within the European community of nations vastly enriches our knowledge of Europe s past and present The second edition of this distinguished book brings the history of the region up

*The Ethical Spirit of EU Values* Markus Frischhut, 2022-09-14 This open access book summarising the research conducted at this Jean Monnet Chair seeks to identify the ethical spirit of European Union EU values EU integration began at the economic level human rights were only added at a later stage Finally the Lisbon Treaty turned the EU into a Union of values by enshrining certain concepts in Art 2 TEU This provision can be seen as a hub linked to various other provisions of EU primary and secondary law The values contained therein have amongst others been applied to two areas digitalisation and non financial reporting partly in sports and further specified in others health and partly in sports This book analyses the evolution of values *ratione temporis* and the questions of who is entitled and who is obliged *ratione personae* Besides the external perspective *ratione limitis* e g Brexit it focuses on the composition of the EU s common values *ratione materiae* As Art 2 TEU can be viewed as a hub it is essential to focus on various relations not only between values but also between values and other provisions of EU law as well as other concepts Based on this description of the status quo the book subsequently addresses a possible future direction arguing for an additional narrative trust an additional value environmental protection and a more communitarian Union In closing apart from the classical commitment of the EU and the Member States to uphold the values of the EU the book discusses the level of individuals and values as virtues Various figures and tables complement this overview of the status quo of the Union of values and outline of its future direction

*Religion and Contemporary Politics* Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography

to advance the reader's understanding of the complexities of these processes      **Background Notes, Poland** ,1987

Historical Dictionary of Poland 1945-1996 Piotr Wróbel,2014-01-27 Located between the former Soviet Union and eastern Germany Poland has the potential to become a political and economic bridge between the East and West It is crucial to European security and stabilization yet the list of reference books on recent Polish history is very short This book fills that gap providing information on Polish political economic and cultural history since 1945      The Polish Review ,2008      *Trade Union Activists, East and West* Guglielmo Meardi,2018-05-08 This title was first published in 2000 This text concerns the transformation of class consciousness It shows that differences between trade union activists from the East and West are not inherited from the past but are socially constructed and that Eastern trade unions are no longer like their Western counterparts as opposed to not yet like them The study concentrates mainly on Italy and Poland with East and West referring to concepts and perceptions rather than as a geographical concern It discovers whether the differences in trade union consciousness are due to the meaning members give a situation or the specificity of the local work settings

**Anti-Communist Student Organizations and the Polish Renewal** Charles Wankel,1992-06-18 Offers an account of the key role of Polish student movements in the rebirth of their country It provides a history of student activism in Poland and explains the context in which recent changes have occurred      Revolution and Resistance in Eastern Europe Kevin McDermott,Matthew Stibbe,2006-10-01 The history of Eastern Europe during the Cold War is one punctuated by protest and rebellion Revolution and Resistance in Eastern Europe covers these flashpoints from the Stalin Tito split of 1948 to the dramatic collapse of the Berlin Wall in 1989 Covering East Germany Czechoslovakia Hungary Yugoslavia Poland and Romania the authors provide comprehensive critical analysis of the varying forms of dissent in the East European socialist states They take a comparative approach and show how the different movements affected one another Incorporating archival material only accessible since 1989 they discuss issues such as the diverse manifestations of non conformity among different strata of the population the complex relationship between Moscow and the national Communist Parties the loosening of Soviet control after 1985 and everyday resistance to state authority This book offers a firm grounding in the tumultuous decades of communist rule which is essential to understanding the contemporary politics of Eastern Europe
